## **Terror Or Love:**

**Terror, Love and Brainwashing** Alexandra Stein, 2016-11-03 Written by a cult survivor and renowned expert on cults and totalitarianism *Terror Love and Brainwashing* draws on the author's 25 years of study and research to explain how almost anyone given the right set of circumstances can be radically manipulated to engage in otherwise incomprehensible and often dangerous acts. Illustrated with compelling stories from a range of cults and totalitarian systems from religious to political to commercial, the book defines and analyses the common and identifiable traits that underlie almost all these groups. It focuses on how charismatic authoritarian leaders control their followers' attachment relationships via manipulative social structures and ideologies so that emotionally and cognitively isolated they become unable to act in their own survival interests. Using the evolutionary theory of attachment to demonstrate the psychological impact of these environments and incorporating the latest neuroscientific findings, Stein illustrates how the combined dynamic of terror and love works to break down people's ability to think and behave rationally. From small local cults to global players like ISIS and North Korea, the impact of these movements is widespread and growing. This important book offers clarity and a unique perspective on the dynamics of these systems of control and concludes with guidance to foster greater awareness and prevention. It will be essential reading for mental health professionals in the field as well as policy makers, legal professionals, cult survivors and their families as well as anyone with an interest in these disturbing groups. Students of social and developmental psychology will also find it fascinating.

**Islamic Terror** Avner Falk, 2008-07-30 Independent scholar Falk analyzes the genesis of Islamic terror from many standpoints including religious, cultural, historical, political, social, economic and above all psychological. Drawing on his training as a clinical psychologist, Falk's writings specialize in psychohistory and political psychology. Here he examines topics including infantile experience and adult terrorism, the meaning of terror, terrorists and their mothers' narcissistic rage and Islamic terror, and whether terrorists are normal people as some scholars claim. He also describes the infantile development of terrorist pathology, non-psychoanalytic theories of terrorism, globalization's effect on terrorism and the notion of the clash of civilizations. Other topics addressed in this reader-friendly analysis include history's first Islamic terrorists and three important cases: two recent deadly terrorists and a primary figure in our current war on terror. Independent scholar Falk analyzes the genesis of Islamic terror from many standpoints including religious, cultural, historical, political, social, economic and above all psychological. Drawing on his training as a clinical psychologist, Falk's writings specialize in psychohistory and political psychology. He also describes the infantile development of terrorist pathology, non-psychoanalytic theories of terrorism, globalization's effect on terrorism and the notion of the clash of civilizations. Examining the emotional structure of traditional Muslim families, Falk shows us the Muslim child's ambivalence toward his or her parents' ways in

which Muslims abuse women and children and the roots of Muslim rage and why all of that plays into the development of future terrorism Other topics addressed in this reader friendly analysis include history s first Islamic terrorists and three important cases two recent deadly terrorists and a primary figure in our current war on terror The central idea throughout the book is that a person s attitude toward terror and terrorism as well as whether he or she becomes a murderous terrorist or even who wages a global war on terror has much to do with that person s own terrifying experiences in infancy and childhood Such terror usually experienced first in the earliest interactions with the mother is symbolically expressed as Falk shows in fairy tales and myths about terrifying witches and female monsters Further terror may be experienced in the relationship with the father and also in various other traumatic ways It is these early terrors when extreme and uncontrollable that most often produce terrorists and wars on terror Falk argues Thus his book focuses on the conscious but also on the irrational and unconscious causes of terrorism

**Coasting in the Countertransference** Irwin Hirsch,2011-02-25 Winner of the 2009 Goethe Award for Psychoanalytic Scholarship Irwin Hirsch author of Coasting in the Countertransference asserts that countertransference experience always has the potential to be used productively to benefit patients However he also observes that it is not unusual for analysts to coast in their countertransferences and to not use this experience to help treatment progress toward reaching patients and analysts stated analytic goals He believes that it is quite common that analysts who have some conscious awareness of a problematic aspect of countertransference participation or of a mutual enactment nevertheless do nothing to change that participation and to use their awareness to move the therapy forward Instead analysts may prefer to maintain what has developed into perhaps a mutually comfortable equilibrium in the treatment possibly rationalizing that the patient is not yet ready to deal with any potential disruption that a more active use of countertransference might precipitate This coasting is emblematic of what Hirsch believes to be an ever present and rarely addressed conflict between analysts self interest and pursuit of comfortable equilibrium and what may be ideal for patients achievement of analytic aims The acknowledgment of the power of analysts self interest further highlights the contemporary view of a truly two person psychology conception of psychoanalytic praxis Analysts embrace of their selfish pursuit of comfortable equilibrium reflects both an acknowledgment of the analyst as a flawed other and a potential willingness to abandon elements of self interest for the greater good of the therapeutic project      Faith in the Shadows Austin Fischer,2018-09-11 People don t abandon faith because they have doubts People abandon faith because they think they re not allowed to have doubts Even as a pastor Austin Fischer has experienced the shadows of doubt and disillusionment Leaning into perennial questions about Christianity he shows that doubt is no reason to leave the faith instead it s an invitation to a more honest faith
