Terrorism 1980 1987 A Selectively Annotated Bibliography

Martha Crenshaw

Terrorism 1980 1987 A Selectively Annotated Bibliography:

Terrorism, 1980-1987 Edward F. Mickolus, 1988-04-21 This work together with Mickolus's *Literature of Terrorism A Selectively Annotated Bibliography* published in 1980 provides the most comprehensive bibliography on terrorist violence available in print *Terrorism 1980 1987* concentrates on material written during the 1980s a period which has seen an enormous outpouring of commentary and research on terrorism and terrorist attacks In addition to surveying journalistic social scientific and traditional historical studies in some dozen languages the book also includes the fictional literature of terrorism offering a broad cross section of research and opinion on the subject The material is organized into sections based on region and functional categories enabling the researcher to compare quickly developments in specific topics Coverage ranges from general treatments of terrorism and tactics of terrorists to material that deals with the terrorist infrastructure terrorism in specific geographic areas and responses to terrorism The compilers have made special efforts to include items from publications not often cited in terrorism studies both to give the reader an indication of the breadth of material available and to offer insights into the pervasive effects of terrorism on all aspects of life *Chronology of World Terrorism, 1901-2001* Henry E. Mattox, 2015-06-08 The attacks of September 11 2001 brought unprecedented attention to the problem of terrorism Yet the threat of terrorist acts has long been a specter in the lives of millions and the patterns and occurrences all too regular This chronology begins with President McKinley's assassination in September of 1901 and ends with the 9 11 attacks It details terrorist events both well known and obscure chosen as representative decade by decade of each particular period A concluding chapter examines changing trends in methods of attack and the effectiveness of various movements Appendices include a list of notable terrorist organizations international conventions governing terrorism and the U N Security Council resolution passed after the September 11 attacks *Historical Dictionary of Terrorism* Sean K. Anderson, Stephen Sloan, 2009-08-03 The United States Department of Defense defines terrorism as the calculated use of unlawful violence or threat of unlawful violence to inculcate fear intended to coerce or to intimidate governments or societies in the pursuit of goals that are generally political religious or ideological While terrorism has been around for centuries it was the al Qaeda attacks of September 11 2001 that brought home to the world and most particularly the United States just how dangerous terrorism can be The third edition of the *Historical Dictionary of Terrorism* presents the full spectrum of forms of political violence through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on major terrorist groups and their leaders significant terrorist events cyber terrorism counterterrorism and social science concepts regarding the motivations and group dynamics of terrorist groups Authors Sean K Anderson and Stephen Sloan move beyond the gut reaction we have to this volatile and divisive topic by providing a reliable and objective reference on terrorism **The 50 Worst Terrorist Attacks** Edward F. Mickolus, Susan L. Simmons, 2014-08-11 In the last 50 years terrorists have committed hundreds of horrific acts of violence to further their causes This accessible single volume

text covers the most significant terrorist acts across contemporary history worldwide Since the attacks on September 11 2001 terrorism has remained the chief threat to international stability and security The 50 Worst Terrorist Attacks draws on all forms of terrorism international transnational and domestic anywhere in the world covering all types of acts e g bombings assassinations armed attacks skyjackings by any organization and ideology The work goes beyond documenting the key events that occurred in or involved the United States it also covers important terrorist attacks by left and right wing organizations religiously motivated groups and separatists that are largely unknown among Western audiences Each entry supplies the details of the attack the perpetrators victims and eventual resolution as well as the political social and international contexts in which the event occurred Readers will grasp the evolution of terrorist activities and methodologies in the 20th and 21st centuries understand the importance of each event in the development of the terrorist repertoire and gauge the responses intended to counter these new kinds of attacks

Information Sources in the Social Sciences

David Fisher,Sandra Price,Terry Hanstock,2018-02-19 No detailed description available for Information Sources in the Social Sciences Chronologies of Modern Terrorism Barry Rubin,Judith Colp Rubin,2015-01-28 Concise yet comprehensive this one volume reference examines the history of terrorism in the modern world including its origins and development and terrorist acts by groups and individuals from the French Revolution to today Organized thematically and regionally it outlines major developments in conflicts that involved terrorism the history of terrorist groups key aspects of counterterrorist policy and specific terrorist incidents Initial chapters explore terrorism as a social force and analyze the use of terrorism as a political tool both historically and in the contemporary world Subsequent chapters focus on different parts of the world and consider terrorism as a part of larger disputes Each chapter begins with a historical introduction and analysis of the topic or region followed by one or more chronologies that trace events within political and social contexts A glossary selected bibliography and detailed index are also included *Terrorism, 1980-1990* Amos Lakos,1991-10-15

Cases and

Materials on Terrorism Michael F. Noone,Yonah Alexander,2023-08-28 This book fills an important gap in the literature on terrorism It is designed as a case book including seminal cases which set out the fundamental rules or principles applicable when circumstances are sufficiently intense to warrant use of the term terrorism The United Kingdom is used as a primary source because English law regulating political violence has been continually refined in the 300 years since the Glorious Revolution and has served as a paradigm for other countries that derive their jurisprudence from that experience Ireland represents what might be called the post revolutionary variation Its laws were drafted and are administered by rebels and the children of rebels who clearly recall the successes and failures of the British campaigns in their country and who continue to observe the repercussions of pacification efforts in Northern Ireland Because there are fewer Irish court decisions and because Irish law in many instances mirrors the law of the United Kingdom only that Irish material which adds a distinctive perspective is included The United States presents a third peaceful model and a country which is increasingly

confronted by terrorist acts The themes addressed in this book revolve around legal efforts to reconcile security considerations with those liberal democratic values which the nations consider to be their constitutional heritage Part I looks at the treatment of aliens both those who seek admission and those admitted whom the state decides to expel Part II examines selected problems involving citizens rights and the extent if any to which these rights can be impaired by anti terrorist measures Part III focuses on these institutional restraints on governmental behaviour derived from legislation or from common law

Terrorism Versus Democracy Paul Wilkinson,2001 A sequel to Wilkinson s *Terrorism and the liberal state* 1986 this work concentrates on the problems of crafting and carrying out an effective response to terrorism that is both proportionate and compatible with the maintenance of democracy human rights and the rule of law Rather than setting out the history of modern terrorism Wilkinson director Centre for the Study of Terrorism and Political Violence U of St Andrews draws on events from the past 30 years and identifies emerging trends to extract key lessons on strategies policies and measures to prevent and combat terrorism He concludes that even relatively new and fragile democracies are not helpless in the face of terrorism and that an appropriate response may effectively prevent or even eradicate terrorist violence

Distributed by ISBS c Book News Inc *Democratic Responses to International Terrorism* David A. Charters,2023-11-27 Here is an interdisciplinary approach to the problems of terrorism featuring a variety of perspectives and effective responses The authors examine the phenomenon of terrorism from different angles noting its implications for democratic states and thoroughly explore various aspects of response from policy and planning to specific counter measures Published under the Transnational Publishers imprint

More Stories from Langley Edward F. Mickolus,2020-09 A collection of personal essays detailing the adventures advice and experience of generations of CIA analytic operational support and technical officers and managers

Crisis Management in Tourism Eric Laws,B. Prideaux,K. S. Chon,2006 The history of modern tourism records many localized and some international crises characterized by extreme and sudden reduction in demand for specific destination areas or types of tourism product Managerial responses to such events include both problem solving and market recovery steps but these vary in effectiveness and recovery may be slow to occur after the initial problems are overcome With examples drawn from the UK Europe America Australia and Asia this book brings together a range of expert academic analysis of the latest thinking and practice in this increasingly important area of tourism management

The Social Psychology of Crime Laurence Alison,2021-12-16 Crime is always part of a social process In many cases that process determines the form the crime takes In this ground breaking book a wide range of crimes are examined in terms of the social psychological processes that influence the participants and their relationships with each other Crimes as diverse as fraud and hostage taking are examined from a range of social science perspectives including broad anthropological perspectives on differences in the structure of criminal cultures as well as the detailed consideration of the roles offenders play in groups and teams of criminals This book opens up a new area of empirical study of relevance to students of crime as well as law

enforcement officers It will also be of value and interest to all those social scientists who wish to understand how their disciplines can contribute more effectively to the investigation of crime

Terrorism in Context Martha Crenshaw, 2010-11-01

Ibss: Political Science: 1988 British Library of Political and Economic Science, 1992 This bibliography lists the most important works in political science published in 1988

International Perspectives on Maritime Security, 1996

Israel Yearbook on Human Rights Y. Dinstein Domb, 1997-09-01 The Israel Yearbook on Human Rights an annual published under the auspices of the Faculty of Law of Tel Aviv University since 1971 is devoted to publishing studies by distinguished scholars in Israel and other countries on human rights in peace and war with particular emphasis on problems relevant to the State of Israel and the Jewish people The Yearbook also incorporates documentary materials relating to Israel and the Administered Areas which are not otherwise available in English including summaries of judicial decisions compilations of legislative enactments and military proclamations Volume 26 contains amongst others articles on The Essence of Democracy Democracy in International Relations The Threats to Democracy and Democracy in Israel and the Palestinian Authority

Counterterror Offensives for the Ghost War World Richard J. Chasdi, 2010-07-06 In Counterterror Offensives for the Ghost War World The Rudiments of Counterterrorism Policy Richard J Chasdi has written a groundbreaking quantitative analysis that provides new insight into which types of counterterror practices work best and which types perform poorly in particular operational environments and circumstances For Chasdi effectiveness is defined as the capacity of counterterror practices to work with stealth namely without eliciting high amounts of related follow up terrorist assaults He moves beyond individual country analyses to tackle an analysis of counterterror practice effectiveness based on the type of political system of the country carrying out counterterror offensives and the power level of that country within the international political system Chasdi furthermore provides essential qualitative descriptions of national security institutions stakeholders and processes to frame his quantitative results in ways that tie those findings to historical and contemporary political developments

Serenade of Suffering Richard J. Chasdi, 1999-01-01 In this book Richard Chasdi brings an impressive degree of scientific rigor and statistical analysis to bear on the topic of terrorist violence in the contemporary Middle East He has constructed an original and highly useful typology of terrorist groups that takes into consideration three main factors ideology goals and recruitment patterns With the assistance of this functional typology Chasdi argues that many patterns of terrorism have predictive value thereby allowing for preventive measures to be taken on both the local and international levels Yet Serenade of Suffering is more than just a tool for anti terrorist professionals It is also an insightful and complex portrait of modern terrorism in general its root causes the key differences between state sponsored and nonstate terrorist organizations and the questionable wisdom of trying to distinguish between good and bad types of terrorism A must read for area specialists students of conflict studies and international development professionals

Israel Yearbook on Human Rights, Volume 26 (1996) Yoram Dinstein, Fania Domb, 2020-10-26 The Israel Yearbook on
