Ciment,2015-03-10 First Published in 2015 This collection holds three volumes Terrorism is a term that defies easy definition
and its meaning has also changed over the course of history Because this encyclopedia aims at comprehensiveness across
time geography and the conceptual landscape it applies the broadest definition of terrorism the use of violence or the threat
of violence to effect political change through fear in which the victims of the violence The encyclopedia is divided into six
parts *Terrorism* Doug Lovelace,2008-03-27 Terrorism Documents of International and Local Control is a hardbound
series that provides primary source documents on the worldwide counter terrorism effort Chief among the documents
collected are transcripts of Congressional testimony reports by such federal government bodies as the Congressional
Research Service and the Government Accountability Office and case law covering issues related to terrorism Most volumes
carry a single theme and inside each volume the documents appear within topic based categories The series also includes a
subject index and other indices that guide the user through this complex area of the law With the addition of commentary
from a prominent member of the U S national security establishment Professor Douglas C Lovelace this series becomes the
premiere resource for an informative and analytical discourse on terrorism and how it continues to have a catastrophic effect
on our society Although Professor Lovelace acknowledges the current Iraq debate in his opening pages Understanding
United States National Security Strategy Relating to Terrorism Part II Derivative and Supporting Strategies primarily focuses
on the similarly difficult topic of how the U S may best secure its homeland By dividing this topic into three prominent
categories aviation security maritime security and domestic security Professor Lovelace expertly presents a summary of
current U S security policy and assesses the value of those policies Within the domestic security category he also provides
detailed guidance on such specialized issues as bio defense and the connection between the drug trade and terrorist
financing The Terrorism series remains a unique resource on all issues related to terrorism Strategic thinking in
Government Great Britain: Parliament: House of Commons: Public Administration Select Committee,2012-04-24 In the light
of recent concerns about a strategic vacuum at the centre of Government this Report explores the capacity of Ministers and

officials to carry out long term strategic thinking to tackle the complex diverse and unpredictable domestic and global challenges the country faces It finds that an absence of clear and precise definition of terms meant that policy and different levels of strategy became muddled leading to unintended and unwelcome outcomes Drawing on the evidence it received the Report sets out clear definitions for national or grand strategy operational strategy and policy PASC have produced a number of recommendations to overcome the barriers to working strategically in Government Central to these recommendations is that the Government should publish an annual Statement of National Strategy in Parliament which reflects the interests of all parts of the UK and the devolved policy agendas The report states that the Cabinet and its committees are accountable for decisions but there remains a critical unfulfilled role at the centre of Government in coordinating and reconciling priorities across departments and of long term and short term goals The report concludes that the government s six strategic aims as provided to PASC are too meaningless to serve any useful purpose The strategic aims of the Government informed by public opinion should reflect the UK s national character assets capabilities interests and values and provide an indication of the objectives which policies must achieve
