Fox, 2021-07-14

This book is for anyone who is interested in learning about terrorism in all its forms For over four decades I have studied terrorism trained to deal with it dealt with it and taught it as an academic discipline Over these decades I have seen an already complicated topic become even more difficult to understand The field of study has grown as the world has gotten smaller Ask anyone what terrorism is and you will get a myriad of answers Even in academia the topic has become more convoluted As with crime there are many theories espoused as to why one commits terrorism and why terrorism exists It appears to me that many academics researchers policymakers authors and journalists in general view this topic with a tainted lens based on their own world view Some act as apologists for terrorists while often doing so in a subtle manner Some try to expand the definition and concept well beyond the scope that it should be found I have students who do this all the time We seem to be living in an emotion driven society instead of a fact driven one A relatively new trend is to use the word extremist as a synonym for terrorist There are several problems with this First this creates a net widening effect which lumps those who we disagree with in that net Second who gets to decide who or what is extreme Third and finally it waters down and muddies the study of terrorism This does not mean that an extremist might not become a terrorist Having pointed out the minefield terrorism can be my goal is to offer an academically sound real world fact based explanation on terrorism Terrorism can be a politically charged topic I ask that as you read this book you check what is written digest it and make your own decisions on what you have read It is highly likely some of your thinking will be challenged When I began to teach homeland security which includes terrorism I made a promise to myself that I would never be politically correct Political correctness is what some terrorists rely on and is one of our worse habits We will cover several overarching themes We will look at what terrorism is and is not We will explore the historical roots of terrorism We will discuss the causes of terrorism as well as terrorist typologies Next we will examine domestic terrorism and international and ethnic terrorism Then we will dive into religion and terrorism and spend time looking at Islamic terrorism and Jihad We will examine asymmetric warfare including terrorists tactics and weapons of choice We will discuss terrorist financing and explore counterterrorism
