Drawing upon a diverse range of oral history interviews as well as available written sources the book explains the American contribution to Pakistani security objectives during the presidency of Bill Clinton 1993-2001. The author investigates and explains the dynamics which drove Islamabad's pursuit of nuclear weapons, its support for the Taliban and its approach towards the indigenous uprising in Indian Kashmir. She argues that Clinton's foreign policy contributed to the hardening of Islamabad's security perspectives, creating space for the Pakistani military establishment to pursue its regional security goals. The book also discusses the argument that US-Pakistan relations during this period were driven by a Cold War mindset, causing a fissure between US global and Pakistan's regional security goals. The Pakistani military and civilian leadership utilized these divergent and convergent trends to protect Islamabad's India-centric strategic interests. The book addresses a gap in the relevant literature and moves beyond the available mono-causal explanations, often distorted by a mixture of intellectual obfuscation and political rhetoric. It adds a Pakistani perspective and is a valuable contribution to the study of US-Pakistan relations.

Psychological Warfare and India Dr Arunkumar Bhatt, 2015-03-16

Wars are born in human mind. Great military leaders belonging to all times and cultures have always tried to influence the minds of their foes and friends alike to facilitate their own victories by making their enemies hesitant. The minds concerned could be influenced with a variety of overt and covert actions that send right signals to the target audiences. In the words of Allied Supreme Commander of the World War II, Gen Dwight Eisenhower, these actions are anything from the singing of a beautiful anthem to the most extraordinary kind of physical sabotage. This is Psychological Warfare, and the most preferred action is communication. Dr Arunkumar Bhatt, who being a defence journalist, knows nuances of communication and unfolds here this soft kill strategy and its tactics. He traces the history of the psychological warfare to establish how steadily its importance has grown. It became a war-winning factor in the Great War, and its role further expanded in the World War II. The Psywar, as it has come to be known among many names, has not looked back since then. The advances in science and technology, revolution in communication and information technologies have greatly enhanced the range and effectiveness of the psychological warfare in terms of both time and space. The Revolution in Military Affairs has been further sharpening the Psywar weapons. Dedicated Psywar units and even commands backed by elements in formation staff are in the vogue. The Psychological Warfare has now found a place among war by other means. It is recognised as a command function and is factored in planning at all levels. It is so important that the decision to deploy the psy weapons is taken at the top echelon of the high command, and this is done much ahead of the breaking out of hostilities. Where does India stand that has a poor strategic culture and still poorer awareness about its security stand vis-à-vis Psywar? Indian culture has instances of the Psywar. It was being practised in the ancient period. Kautilya recommends it strongly. Different invaders used it. The British practised it in an institutionalised fashion to rule India. India did counter the British psywar but in a rather irregular way. India used it successfully in some of the post-independence wars, but the country needs to do much more to protect itself against Psywar.
