Testimonio John Beverley, 2004 These four germinal essays by John Beverley sparked the widespread discussion and debate surrounding testimonio the socially and politically charged Latin American narrative of witnessing that culminated with David Stoll's highly publicized attack on Rigoberta Menchú's celebrated testimonial text Challenging Hardt and Negri's Empire Beverley's extensive new introduction examines the broader historical political and ethical issues that this literature raises tracing the development of testimonio from its emergence in the Cold War era to the rise of a globalized economy and of U.S. political hegemony Informed by postcolonial studies and the current debate over multiculturalism and identity politics Testimonio reaches across disciplinary boundaries to show how this particular literature at once represents and enacts new forms of agency on the part of previously repressed social subjects as well as its potential as a new form of alliance politics between those subjects and artists scientists teachers and intellectuals in a variety of local national and international contexts

Tierras en trance Jens Andermann, 2018 En esta densa y bella reflexión Jens Andermann nos introduce en la lógica del trance una forma de nombrar al nudo borromeo que enlaza el espacio y tiempo del sujeto con el de la comunidad ambos escindidos por violentos desplazamientos e hiatos temporales Así persigue un objeto desvaneciente que hacia adelante se dirige al hiperobjeto el in mundo postnatural pero que retrospectivamente puede ser leído como el trazado de una historia natural del antropoceno En la perspectiva del autor se trata del relato de un repliegue doblez del arte en relación a su marco institucional y desdoblamiento de modos anteriores de postulación estética del mundo como paisaje El ambiente surge así como escena conjunto espaciotemporal fluido que no se define por la exterioridad social de sus formas sino por la dinámica interna de sus fuerzas El trance de una cosa no es ni una parte ni un estado de la misma sino algo que de ella deriva D tournament Ese otro lugar semejante a un recipiente es un lugar transportable con la salvedad de que el recipiente nunca es parte de su contenido Así en la medida en que es separable de la cosa el trance no es la forma y en cuanto la contiene es algo distinto de la materia Nos enseña que todo espacio es parataxis sin origen ni orientación intenso pero no extenso liminar del límite El trance es el silencio o secreto del arte su reconfiguración absolutamente contemporánea mediante la cual lo estético se redefine como el umbral mismo de nuestra inespecificidad
