Sweet Release James Davison, Ph.D, 2010-06-03 African Americans have come a long way in the difficult upward struggle from slavery to the relatively broad freedoms enjoyed today Together as a potent and well knit group they have battled endlessly in their march toward freedom Finally according to psychologist James Davison Jr the last step to freedom for black Americans has arrived But that last step must be taken as individuals not as a collective In this assessment of the problems and potentials facing African Americans Dr Davison argues that in order for achieving individuals to advance to the final step of freedom they must break free from the mental shackles created by the black community The central theme of *Sweet Release* is that the forces that impinge most upon psychological freedom for black Americans come from within Guilt for being successful shame in reaction to the misbehaviors of race peers demands to give back to the community and accusations of trying to be white are just a few of the mechanisms that thwart psychological freedom for black persons Dr Davison argues that individual lifestyles aspirations even identities are constrained by the specter of racial unity As a result for black advancers what remains to be overcome is not the system or them but internalized community attitudes that put a choke hold on individual freedom Unafraid of controversy or candid assessment Dr Davison addresses these and other thorny issues with psychological insight

while offering strategies to move beyond group constrictions toward personal freedom James Davison Jr PhD Sacramento CA is a psychologist in private practice and also works in the criminal justice system for the California State Prison system In addition he is the author of Prisoners of Our Past **New Blood** Chris Bobel,2010 Chris Bobel is a careful ethnographer respectful of research participants and while she clearly takes a stand on menstrual activism she handily defends her proposition that feminism is finding its balance between reliving its past and creating its future Bobel s work which includes incisive analysis of how third wave activists incorporate and update tactics and strategies of the second wave will be a welcome addition to the scholarship of feminism Elizabeth Kissling author of Capitalizing on the Curse The Business of Menstruation **Reifying Women's Experiences with Invisible Illness** Kesha Morant Williams,Frances Selena Morant,2017-12-20 Reifying Women s Experiences with Invisible Illness Illusions Delusions Reality provides a platform that recognizes that the experience of invisible illness is greatly influenced by context and personal circumstance The contributors to this book include women who exude diversity as it relates to race and ethnicity career religious experience education social support and interpersonal relationships From recent college graduates to senior level professionals these women share stories that create a space to advocate on behalf of the individual who is chronically ill rather than focusing on the often privileged perspective of medical professionals
