**Popper and Economic Methodology** Thomas Boylan,Paschal O'Gorman,2007-09-11 This new book under the impressive editorship of Thomas Boylan and Paschal O Gorman explores a number of major themes central to the work of Karl Popper The tensions that have resulted from Popperian thought are well documented How can mainstream orthodox economics be falsifiable while privileging its core of rationality as unquestionable This book includes expert contributions from thinkers such as Tony Lawson K Vela Velupillai and John McCall who discuss this issue with renewed academic rigour

**Critical Economic Methodology** Lawrence Boland,2005-08-18 Lawrence Boland takes issue with both economic methodologists and practicing economists He argues that there has been too much methodology for methodology s sake and that mainstream economics might benefit by using methodology to take a critical look at economic theory    Foundations of Economic Method Lawrence A. Boland,2020-09-23 Many consider Foundations of Economic Method to be Lawrence Boland s best work This updated edition is radically changed from the original and will be much appreciated by thinkers within economics The book positions methodology vis vis the current practice of economists and is all the better for it Yet another book that not only deserves to be read by those within the field of economic methodology but also by those involved in economics at all Boland is back    **Rationality, Institutions, and Economic Methodology** Uskali Mäki,Bo Gustafsson,Christian Knudsen,1993 First published in 1993 Routledge is an imprint of Taylor Francis an informa company

**Reflection Without Rules** D. Wade Hands,2001-04-09 This book is a comprehensive and often controversial survey of economic methodology    **The New Palgrave Dictionary of Economics** ,2016-05-18 The award winning The New Palgrave Dictionary of Economics 2nd edition is now available as a dynamic online resource Consisting of over 1 900 articles written by leading figures in the field including Nobel prize winners this is the definitive scholarly reference work for a new generation of economists Regularly updated This product is a subscription based product    **New Directions in Economic Methodology** Roger E. Backhouse,1994-06-16 In recent years there has been a flowering of work on economic methodology However there is no longer any consensus about which direction this should take or indeed even what the role and content of economic methodology should be This book reflects this diversity Its contributors are responsible for the major developments in this field and tog    *Knowledge and Persuasion in Economics* Deirdre N. McCloskey,1994-05-05 Is economics a science Deidre McCloskey says Yes but Yes economics measures and predicts but like other sciences it uses literary methods too Economists use stories as geologists do and metaphors as physicists do The result is that the sciences economics among them must be read as rhetoric in the sense of writing with intent McCloskey s books The Rhetoric of Economics 1985 and If You re So Smart 1990 have been widely discussed In Knowledge and Persuasion in Economics he converses with his critics

suggesting that they too can gain from knowing their rhetoric The humanistic and mathematical approaches to economics says McCloskey fit together in a new interpretive economics Along the way he places economics within the sciences examines the role of mathematics in the field replies to critics from the left right and centre and shows how economics can again take a leading place in the conversation of humankind     *Foundations of Economic Method* Lawrence A.

Boland,2003-04-17 This updated edition is radically changed from the original and will be much appreciated by thinkers within economics Boland is back     Philosophy of Economics Uskali Mäki,2012-06-12 Part of the Handbook of the Philosophy of Science Series edited by Dov M Gabbay King's College London UK Paul Thagard University of Waterloo Canada and John Woods University of British Columbia Canada Philosophy of Economics investigates the foundational concepts and methods of economics the social science that analyzes the production distribution and consumption of goods and services This groundbreaking collection the most thorough treatment of the philosophy of economics ever published brings together philosophers scientists and historians to map out the central topics in the field The articles are divided into two groups Chapters in the first group deal with various philosophical issues characteristic of economics in general including realism and Lakatos explanation and testing modeling and mathematics political ideology and feminist epistemology Chapters in the second group discuss particular methods theories and branches of economics including forecasting and measurement econometrics and experimentation rational choice and agency issues game theory and social choice behavioral economics and public choice geographical economics and evolutionary economics and finally the economics of scientific knowledge This volume serves as a detailed introduction for those new to the field as well as a rich source of new insights and potential research agendas for those already engaged with the philosophy of economics Provides a bridge between philosophy and current scientific findings Encourages multi disciplinary dialogue Covers theory and applications

**Modern Construction Economics** Gerard de Valence,2010-11-10 Modern construction economics has a wider focus than was previously the case with stronger links to mainstream economics reflecting increasing interest in a range of theoretical issues This book brings together the essential reviews of this trend and pushes towards the development of a comprehensive theoretical framework for construction economics

**Post-Popperian Methodology of Economics** Neil de Marchi,2012-12-06 For much of the last three decades or more economic methodology has been dominated by the work of Karl Popper who advocated the position that science is what it is by virtue of its adherence to certain ideals The methodology of science is therefore not empirical or descriptive but rather a set of rules for producing rational or objective knowledge This volume presents alternatives to an exclusively Popperian methodology its purpose is not to reject Popper but to show there are other ways of construing methodology The book is divided into three parts Part I contains two critical surveys one dealing with the rule based tradition which has had a great influence on economic methodology in the last three decades and the other arguing for the social conditioning of knowledge Part II is concerned with auxiliary hypotheses needed to link rational choice at the

social and individual levels Part III follows up on aspects raised in linking rational choice at the social and individual levels by looking at specific issues including rhetoric and economics and gender and economic research
