Terrorism, and Homeland Security,2008      **The Future of Gay Rights in America** H.N. Hirsch,2020-03-25 Sandra Day O Connor has called the gay rights movement the first important civil rights struggle of the twenty first century Recent court decisions to overturn sodomy laws and to recognize gay marriage have emboldened activists but have also resulted in a tremendous backlash not the least of which has been a call for a constitutional amendment defining marriage as only between members of the opposite sex Through its historical and legal contextualization of these decisions The Future of Gay Rights in America is essential for understanding an epochal moment in the history of gay rights      Mental Disorder and Criminal Law Robert Schopp,Richard L. Wiener,Brian H. Bornstein,Steven L. Willborn,2008-10-09 Robert F Schopp Recent Supreme Court decisions categorically preclude the application of capital punishment to convicted offenders who were below the age of eighteen or mentally 1 retarded at the time they committed the crimes for which they were sentenced Neither opinion suggests that offenders in these categories cannot be criminally responsible for their offenses and the Atkins opinion explicitly recognizes that some mentally 2 retarded offenders can qualify as criminally responsible for their offenses In each case part of the reasoning in support of the exemption from capital sentences purports to show that capital punishment of these offenders would serve neither the retributive 3 nor the deterrent functions of criminal punishment Both opinions focus substantial attention on the retributive rationale contending that these offenders lack sufficient 4 culpability blameworthiness or depravity to merit capital punishment The opinions recognize that a categorical bar for all offenders below a specified age or level of intelligence might exempt some individuals who do not lack culpability sufficient to justify capital sentences The opinions draw categorical rules however to avoid the risk that some individuals who lack sufficient culpability to deserve capital punish 5 ment will be misidentified as sufficiently culpable to merit capital sentences The dissenting opinions in each case recognize that offenders in these categories have limitations that render them less culpable on average than unimpaired offenders who commit similar crimes      The Texas Criminal Reports Texas. **Criminal Law** Guyora Binder, 2016-06-21 Many controversies in American criminal law reflect the tension between older and newer conceptions of the purposes of punishment The English common law of crimes enforced a royal peace by conditioning punishment on unauthorized force and harm to particular victims The story of American criminal law has been the emergence of a more utilitarian conception of criminal offending as the imposition of risk or the violation of consent combined with culpability This conception is reflected in the Model Penal Code and many state codes Yet understanding contemporary criminal law requires that we also remember the model of offending as trespass against sovereignty out of which it emerged The Oxford Introductions to U S Law Criminal Law reviews the development of American criminal law and explains its key concepts and persistent controversies in light of its history These key concepts include retribution and prevention as purposes of punishment the requirements of a criminal act and a culpable mental state criteria of causal responsibility modes of violating consent inchoate offenses including attempt and conspiracy doctrines of participation in crime and defenses of justification and excuse [The Texas criminal reports](#), 1919 *Inside the Castle* Joanna L.

Grossman, Lawrence M. Friedman, 2011-07-18 A comprehensive social history of families and family law in twentieth century America *Inside the Castle* is a comprehensive social history of twentieth century family law in the United States Joanna Grossman and Lawrence Friedman show how vast oceanic changes in society have reshaped and reconstituted the American family Women and children have gained rights and powers and novel forms of family life have emerged The family has more or less dissolved into a collection of independent individuals with their own wants desires and goals Modern family law as always reflects the brute social and cultural facts of family life The story of family law in the twentieth century is complex This was the century that said goodbye to common law marriage and breach of promise lawsuits This was the century too of the sexual revolution and women's liberation of gay rights and cohabitation Marriage lost its powerful monopoly over legitimate sexual behavior Couples who lived together without marriage now had certain rights Gay marriage became legal in a handful of jurisdictions By the end of the century no state still prohibited same sex behavior Children in many states could legally have two mothers or two fathers No fault divorce became cheap and easy And illegitimacy lost most of its social and legal stigma These changes were not smooth or linear all met with resistance and provoked a certain amount of backlash Families took many forms some of them new and different and though buffeted by the winds of change the family persisted as a central institution in society *Inside the Castle* tells the story of that institution exploring the ways in which law tried to penetrate and control this most mysterious realm of personal life [The Oxford Handbook of Criminal Law](#) Markus D. Dubber, Tatjana Hörnle, 2014-11-27 The Oxford Handbook of Criminal Law reflects the continued transformation of criminal law into a global discipline providing scholars with a comprehensive international resource a common point of entry into
