Text And Act Essays On Music And Performance:

Text and Act Richard Taruskin, 1995-09-07 Over the last dozen years the writings of Richard Taruskin have transformed the debate about early music and authenticity Text and Act collects for the first time the most important of Taruskin's essays and reviews from this period many of which now classics in the field Taking a wide ranging cultural view of the phenomenon he shows that the movement far from reviving ancient traditions in fact represents the only truly modern style of performance being offered today He goes on to contend that the movement is therefore far more valuable and even authentic than the historical verisimilitude for which it ostensibly strives could ever be These essays cast fresh light on many aspects of contemporary music making and music thinking mixing lighthearted debunking with impassioned argumentation Taruskin ranges from theoretical speculation to practical criticism and covers a repertory spanning from Bach to Stravinsky Including a newly written introduction Text and Act collects the very best of one of our most incisive musical thinkers

The Musical Work Michael Talbot, 2000-01-01 Like literature and art music has works But not every piece of music is called a work and not every musical performance is made up of works The complexities of this situation are explored in these essays which examine a broad swathe of western music From plainsong to the symphony from Duke Ellington to the Beatles this is at root an investigation into how our minds parcel up the music that we create and hear

The Oxford Handbook of Music Listening in the 19th and 20th Centuries Christian Thorau, Hansjakob Ziemer, 2019 An idealized image of European concert goers has long prevailed in historical overviews of the nineteenth and twentieth centuries This act of listening was considered to be an invisible and amorphous phenomenon a naturally given mode of perception This narrative influenced the conditions of listening from the selection of repertoire to the construction of concert halls and programmes However as listening moved from the concert hall to the opera house street music and jazz venues new and visceral listening traditions evolved In turn the art of listening was shaped by phenomena of the modern era including media innovation and commercialization This Handbook asks whether how and why practices of music listening changed as the audience moved from pleasure gardens and concert venues in the eighteenth century to living rooms in the twentieth century and mobile devices in the twenty first Through these questions chapters enable a differently conceived history of listening and offer an agenda for future research

Being True to Works of Music Julian Dodd, 2020-07-15 *Being True to Works of Music* explores the varieties of authenticity involved in our practice of performing works of Western classical music Its key argument is that the familiar authenticity debate about the performance of such works has tended to focus on a side issue While much has been written about the desirability or otherwise of historical authenticity roughly performing works as they would have been performed under ideal conditions in the era in

which they were composed the most fundamental norm governing our practice of work performance is in fact another kind of kind of truthfulness to the work altogether This is interpretive authenticity being faithful to the performed work by virtue of evincing a profound far reaching or sophisticated understanding of it As such performers are justified on occasion in sacrificing some score compliance for the sake of making their performance more interpretively authentic Written in a clear engaging style with discussion of musical examples throughout this book will be of great interest to both philosophers of music and musicologists
