Powerhunch! Marcia Emery,Leland Kaiser,2011-06-21 Call it a gut feeling a sudden knowing a bolt from the blue PowerHunch underscores the strength of this quiet yet powerful force that adds a flash of clarity to any situation Whether it's relationships career balance and healing or simple everyday decision making intuition gives everyone an edge Now Dr Marcia Emery shares the secrets of intuition so you can make it a part of everything you do **Powerhunch! (EasyRead Large Bold Edition)** , **Powerhunch! (EasyRead Super Large 18pt Edition)** , *Intuition* David G. Myers,2008-10-01 How reliable is our intuition How much should we depend on gut level instinct rather than rational analysis when we play the stock market choose a mate hire an employee or assess our own abilities In this engaging and accessible book David G Myers shows us that while intuition can provide us with useful and often amazing insights it can also dangerously mislead us Drawing on recent psychological research Myers discusses the powers and perils of intuition when judges and jurors determine who is telling the truth mental health workers predict whether someone is at risk for suicide or crime coaches players and fans decide who has the hot hand or the hot bat personnel directors hire new employees psychics claim to be clairvoyant or to have premonitions and much more **Tall Tales about the Mind and Brain** Sergio Della Sala,2007-01-11 Does listening to Mozart make us more intelligent Is there such a thing as a gay gene Does the size of the brain matter Does the moon influence our behaviour Can we communicate with the dead Can graphology tell us anything about a person's character Is the human brain clonable What role do dreams have in cognition Can mind conquer matter and diseases Are out of body experiences possible Can we trust our intuitions To some the answer to all these questions might well be a resounding no but to many people these represent serious beliefs about the mind and brain beliefs that drive their everyday behaviour beliefs that cost them huge amounts of money Whole industries have developed founded on these dubious claims about the mind and brain Even major corporations have dabbled with assessment methods such as those

advocated by graphology accepting and rejecting candidates on the basis of their handwriting Expectant parents buy books and tapes by the dozen showing them how to improve the intelligence of their child by playing them classical music People subscribe to expensive therapies founded on beliefs rather than science or risk their health buying books that tell them how they can conquer illness through positive thinking perhaps at the expense of more scientifically proven treatments Tall Tales about the Mind and Brain presents a sweeping survey of common myths about the mind and brain In a lighthearted and accessible style it exposes the truth behind these beliefs how they are perpetuated why people believe them and why they might even exist in the first place

The Secret of Inner Presence Lin Lipetz, 2012-04-09 The Secret of Inner Presence begins with author Lin Lipetz's story of her spontaneous spiritual awakening in 1986 This amazing and unexpected event created an immediate awareness of a loving Inner Presence within her heart and a connection to another higher level of peace contentment and greater knowledge She now knows that Inner Presence waits patiently to manifest within each person and much of The Secret of Inner Presence is about providing the keys to bring about that shift in consciousness As each of the eleven keys is practiced and experienced the transformation toward a more complete understanding of the core self will gradually evolve through the loving guidance of the conscious Universe One of the eleven keys opens the way to intuitively listen to the many voices that will assist in this transformation through healing new insights dreams problem solving and caring advice Another key opens the way to deepen intuitively to the level of receiving messages from the Universe and possibly finding the guides that have been available since birth This process is called Stream of Consciousness writing and the powerful dialogues and inspirational poems the author has received in this way for many years are found in each chapter Chapter by chapter each of the eleven keys is presented by both the spiritual Universe and the author to help guide the reader to a higher dimension of the self
