Overcoming Tradition And Modernity Robert D. Lee, 2018-02-12 Authenticity has begun to rival development as a key to understanding the political aspirations of the Islamic world Almost everywhere modernity has laid waste to tradition those habits and practices deemed to be timeless and true Imperialism carried European notions of progress into Muslim dominated parts of the globe and subsequently Muslims themselves espoused Western practices techniques and philosophies Regimes calling themselves liberal socialist and Arab nationalist all embraced modernity as their principal objective Most of these regimes failed to create the promised better lives their citizens desired Moreover ordinary Muslims felt despair as modernity ripped apart families exposed youngsters to the materialism and hedonism of Western entertainments heightened social expectations and undermined religious belief Even though tradition has proved itself incapable of staving off modernity the promises and premises of modern development literature have been called into question Where is the truth around which Muslims can rally Does modernity require a rejection of tradition Does the embrace of Islamic ideas necessitate turning away from modernity Robert D Lee explores these compelling questions by presenting four contemporary Muslim writers Muhammad Iqbal Sayyid Qutb Ali Shari ati and Mohammed Arkoun all of whom have refused to bow to such a dichotomy of modernity and tradition This study examines their efforts deeply influenced by European thinking to find a truth beyond tradition and modernity an authentic understanding of Islam upon which Muslims can build a future All four thinkers believe such an authentic understanding can serve as the foundation for a new politics Lee argues however that each of these versions of authenticity suffers shortcomings and falters in its efforts to move from the particularity of culture onto a grander scale of political

Consolidation in Turkey Müge Aknur, 2012 Although Turkey began its transition to democracy as early as the 1950s it is still far from having reached a level of consolidated democracy with the country's sixty year history of democratic politics being punctuated by numerous breakdowns and restorations of democracy In an attempt to examine why consolidation of Turkish democracy has taken so long this book aims at analyzing various factors including state political parties civil society civil military relations socio economic development the EU as an international actor and the rise of internal threats political Islam and separatist Kurdish nationalism that both hinder and enhance democratic consolidation in Turkey By highlighting the strengths and shortcomings of the Turkish experience from these perspectives this book suggests the optimal policy priorities for current and future Turkish governments to establish a consolidated democracy in Turkey Contributors Muge Aknur Canan Aslan Akman Filiz Baskan Gulgun Erdogan Tosun Siret Hursoy Aysegul Komsuoglu Gul M Kurtoglu Eskisar Yesim Kustepeli Nazif Mandaci Ibrahim Saylan Ugur Burc Yildiz *Political Ascent* Emad Eldin Shahin, 2018-02-23 Islamic movements in North Africa have historically been distinguished from their counterparts in other parts of the Arab world because they have demonstrated a marked willingness to work within the political system and have at times even been officially recognized and allowed to participate in local and national elections As a result Islamic thinkers from the Maghrib have produced important writing about the role of Islam and the state democracy and nonviolent change In this book Emad Shahin offers a comparative analysis of the Islamic movements in Algeria Tunisia and Morocco exploring their formation and expansion in the late 1960s and the tenets of their ideology for social transformation Islamic movements in North Africa have historically been distinguished from their counterparts in other parts of the Arab world because they have demonstrated a marked willingness to work within the political system and have at times even been officially recognized and allowed to participate in local and national elections As a result Islamic thinkers from the Maghrib have produced important writing about the role of Islam and the state democracy and nonviolent change In this book Emad Shahin offers a comparative analysis of the Islamic movements in Algeria Tunisia and Morocco exploring the roots of their development the nature of

their dynamics and the tenets of their ideology He argues that the formation and expansion of Islamic movements since the late 1960s has come in response to the marginalization of Islam in state and society and to a perceived failure of imported models of development to resolve socioeconomic problems or to incorporate the Muslim belief system into a workable plan for social transformation Islam and Statecraft Jon Hoffman, 2025-01-23 Instead of religion influencing political outcomes this analysis examines how politics influences religious outcomes Dominant analyses examining the utilization of religion as a tool of statecraft in the Middle East remain overwhelmingly fixated on how Islam influences the foreign policies of different state actors not how political considerations often influence the forms Islam assumes and how religion itself is often molded according to strategic considerations of political elites That Islam due to its unique or exceptional relationship with politics drives political outcomes at the international level in the Middle East is a myth this book shatters by demonstrating how the political considerations of ruling elites specifically the intersection of domestic and foreign threats influence and constrain the kinds of religious soft power strategies adopted by states in the region This book develops a comprehensive analytical framework for the notion of religious soft power capable of incorporating power based identity based and ideational variables to examine how states couple religion with their broader foreign policy conduct This framework is applied to the Middle East through the specific examination of three countries Saudi Arabia Qatar and the United Arab Emirates in the period following the Arab Uprisings to demonstrate how specific religious narratives identities histories and ideologies are constructed by political elites in the Middle East for the advancement of what are inherently political objectives namely the imperatives of regime preservation and power projection The Politicisation Of Islam Mohamed Elhachmi Hamdi, 2018-10-08 The Politicisation of Islam A Case Study of Tunisia traces the emergence rise and recent eclipse of the modern Tunisian Islamic movement al Nahda and provides a comprehensive analysis of its political social and intellectual discourse A valuable contribution to the study of political Islam this is the first complete analysis in English of the history of this modern Tunisian Islamic movement The Politicisation of Islam A Case Study of Tunisia traces the emergence rise and recent eclipse of the modern Tunisian Islamic movement al Nahda and provides a comprehensive analysis of its political social and intellectual discourse The first two chapters concentrate on the factors behind the emergence of al Nahda and its politicization The three major confrontations between the movement and the Tunisian regime which culminated in 1991 in the banning of all al Nahda activities inside Tunisia is explored in Chapter Three The author discusses the basic concepts of political Islam in the movements literature in Chapter Four in particular the Islamists rejection of secularism and al Nahda s proposal for a modern Islamic state in Chapter Five In the concluding chapter the author addresses the Islamists cultural agenda and their insistence on an Islamic identity for Tunisia A valuable contribution to the study of political Islam this is the first complete analysis in English of the history of this modern Tunisian Islamic movement **Books on Turkey** ,2005 **A Fundamental Fear** S.
