The editor has gathered together a body of writing in the emerging field of design studies The contributors argue in different ways for a rethinking of design in the light of its cultural significance and its powerful position in today's society The collection begins with a discussion of the various expressions of opposition to the modernists' purist approach toward design Drawing on postmodernist theory and other critical strategies the writers examine the relations among design technology and social organization to show how design has become a complex and multidisciplinary activity The second section provides examples of new methods of interpreting and analysing design ranging from rhetoric and semiotics to phenomenology demonstrating how meaning is created visually A final section related to design history shifts its emphasis to ideological frameworks such as capitalism and patriarchy that establish boundaries for the production and use of design **New**

*More Than (2) Leonardo in Anti-theory (Revised Edition)* Susan Audrey Grundy, 2024-11-01 A brief survey of what Leonardo anti theory is why it exists who writes it and what purpose it can play in the future of Leonardo research **The Leonardos and the Forgotten Arab Polymath, Zoroastro** Susan Audrey Grundy, 2024-10-16 This book recovers the lives of four men masked behind one legend Reinterpreting recently rediscovered documents shows a Tuscan artist Leonardo da Vinci was banished from Florence around 1477 when at the same moment another Leonardo arrived from the East an Ottoman agent from Genoese Caffa in the Black Sea This Leonardo was a military engineer who began writing technical

notes backward in a flourishing Italian script In Florence around 1500 he met the alchemist and polymath Zoroastro who collaborated in producing the scientific Notebooks However by the mid sixteenth century all memory of Zoroastro had been erased and the two Leonardos had been conflated into one identity Crucially an archived document rediscovered around 2021 proved that the Tuscan painter Leonardo da Vinci died in 1499 This information leads to the recovery of the artist who really painted the Mona Lisa Giovanni Antonio Boltraffio Leonardo da Vinci and The Virgin of the Rocks Katy Blatt, 2018-07-27 This is the first book dedicated to Leonardo da Vinci s commission for The Virgin of the Rocks Leonardo completed fewer than twenty paintings in his lifetime yet he returned twice to this same mysterious subject over the course of a twenty five year period Identical in terms of iconography stylistically these paintings are worlds apart The first of c 1482 4 was Leonardo s magnum opus catapulting the young artist from obscurity to fame When in 1508 he finished the second painting he was nearing the end of his artistic career and had become an international celebrity Why did he revisit The Virgin of the Rocks What was the meaning behind the cavernous subterranean landscape What lies behind the colder monumentality of the second version This book opens up Leonardo s world setting the scene in Republican Florence and the humanist court of the Milanese warlord Ludovico Sforza to answer these questions Through lyrical yet scholarly analyses of Leonardo s paintings notebooks and technical experimentation it unveils the secret realms of human dissection and Neo Platonic philosophy that inspired the creation of the two masterpieces In doing so the book reveals that The Virgin of the

Rocks holds the key to the greatest philosophical scientific and personal transformations of Leonardo's life. From the Richard Ginori chinaware and the founding of Domus magazine in the 1920s and 30s to the Pirelli tower erected in Milan in the 1950s to the facade architecture of the 70s Gio Ponti has been a major force in the shaping of twentieth century Italian design. The Complete Work presents a fully illustrated decade by decade account of Ponti's vast output in interior and industrial design, decorative arts and architecture. It describes his powerful influence on generations of Italian designers, his contributions to Italy's urban culture and his role as a propagandist and editor. Gio Ponti was not only an architect but a poet, painter, polemicist and designer of exhibitions, theater costumes, Venini glassware, Arthur Krupp tableware, Cassina furniture, lighting fixtures and ocean liner interiors. He is perhaps best known as the architect of Milan's Pirelli tower at one time the tallest building in Europe and for his Superleggera chair which was first manufactured in the 50s and has become classic because of its almost universal use in Italian restaurants. Above all, Ponti was responsible for the renewal of Italian architecture and decorative arts. Drawing upon the legacy of the Viennese Secession and the Wiener Werkstatte, he transformed classical language into a rationalist vocabulary. The entire photographic archive of Ponti's studio together with his unpublished writings were made available for the first time for the preparation of this book. There are many new photographs of his work and a broad selection of his letters, diaries and essays. A biographical profile, bibliography and chronologies of works, exhibitions and sales round out this stunning book. Lisa Licitra Ponti is curator of the Ponti Archives. She is also a well-known art and architecture critic. She collaborated with her father from 1940 until his death in 1979.
