**Naturalization, Submitted the Following Report** ,1891 **Tales from the Italian and Spanish** ,1920 **Living and Working** Dogma,2022-05-24 An argument against the ideology of domesticity that separates work from home lavishly illustrated with architectural proposals for alternate approaches to working and living Despite the increasing numbers of people who now work from home in the popular imagination the home is still understood as the sanctuary of privacy and intimacy Living is conceptually and definitively separated from work This book argues against such a separation countering the prevailing ideology of domesticity with a series of architectural projects that illustrate alternative approaches Less a monograph than a treatise richly illustrated the book combines historical research and design proposals to reenvision home

as a cooperative structure in which it is possible to live and work and in which labor is socialized beyond the family freeing inhabitants from the sense of property and the burden of domestic labor The projects aim to move the house beyond the dichotomous logic of male female husband wife breadwinner housewife and private public They include the reinvention of single room occupancy as a new model for affordable housing the reimagining of the simple tower and plinth prototype as host to a multiplicity of work activities and enlivening street life and a plan for a modular adaptable structure meant to house a temporary dweller All of these design projects conceive of the house not as a commodity the form of which is determined by its exchange value but as an infrastructure defined by its use value
