historians of the American Jewish community Jewish communal workers and the press among others The Cambridge History of Judaism: Volume 6, The Middle Ages: The Christian World Robert Chazan, 2018-10-11 Volume 6 examines the history of Judaism during the second half of the Middle Ages Through the first half of the Middle Ages the Jewish communities of western Christendom lagged well behind those of eastern Christendom and the even more impressive Jewries of the Islamic world As Western Christendom began its remarkable surge forward in the eleventh century this progress had an impact on the Jewish minority as well The older Jewries of southern Europe grew and became more productive in every sense Even more strikingly a new set of Jewries were created across northern Europe when this undeveloped area was strengthened demographically economically militarily and culturally From the smallest and weakest of the world's Jewish centers in the year 1000 the Jewish communities of western Christendom emerged despite considerable obstacles as the world's dominant Jewish center by the end of the Middle Ages This demographic economic cultural and spiritual dominance was maintained down into modernity *Jewish Identity in Early Modern Germany* Dean Phillip Bell, 2016-05-06 Although Jews in early modern Germany produced little in the way of formal historiography Jews nevertheless engaged the past for many reasons and in various and surprising ways They narrated the past in order to enforce order empower authority and record the traditions of their communities In this way Jews created community structure and projected that structure into the future But Jews also used the past as a means to contest the marginalization threatened by broader developments in the Christian society in which they lived As the Reformation threw into relief serious questions about authority and tradition and as Jews continued to suffer from anti Jewish mentality and politics narration of the past allowed Jews to reinscribe themselves in history and contemporary society Drawing on a wide range of sources including chronicles liturgical works books of customs memorybooks biblical commentaries rabbinic responsa and community ledgers this study offers a timely reassessment of Jewish community and identity during a frequently turbulent era It engages but then redirects important discussions by historians regarding the nature of time and the construction and role of history and memory in pre modern Europe and pre modern Jewish civilization This book will be of significant value not only to scholars of Jewish history but anyone with an interest in the social and cultural aspects of religious history *Christian Martyrdom and Political Violence* Rubén Rosario Rodríguez, 2017-07-13 In recent years martyrdom and political violence have been conflated in the public imagination Rubén Rosario Rodríguez argues that martyr narratives deserve consideration as resources for resisting political violence in contemporary theological reflection Underlying the three Abrahamic monotheistic traditions is a shared belief that God requires liberation for the oppressed justice for the victims and most demanding of all love for the political enemy Christian Jewish and Muslim martyr narratives that condone political violence whether terrorist or state sponsored are examined alongside each religion's canon in order to evaluate how central or marginalized these discourses are within their respective traditions Primarily a work of Christian theology in conversation with Judaism and Islam this book aims to model

religious pluralism and cooperation by retrieving distinctly Christian sources that nurture tolerance and facilitate coexistence while respecting religious difference

Experience with the Supernatural in Early Christian Times Shirley Jackson Case, 1929 The Christians Bible is rich in miracles Supernaturalism runs like a scarlet thread through the whole book from Genesis to Revelation For centuries this phenomenon was contemplated with entire satisfaction by both laity and clergy But in modern times a different way of thinking has been gaining favor Many a Christian today passes hastily over the miracle stories in the Scriptures and dwells with greater satisfaction on the less spectacular portrayal of men s moral ideals and spiritual struggles abundantly recorded in his sacred book One whose inclinations move in this direction may sometimes feel at a loss to account for the prominence of the miraculous in Hebrew religion and more particularly in early Christianity Why did the advocates of the new religion concern themselves so extensively with the imagery of supernaturalism To answer this question is the purpose of the present volume preface

Humanity Divided Manuel Duarte de Oliveira, 2021-09-20 With exacting scholarship and fecund analysis Manuel Oliveira probes through the lens of Martin Buber 1878 1965 the theological and political ambiguities of Israel s divine election These ambiguities became especially pronounced with the emergence of Zionism Wary indeed alarmed by the tendency of some of his fellow Zionists to conflate divine chosenness with nationalism Buber sought to secure the theological significance of election by both steering Zionism from hypertrophic nationalism and by a sustained program to revalorize what he called alternately Hebrew Humanism As Oliveira demonstrates Buber viewed the idea of election teleologically espousing a universal mission of Israel which effectively calls upon Zionism to align its political and cultural project to universal objectives Thus in addressing a Zionist congress he rhetorically asked What then is this spirit of Israel of which you are speaking It is the spirit of fulfillment Fulfillment of what Fulfillment of the simple truth that man has been created for a purpose Our purpose is the upbuilding of peace And that is its spirit the spirit of Israel the people of Israel was charged to lead the way to righteousness and justice
