**Diasporic Africa** Michael A. Gomez, 2006-01-01 Diasporic Africa presents the most recent research on the history and experiences of people of African descent outside of the African continent By incorporating Europe and North Africa as well as North America Latin America and the Caribbean this reader shifts the discourse on the African diaspora away from its focus solely on the Americas underscoring the fact that much of the movement of people of African descent took place in Old World contexts This broader view allows for a more comprehensive approach to the study of the African diaspora The volume provides an overview of African diaspora studies and features as a major concern a rigorous interrogation of identity Other primary themes include contributions to western civilization from religion music and sports to agricultural production and medicine as well as the way in which our understanding of the African diaspora fits into larger studies of transnational phenomena     **The Monthly Review, Or, Literary Journal** ,1815     *Shifting Currents* Karen Eva Carr, 2022-07-18 A deep dive into the history of aquatics that exposes centuries old tensions of race gender and power at the root of many contemporary swimming controversies *Shifting Currents* is an original and comprehensive history of swimming It examines the tension that arose when non swimming northerners met African and Southeast Asian swimmers Using archaeological

textual and art historical sources Karen Eva Carr shows how the water simultaneously attracted and repelled these northerners swimming seemed uncanny related to witchcraft and sin Europeans used Africans and Native Americans swimming skills to justify enslaving them but northerners also wanted to claim water's power for themselves They imagined that swimming would bring them health and demonstrate their scientific modernity As Carr reveals this unresolved tension still sexualizes women's swimming and marginalizes Black and Indigenous swimmers today Thus the history of swimming offers a new lens through which to gain a clearer view of race gender and power on a centuries long scale *Mastering the Niger* David Lambert,2013-11-15 In *Mastering the Niger* David Lambert recalls Scotsman James MacQueen 1778 1870 and his publication of *A New Map of Africa* in 1841 to show that Atlantic slavery as a practice of subjugation a source of wealth and a focus of political struggle was entangled with the production circulation and reception of geographical knowledge The British empire banned the slave trade in 1807 and abolished slavery itself in 1833 creating a need for a new British imperial economy Without ever setting foot on the continent MacQueen took on the task of solving the Niger problem that is to successfully map the course of the river and its tributaries and thus breathe life into his scheme for the exploration colonization and commercial exploitation of West Africa Lambert illustrates how MacQueen's geographical research began four decades before the publication of the *New Map* when he was managing a sugar estate on the West Indian colony of Grenada There MacQueen encountered slaves with firsthand knowledge of West Africa whose accounts would form the basis of his geographical claims Lambert examines the inspirations and foundations for MacQueen's geographical theory as well as its reception arguing that Atlantic slavery and ideas for alternatives to it helped produce geographical knowledge while geographical discourse informed the struggle over slavery *Heroic Failure and the British* Stephanie Barczewski,2016-03-22 From the Charge of the Light Brigade to Scott of the Antarctic and beyond it seems as if glorious disaster and valiant defeat have been essential aspects of the British national character for the past two centuries In this fascinating book historian Stephanie Barczewski argues that Britain's embrace of heroic failure initially helped to gloss over the moral ambiguities of imperial expansion Later it became a strategy for coming to terms with diminishment and loss Filled with compelling moving and often humorous stories from history Barczewski's survey offers a fresh way of thinking about the continuing legacy of empire in British culture today *The Mande Blacksmiths* Patrick R. McNaughton,1988 Finely crafted scholarship Elegant and graceful yet packed with knowledge and information it embodies the aesthetic qualities which it describes and explores American Ethnologist The text is detailed and informative and enjoyable reading Choice The *Mande Blacksmith* is an important book sensitive sympathetic multifaceted and thorough African Arts McNaughton's *Mande Blacksmiths* is undeniably the most profound study of African artists yet published Ethnoarts penetrating McNaughton boldly grapples with the thorniest issues related to his subject and articulates them with clarity and precision International Journal of African Historical Studies a work in the best tradition of ethnographic research critical reappraisal innovative inquiry and
