The Journals And Miscellaneous Notebooks Of Ralph Waldo Emerson Vol Xvi 1866 188:

The Journals and Miscellaneous Notebooks of Ralph Waldo Emerson Ralph Waldo Emerson, 1966-01-04 Volume VI in this series contains quotation books and miscellaneous notebooks that Ralph Waldo Emerson kept between 1824 and 1838 and to which he added occasionally as late as the 1860s With some attempt at a systematic listing but more often at random he set down an enormous variety of entries from Burke Montaigne Madame de Sta l Bacon Plutarch Jeremy Taylor and a host of other writers both famous and obscure with frequent comments of his own One book contains Emerson s lengthy translations of Goethe while another is devoted to his brother Charles who died in 1836 and includes among other items excerpts from Charles s letters to his fianc e A third contains an interview with a survivor of the battle of Concord and household accounts from the fall and winter of 1835 just after Emerson s marriage to Lydia Jackson Frequent annotations show that Emerson referred to several of these books in composing the sermons he began to give late in 1826 and that many of the entries found their way into his public lectures into *Nature* and into *Essays First Series* These pages are a fascinating indication of the sources on which Emerson drew steadily in his writing and thinking and reflect clearly although indirectly his own characteristic philosophy

Apropos of Something Elisa Tamarkin, 2022-07-27 A history of the idea of relevance since the nineteenth century in art criticism philosophy logic and social thought Before 1800 nothing was irrelevant So argues Elisa Tamarkin s sweeping meditation on a key shift in consciousness the arrival of relevance as the means to grasp how something that was once disregarded unvalued or lost to us becomes interesting and important When so much makes claims to our attention every day how do we decide what is most valuable right now Relevance Tamarkin shows was an Anglo American concept derived from a word meaning to raise or to lift up again and also to give relief It engaged major intellectual figures including Ralph Waldo Emerson and pragmatists and philosophers William James Alain Locke John Dewey and Alfred North Whitehead as well as a range of critics phenomenologists linguists and sociologists Relevance is a struggle for recognition especially in the worlds of literature art and criticism Poems and paintings in the nineteenth century could now be seen as pragmatic works that make relevance and make interest that reveal versions of events that feel apropos of our lives the moment we turn to them Vividly illustrated with paintings by Winslow Homer Henry Ossawa Tanner and others *Apropos of Something* is a searching philosophical and poetic study of relevance a concept calling for shifts in both attention and perceptions of importance with enormous social stakes It remains an invitation for the humanities and for all of us who feel tasked every day with finding the point
