**Messianic and Utopian Influences on Imperial Spain** George M. Roure, 2025-04-17 Roure draws a novel connection between Tommaso Campanella's utopian ideas for Imperial Spain and Catholicism and Portuguese navigator Pedro Fernandez de Quir's vision of an idyllic society and a mythical city of New Jerusalem in the antipodes The book presents newfound evidence suggesting Spain experimented with Messianism to secure their empire in the late Renaissance The case is made that the Spanish monarchy contemplated Campanella's Messianic ideas and sent Quir's to initiate them on the imagined Terra Australis Incognita Campanella and Quir's shared idiosyncratic beliefs that by means of divine providence Spanish power would imminently transform the world elevate humanity to a higher spiritual plane dominate politics and religion and prepare for the second coming The work advances our understanding of previously unknown links amongst Campanella's religious solutions for idealising temporal government Quir's objective of a utopian society in the great south land and Spain's tentative experimentation with Messianism It also permits the drawing of inferences on the possible rationale behind political messianism in the contemporary world This book is a valuable resource for scholars students researchers and professionals interested in European and World History of the late Renaissance as well as those interested in the religious and political imperatives of Imperial Spain during the Habsburg period

Kelly** Jean Henri Merle d'Aubigné,1842     The African Americans Henry Louis Gates, Jr.,Donald Yacovone,2013-10-01 The African Americans Many Rivers to Cross is the companion book to the six part six hour documentary of the same name The series is the first to air since 1968 that

chronicles the full sweep of 500 years of African American history from the origins of slavery on the African continent and the arrival of the first black conquistador Juan Garrido in Florida in 1513 through five centuries of remarkable historic events right up to Barack Obama's second term as president when the United States still remains deeply divided by race and class. The book explores these topics in even more detail than possible in the television series and examines many other fascinating matters as well, guiding readers on an engaging journey through the Black Atlantic world from Africa and Europe to the Caribbean, Latin America and the United States to shed new light on what it has meant and means to be an African American. By highlighting the complex internal debates and class differences within the black experience in this country, readers will learn that the African American community, which black abolitionist Martin R. Delany described as a nation within a nation, has never been a truly uniform entity and that its members have been debating their differences of opinion and belief from their very first days in this country. The road to freedom for black people in America has not been linear; rather, much like the course of a river, it has been full of loops and eddies, slowing and occasionally reversing current. Ultimately, this book emphasizes the idea that African American history encompasses multiple continents and venues and must be viewed through a transnational perspective to be fully understood. **Books In Print 2004-2005** Ed Bowker Staff, Staff Bowker, Ed, 2004

A History of Pastoral Care G. R. Evans, 2000-05-01. A history of pastoral care is a history of the Christian church in action. But if any sense is to be made of the centuries of Christian work and effort, not only the practicalities of making the message of the Gospel a reality on earth but also the ideas which have shaped the attempt, century by century, must be examined. This is the history of 2000 years of thought and practice in Christian pastoral ministry. Until comparatively late in that story, the bulk of the formative thinking took place in the Middle East and in Europe, and this forms the background for recent developments in understanding human nature and the ways in which that understanding has influenced our thinking in pastoral care. Subjects covered range from the Biblical foundations to the sects and new religious movements from the Fathers, the monks, the Friars, the Templars to the changes at the end of the twentieth century. **Engineering**, 1925
