Since the beginning of time humankind has looked upon nature and seen the divine. In the writings of the great thinkers across religions the natural world inspires everything from fear to awe to tranquil contemplation. God or however one defined the sublime was present in everything. Yet today even as we admire a tree or take in a striking landscape we rarely see nature as sacred. In this short but deeply powerful book the best selling historian of religion Karen Armstrong re-sacralizes nature for modern times. Drawing on her vast knowledge of the world's religious traditions she vividly describes nature's central place in spirituality across the centuries. In bringing this age-old wisdom to life Armstrong shows modern readers how to rediscover nature's potency and form a connection to something greater than ourselves.
