Richard Dien Winfield

The Just Family S U N Y Series In Social And Political Thought:

The Just Family Richard Dien Winfield,1998-01-01 The Just Family presents a comprehensive and systematic theory of family values determining both how marriage and parent child relations should be structured as ethical institutions of freedom and how the rights and duties of family membership can be upheld in unity with social and political justice The Just Family Richard Dien Winfield,1998 The Just Family presents a comprehensive and systematic theory of family values determining both how marriage and parent child relations should be structured as ethical institutions of freedom and how the rights and duties of family membership can be upheld in unity with social and political justice **Ibss: Sociology: 1999**,2000-12-07 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge on the social sciences **The Philosophical Review** ,1999 **Bibliografisch Repertorium Van de Wijsbegeerte**) ,1999 *American Book Publishing Record* ,2006 Reason and Justice Richard Dien Winfield,1988-07-08 This is a finely argued detailed and comprehensive systematic theory of justice brilliantly extending Hegelian ethics much as Rawls s Theory of Justice rehabilitated and extended classical Liberalism Winfield argues that justice like reason must be self grounding and that to achieve this it must be self determined The theory of justice must therefore abandon its appeal to metaphysically given or transcendently constituted norms and instead determine the institutions of freedom In pursuit of this task Winfield offers insightful discussions of property relations morality the family capital and commodity relations economic and social justice and the state In contrast to Liberalism which sees the state as instrumental to non political ends Winfield defends the democratic state as the just realization of freedom Throughout it is argued that justice is defined interactively where one s freedom is determined by how one s interactions respect and foster the institutional freedom of others Although the author s arguments proceed systematically at each stage he deals adroitly with the relevant major thinkers in the Western tradition not only with Hegel but with the ancients the classical liberals Marx and contemporaries such as Rawls **Family Matters** Nkiru Nzegwu,2006-03-09 Charts new trends in gender studies through a compelling analysis of Igbo society Legitimizing Empire Faye Caronan,2015-05-30 When the United States acquired the Philippines and Puerto Rico it reconciled its status as an empire with its anticolonial roots by claiming that it would altruistically establish democratic institutions in its new colonies Ever since Filipino and Puerto Rican artists have challenged promises of benevolent assimilation and portray U S imperialism as both self interested and unexceptional among empires Faye Caronan s examination interprets the pivotal engagement of novels films performance poetry and other cultural productions as both symptoms of and resistance against American military social economic and political incursions Though the Philippines became an independent nation and Puerto Rico a U S commonwealth both remain subordinate to the United States Caronan s juxtaposition reveals two different yet simultaneous models of U S neocolonial power and contradicts American

exceptionalism as a reluctant empire that only accepts colonies for the benefit of the colonized and global welfare Her analysis meanwhile demonstrates how popular culture allows for alternative narratives of U S imperialism but also functions to contain those alternatives

The Domestication of Critical Theory Michael J. Thompson, 2016-02-26 Critical theory was one of the most vigorous and insightful intellectual traditions of the twentieth century At its core was a critique of culture and consciousness tied to instrumental rationality and capitalist economic life Yet Michael J Thompson argues in this highly original book that this once critical tradition has been domesticated it no longer offers a philosophically convincing nor politically viable form of social critique Thompson demonstrates that critical theory has surrendered its concerns with domination alienation and the pathologies of capitalist modernity and shifted its focus toward neo Idealist themes This new critical theory has turned its back on the insights of the classical critical theorists Thompson traces how this shift occurred and how we can reclaim critique in an age of conformism apathy and depoliticization He goes on to defend the different aspects of critical theory that can be used to reformulate social critique one that must be brought into a dialogue with contemporary political social and moral philosophy that protects the lasting and crucial legacy of critical theory as an emancipatory political project

Forthcoming Books Rose Arny, 2002 **What Should Political Theory Be Now?** John S. Nelson, 1983-01-01 Confronted with the alienation of political theory from the practice of politics prominent theorists respond in this book to the growing question What should political theory be now New and original contributions by such thinkers as Charles Anderson John Gunnell Terence Ball Paul Kress Ira Strauber and William Connolly analyze the current malaise in the field and offer remedies for it Each contribution is at once an argument about what is to be done in political theory and an exemplar of how to do it Spurred by the Shambaugh Conference on Political Theory this cross disciplinary effort addresses two major issues What is the proper stance for theorizing about politics What are the priority projects for current political theory The contributions encompass many of the major themes concerning political theorists today including criticism as a project for current political theory dangers in the latter day disengagement of political theory from politics theorists perplexity within and about history issues of reason and the relationships among science theory and politics The viewpoints presented are diverse yet the contributors to this volume are typical of political theorists generally Almost all share inklings of actual or incipient disasters reaching from politics into theory and vice versa

The Tasks of Philosophy Alasdair MacIntyre, 2006 In this volume first published in 2006 Alasdair MacIntyre examines some fundamental philosophical questions in this first of two volumes of selected essays

The Tasks of Philosophy: Volume 1 Alasdair MacIntyre, 2006-06-08 How should we respond when some of our basic beliefs are put into question What makes a human body distinctively human Why is truth an important good These are among the questions explored in this 2006 collection of essays by Alasdair MacIntyre one of the most creative and influential philosophers working today Ten of MacIntyre s most influential essays written over almost thirty years are collected together here for the first time They range over such topics

as the issues raised by different types of relativism what it is about human beings that cannot be understood by the natural sciences the relationship between the ends of life and the ends of philosophical writing and the relationship of moral philosophy to contemporary social practice They will appeal to a wide range of readers across philosophy and especially in moral philosophy political philosophy and theology

Play Among Books Miro Roman,Alice_ch3n81,2021-12-06 How does coding change the way we think about architecture This question opens up an important research perspective In this book Miro Roman and his AI Alice_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books Focusing on the intersection of information technology and architectural formulation the authors create an evolving intellectual reflection on digital architecture and computer science

New Dimensions of Confucian and Neo-Confucian Philosophy Zhongying Cheng,1991-01-01 This is the first book to thoroughly explore Confucian and Neo Confucian metaphysics and ethics building upon the creativity and temporality of human existence and human nature as well as their extension into human culture Fundamental essays deal cogently with the relationship between Chinese language and Chinese philosophy offering general categories which shape the matrix of ideas woven in Chinese philosophy from its very beginnings Along with more general characterizations there are themes placing Confucian thinkers in touch with modern communication theories perceptions of individuals religious themes and scientific worldviews Conceptual and comparative essays probe the frontiers of Chinese philosophy in its contemporary Confucian revival

The Church as Counterculture Michael L. Budde,Robert W. Brimlow,2012-02-01 The question What does it mean to be the church has always been among the most controversial and of vital concern to political economic and ecclesial leaders alike How it is answered influences whether Christianity will be a force for legitimating or subverting existing secular relations of power influence and privilege The Church as Counterculture enters the debates on Christian identity purpose and organization by calling for the churches to reclaim their roles as communities of disciples distinct and distinctive groups formed by the priorities and practices of Jesus to constitute a countercultural reality and challenge to secular society and existing power relations The notion of the church as a countercultural community of disciples confounds many conventional divides within the Christian family liberal and conservative church and sect while forcing redefinition of commonplace categories like religion and politics sacred and secular The contributors to this book theologians social theorists philosophers historians Catholics and Protestants of various backgrounds reflect this shifting of categories and divisions The book provides thought provoking Christian perspectives on war and genocide racism and nationalism the legitimacy of liberalism and capitalism and more Contributors include Michael J Baxter Robert W Brimlow Walter Brueggemann Michael L Budde Curt Cadorette Rodney Clapp Roberto S Goizueta Stanley Hauerwas Marianne Sawicki and Michael Warren
