The Haunted World Of Edward D Wood Jr:

Ed Wood, Mad Genius Rob Craig, 2009-09-12 Filmmaker Ed Wood was controversial and critically maligned even labeled the worst director of all time yet he achieved cult status and remains of great interest today This book frames Wood s work such as the cross dressing themed Glen or Glenda and the haphazard Bride of the Monster as reflections of the culture of their era Wood invariably worked with infinitesimal budgets shooting at breakneck speed incorporating plot twists that defied all logic Yet there was a tangible if unfocused thematic thrust to Wood s films which meditate fitfully on gender religion and society revealing a holy trinity of fixations sex death and resurrection Wood s infamous Plan 9 From Outer Space encapsulates the fixations and flaws that were his hallmarks and with 22 other films is explored here A filmography and 47 photographs are included

Trash Culture Gillian Pye, 2010 In the late twentieth and early twenty first centuries concerns about the environment and the future of global capitalism have dominated political and social agendas worldwide The culture of excess underlying these concerns is particularly evident in the issue of trash which for environmentalists has been a negative category heavily implicated in the destruction of the natural world However in the context of the arts trash has long been seen as a rich aesthetic resource and more recently particularly under the influence of anthropology and archaeology it has been explored as a form of material culture that articulates modes of identity construction In the context of such shifting often ambiguous attitudes to the obsolete and the discarded this book offers a timely insight into their significance for representations of social and personal identity The essays in the book build on scholarship in cultural theory sociology and anthropology that suggests that social and personal experience is embedded in material culture but they also focus on the significance of trash as an aesthetic resource The volume illuminates some of the ways in which our relationship to trash has influenced and is influenced by cultural products including art architecture literature film and museum culture It Came from Horrorwood Tom Weaver, 2010-06-28 Tom Weaver's classic fifth volume of interviews is now back in print Originally published as It Came from Weaver Five in 1996 this collection goes behind the scenes with 20 of the most talkative people of Hollywood's horror science fiction and serial films of the 1930s through 1960s Delores Fuller loaned Ed Wood her angora sweater but didn't fully realize he was a transvestite until Glen or Glenda was released Tom Hennesy played the title role in Clint Eastwood's first movie Revenge of the Creature The interviewees include Fuller Hennesy Junior Coghlan Charlotte Austin Les Baxter John Clifford Mara Corday Kathleen Crowley Michael Fox Anne Gwynne Linda Harrison Michael Pate Gil Perkins Walter Reed Joseph F Robertson Aubrey Schenck Sam Sherman Gloria Stuart Gregory Walcott and Robert Wise Also included is A Salute to Ed Wood with illustrations by Drew Friedman **Invented Lives, Imagined Communities** William H. Epstein, R. Barton Palmer, 2016-06-06 How Hollywood biopics both showcase and modify various notions of what it means to be an American Biopics films that chronicle the lives of famous and notorious figures from our national history have long been one of Hollywood's most popular and important genres offering viewers various understandings of American national identity Invented Lives Imagined Communities provides the first full length examination of US biopics focusing on key releases in American cinema while treating recent developments in three fields cinema studies particularly the history of Hollywood national identity studies dealing with the American experience and scholarship devoted to modernity and postmodernity Films discussed include Houdini Patton The Great White Hope Bound for Glory Ed Wood Basquiat Pollock Sylvia Kinsey Fur Milk J Edgar and Lincoln and the book pays special attention to the crucial generic plot along which biopics traverse and

showcase American lives even as they modify the various notions of the national character. A provocative, critically astute study, this collection examines the biopic as a reflexive, refractive modernist film genre. Admirably researched essays provide close, compelling readings of chosen films while exploring the multilayered matrices of historical fact, biographical and autobiographical literature, popular media representations and cultural histories shaping not only the lives and narratives of the performers, artists and political/historical figures represented but also the practices of the filmmakers as they worked within or on the margins of the Hollywood industry.

Cynthia Lucia Rider, University of the South Florida

The volume's greatest strengths include its range, its variety of ideas on the significance of the biopic and its research definitiveness in several cases into the relation between historical figures and their cinematic counterparts.

James Morrison, author of *Passport to Hollywood: Hollywood Films, European Directors*

Whose Lives Are They Anyway? Dennis Bingham, 2010-03-04

The biopic presents a profound paradox: its own conventions and historical stages of development (disintegration, investigation, parody and revival) have not gained respect in the world of film studies. That is, until now. *Whose Lives Are They Anyway?* boldly proves a critical point: The biopic is a genuine dynamic genre and an important one. It narrates, exhibits and celebrates a subject's life and demonstrates, investigates or questions his or her importance in the world. It illuminates the finer points of a personality and ultimately it provides a medium for both artist and spectator to discover what it would be like to be that person or a certain type of person.

Through detailed analyses and critiques of nearly twenty biopics, Dennis Bingham explores what is at their core: the urge to dramatize real life and find a version of the truth within it. The genre's charge, which dates back to the salad days of the Hollywood studio era, is to introduce the biographical subject into the pantheon of cultural mythology and, above all, to show that he or she belongs there. It means to discover what we learn about our culture from the heroes who rise and the leaders who emerge from cinematic representations. Bingham also zooms in on distinctions between cinematic portrayals of men and women. Films about men have evolved from celebratory war movies to investigatory to postmodern and parodic. At the same time, women in biopics have been burdened by myths of suffering, victimization and failure from which they are only now being liberated. To explore the evolution and lifecycle changes of the biopic and develop an appreciation for subgenres contained within it, there is no better source than *Whose Lives Are They Anyway?*

First came video and more recently high definition home entertainment through to the internet with its streaming videos and not strictly legal peer-to-peer capabilities. With so many sources available today, a fan of horror and exploitation movies isn't necessarily educated on paths well trodden. Universal classics, 1950s monster movies, Hammer as once they were.
