"[This little azure-coloured book] is the true Apocalypse, this where the 'Open Secret' becomes revealed to a man. I rejoice much in the glad serenity of soul with which you look out on this wondrous Dwelling-place of yours and mine,—with an ear for the Ewigen Melodien which pipe in the winds round us and utter themselves forth in all sights and sounds and things."

The Hermetic Of Nature An American Revolution In Consciousness:

The Hermetic Book of Nature Arthur Versluis, Ralph Waldo Emerson, 1997 The Esoteric Origins of the American Renaissance Arthur Versluis, 2001 Here Arthur Versluis breaks new ground showing that many writers of the American Renaissance drew extensively on and were inspired by Western esoteric currents Thus he demonstrates that Alcott and Emerson were indebted to Hermeticism Christian theosophy and Neoplatonism Fuller to alchemy and Rosicrucianism Hawthorne to alchemy and Melville to Gnosticism In addition to offering a detailed analysis of the esoteric elements in the writings of figures from the American Renaissance Versluis presents an overview of esotericism in Europe and its offshoots in colonial America This innovative work will interest students and scholars of religion literature American studies and esotericism Jacket **Wisdom's Children** Arthur Versluis, 1999-10-14 Provides an in depth introduction to the Christian theosophic tradition that began with Jacob Boehme bringing us into a startling new world of Christian experiential spirituality that is the Christian equivalent of Sufism and Kabbalism *Transfiguring America* Jeffrey Steele, 2001 Transfiguring America is the product of more than ten years of research and numerous published articles on Margaret Fuller arguably America's first feminist theorist and one of the most important woman writers in the nineteenth century Focusing on Fuller's development of a powerful language that paired cultural critique with mythmaking Steele shows why her writing had such a vital impact on the woman's rights movement and modern conceptions of gender This groundbreaking study pays special attention to the ways in which Fuller's feminist consciousness and social theory emerged out of her mourning for herself and others her dialogue with Emersonian Transcendentalism and her eclectic reading in occult and mythical sources Transfiguring America is the first book to provide detailed analyses of all of Fuller's major texts including her mystical Dial essays correspondence with Emerson Summer on the Lakes 1844 poetry Woman in the Nineteenth Century and New York Tribune essays written both in New York and Europe Starting from her own profound sense of loss as a marginalized woman Fuller eventually recognized the ways in which the foundational myths of American society buttressed by conservative religious ideologies replicated dysfunctional images of manhood and womanhood With Woman in the Nineteenth Century after exploring the roots of oppression in her essays and poetry Fuller advanced the cause of woman's rights by conceptualizing a more fluid and equitable model of gender founded upon the mythical reconfiguration of human potential But as her horizons expanded Fuller demanded not only political equality for women but also emotional intellectual and spiritual freedom for all victims of social oppression By the end of her career Steele shows Fuller had blended personal experience and cultural critique into the imaginative reconstruction of American society Beginning with a fervent belief in personal reform she ended her career with the apocalyptic conviction that the dominant myths both of selfhood and national identity must be transfigured Out of the ashes of personal turmoil and political revolution she looked for the phoenix of a revitalized society founded upon the ideal of political justice **The History of Metaphors of Nature** Stephen A.

Norwick,2006 This book shows how modern European Languages have a large number of metaphors which represent the whole of nature Metaphors used in natural science and literature such as Mother Nature have a powerful influence on the framing of scientific hypothesis making and these words have guided the history of natural science for several millennia while also influencing North American nature writing

The Art and Science of Heroism and Heroic Leadership Scott T. Allison,James K. Beggan,Olivia Efthimiou,2019-06-21 Heroism is a rich elusive phenomenon Any adequate understanding of heroic behavior requires a new type of scholarly imagination one that taps into human artistic sensibilities as much as it does the rigors of scientific inquiry In an important sense we invoke a meta version of the call to heroic imagination by Franco Blau and Zimbardo 2011 who describe such imagination as a mind set and a collection of attitudes p 13 that can steer everyday people toward heroic achievement This eBook also merges our understanding of heroism with heroic leadership demonstrating that heroic leadership applies the principles of heroism in moving groups toward noble collective goals This eBook represents an effort by a distinguished group of authors to unleash their own creative mindsets attitudes and imaginations in their scholarship on heroism and heroic leadership

Awakening to Spirit Lee Irwin,1999-07-01 Awakening to Spirit explores the nature of spirituality in the postmodern age as a personal journey within a living responsive cosmos In a world of multiple religious traditions spiritual ambiguity and widespread secular atheism Lee Irwin offers a non traditional view of spirituality that s intrinsic to personal growth and development He presents Ten Principles that reflect stages of spiritual growth and culminate in a mystical encounter inherent to an experiential view of contemporary spirituality Various physical emotional imaginative intellectual and psychic aspects of spiritual development are considered leading to a discussion of spiritual maturity old age and self renewal Social relations compassionate love and responsible mature human relationships are emphasized Altered states of consciousness dreams visions mystical experiences are presented as a valid necessary means for an understanding of Spirit and many ideas from contemporary cosmology process theology parapsychology and western esotericism are integrated into the book
