Services for young people Great Britain: Parliament: House of Commons: Education Committee, 2011-06-23 In this report the Education Committee warns that extending the National Citizen Service NCS offer to all 600 000 16 year olds could have a price tag in excess of 350 million each year even if only 50% of young people take part This would make it more costly than the entirety of youth services currently provided by local authorities Instead the Committee calls for the NCS to be retained but become a form of

accreditation for existing schemes which meet the Government's objectives. The report criticises the Government's failure yet to outline a youth policy or strategic vision for the sector. It says that youth services are suffering disproportionate cuts and that the Government should be prepared to take action to ensure that local authorities meet their statutory obligations. The Committee finds that evidence on the effectiveness of youth services is lacking and calls for more effort by government and service providers to help guide local authorities on where best to spend scarce resources. Youth services cannot be immune from public spending cuts and the sector must make better use of non public forms of funding including charitable philanthropic and private sources.

Fostering Independence, Participation, and Healthy Aging Through Technology National Research Council, Institute of Medicine, Division of Behavioral and Social Sciences and Education, Board on Health Sciences Policy, Forum on Aging, Disability, and Independence, 2013-08-19

The Institute of Medicine (IOM) and the National Research Council (NRC) have had prominent roles in discussions of aging disability and technology for decades. In 1978 *Aging and Medical Education* (IOM 1978) raised national awareness of the challenges to physicians posed by the aging of the U.S. population. Thirty years later *Retooling for an Aging America* highlighted concerns for the entire health care workforce in view of the aging of the population including the role of technology in caring for older populations. The 1988 report *The Aging Population in the 21st Century* examined social economic and demographic changes among older adults as well as many health related topics health promotion and disease prevention quality of life health care system financing and use and the quality of care especially long term care. In 1991 the landmark report *Disability in America* laid out a national agenda to prevent disability and improve the lives of people with disabling conditions. The 1997 report *Enabling America: Assessing the Role of Rehabilitation Science and Engineering* examined the knowledge base of rehabilitation science and

engineering and proposed ways to translate scientific findings into interventions that produce better health And the 2007 report *The Future of Disability in America* examined progress made since the earlier reports and looked at continuing barriers that limit the independence productivity and participation in community life of people with disabilities All these reports were produced by committees appointed in accordance with guidelines of the National Academies and met multiples times to compile and review evidence reach consensus on conclusions and recommendations draft a report of the committee and then modify that draft report in response to comments from outside reviewers The IOM and NRC have also held several workshops related to aging disability and technology and published summary reports such as *Technology for Adaptive Aging* and *Grand Challenges of Our Aging Society* The IOM and NRC also convene groups that take a different approach to issues of pressing national and international importance Often known as forums or roundtables these groups meet regularly to foster dialogue and confront issues of mutual interest and concern among a broad range of stakeholders They can convene workshops initiate cooperative projects among members commission independently authored articles and generate ideas for independent consensus studies In 2012 the IOM and NRC joined together to establish the Forum on Aging Disability and Independence to provide a neutral venue for broad ranging discussions among the many stakeholders involved with aging and disability The goals of the forum are to highlight areas in which the coordination of the aging and disability networks is strong examine the challenges involved in aligning the aging and disability networks explore new approaches for resolving problem areas elevate the visibility and broaden the perspectives of stakeholders and set the stage for future policy actions Forum sponsors and members include federal agencies health professional associations private sector businesses academics and consumers *Fostering Independence Participation and Healthy Aging Through Technology* summarizes this workshop
