The Invasion Of Nepal John Company At War:

The Invasion of Nepal John Pemble, 1971 Kapiteloverskrifter The Gurkhas The quarrel with the British The matter of Himalayan trade The Bengal army Preparing for war Fiasco in Garhwal Stagnation in Sirmur The collapse of the eastern offensives The triumph of Ochterlony The conquest of Kumaun Interlude The final campaign **Nepal** Nagendra Kr Singh, 1997 Historical development of the kingship of Nepal during 14th to 18th centuries Approaches to History Sabyasachi Bhattacharya, 2011 History as a social science is arguably more self reflective than associated disciplines in that family Other social scientists seem to see little reason to look beyond the paradigm they are developing in the present times Historians on the other hand tend to depend on the cumulative process of the development of their craft and the fund of accumulated knowledge Yet while this is acknowledged in the practice of research Historiography in itself as a subject of study has rarely found its place in the syllabi of Indian universities Knowledge of Historiography is taken for granted when a scholar plunges into research In an attempt to address this lacuna the Indian Council of Historical Research ICHR has planned a series of volumes on Historiography comprising articles by subject specialists commissioned by the ICHR The first volume in the series Approaches to History Essays in Indian Historiography brings to the readers the first fruits of that endeavour While the essays encompass areas of research presently at the frontiers of new research scholars will also find the bibliographies accompanying the essays of significant appeal **Empire and Information** Christopher Alan Bayly, 1996 In a penetrating account of the evolution of British intelligence gathering in India C A Bayly shows how networks of Indian spies were recruited by the British to secure military political and social information about their subjects He also examines the social and intellectual origins of these native informants and considers how the colonial authorities interpreted and often misinterpreted the information they supplied It was such misunderstandings which ultimately contributed to the failure of the British to anticipate the rebellions of 1857 The author argues however that even before this complex systems of debate and communication were challenging the political and intellectual dominance of the European rulers **Contagion and Enclaves** Nandini Bhattacharya, 2012-11-20 Contagion and Enclaves studies the social history of medicine within two intersecting enclaves in colonial India the hill station of Darjeeling which incorporated the sanitarian and racial norms of the British Raj and in the adjacent tea plantations of North Bengal which produced tea for the global market **Britain As A Military Power, 1688-1815** Professor Jeremy Black, Jeremy Black, 2002-01-04 In 1688 Britain was successfully invaded its army and navy unable to prevent the overthrow of the government 1815 Britain was the strongest power in the world with the most successful navy and the largest empire Britain had not only played a prominent role in the defeat of Napoleonic France but had also established itself as a significant power in South Asia and was unsurpassed in her global reach Her military strength was related to and based on one of the best systems of public finance in the world and held a strong trade position This illustrated text assesses the military aspects of this shift concentrating on the multi faceted nature of the British

military effort Topics covered include the rise of Britain an analysis of military infrastructure warfare in the British Isles conventional warfare in Europe trans oceanic warfare with European powers the challenge of America and the challenge of Revolutionary and Napoleonic France **The Origins of Himalayan Studies** David Waterhouse,2004-10-28 Brian Hodgson lived in Nepal from 1820 to 1843 during which time he wrote and published extensively on Nepalese culture religion natural history architecture ethnography and linguistics Contributors from leading historians of Nepal and South Asia and from specialists in Buddhist studies art history linguistics ornithology and ethnography critically examine Hodgson s life and achievement within the context of his contribution to scholarship Many of the drawings photographed for this book have not previously been published Poor Relations Christopher J. Hawes,2013-12-16 The sixty years between 1773 and 1833 determined British paramountcy in India Those years were formative too for British Eurasians By the 1820s Eurasians were an identifiable and vocal community of significant numbers particularly in the main Presidency towns They were valuable to the administration of government although barred in the main from higher office The ambition of their educated elite was to be accepted as British subjects not to be treated as native Indians an ambition which was finally rejected in the 1830s

Western Warfare, 1775-1882 Jeremy Black,2014-12-18 This is a wide ranging and comprehensive survey of warfare from the outbreak of the American War of Independence to the British conquest of Egypt Drawing on both primary and secondary sources this book offers an unrivalled account of civil and international conflicts involving Western powers integrating both naval and land warfare This book covers military capability as well as conflict social and political contexts as well as weaponry tactics and strategy As well as examining such major conflicts as the Napoleonic Wars the Crimean War the American Civil War and the Wars of German Unification this book redresses the imbalance of previous treatments by examining other important conflicts for example those in Latin America as well as insurgency and counter insurgency in Europe This book s global perspective provides for a more reliable assessment of what constitutes military capability In so doing the author challenges the technological determinism and linear conceptions of developments in military science that continue to characterise much of military history Instead the author reveals a much more complex dynamic indeed going so far as to question the idea of modernity itself Bold in scope and cutting edge in its interpretations this book offers much for the student general reader and professional historian alike The International Politics of South Asia Vernon Marston Hewitt,1992

A History of the British Cavalry, 1816-1850 Volume 1 The Marquess of Anglesey,1993-09-14 In depth coverage of the Charge of the Light Brigade and the numerous colonial campaigns of the period *The Rise and Fall of Modern Empires, Volume III* Sarah Stockwell,2017-03-02 Few aspects of the history of modern empires are of such significance as their economics and politics These factors are inextricably linked in many analyses have generated extensive historiographical debate and are currently the subject of some of the freshest and liveliest scholarship The articles and chapters which are brought together in this volume relate not only to the European colonial empires but also to the

Napoleonic Russian and Japanese empires The collection is strongly comparative in approach with the articles arranged into thematic sections on the place of politics and economics in the rise and fall of modern empires the causal relationship between modern empires and colonial global and metropolitan economic transformations and the technologies of rule which provided the frameworks through which colonial economies were managed and rights defined The collection reflects new approaches as well as the continuing importance of issues addressed in an older historiography and the thematic arrangement produces useful juxtapositions of older and newer literatures The substantial introduction explores the themes and identifies key historiographical trends in relation to each

War and Empire B. Collins, 2014-09-19 The years 1790 to 1830 saw Britain engage in an extensive period of war waging and empire building which transformed its position as an imperial state established its reputation as a distinctive military power and secured naval preeminence Despite this apparent success Britain did not become a world super power in the conventional sense Instead as Professor Collins demonstrates it operated as an enclave power influencing or dominating many regions of the world without ever asserting global hegemony Even in the 1820s Britain still had to fight to maintain influence and sometimes struggled to assert dominance on the borderlands of the empire By locating naval and military power at the heart of Britain's relationship with the wider world Bruce Collins offers an insightful reinterpretation of the interaction between military and naval war making the expansion of the empire and the nature of the British regime Using examples of conflicts ranging from continental Europe and Ireland to North America Africa and India he argues that the state's effectiveness in war was crucial to its imperial expansion and gives new significance to British military conduct in an age of revolution and war

Triumph at Imphal-Kohima Raymond A. Callahan, 2017-04-21 In the spring of 1944 on the eastern front of India near the Burmese border the seemingly unstoppable Imperial Japanese Army suffered the worst defeat in its history at the hands of Lieutenant General William Slim's British XIV Army most of whose units were drawn from the little esteemed Indian Army Triumph at Imphal Kohima tells the largely unknown story of how an army that Winston Churchill had once dismissed as a welter of lassitude and inefficiency came to achieve such an unlikely unprecedented and critical victory for the Allied forces in World War II Long the British Empire's strategic reserve the Indian Army had been comprehensively defeated in Malaya and Burma in 1941-1943 Military historian Raymond Callahan chronicles the remarkable exercise in institutional transformation that remade the British Indian forces to reverse those losses With the invaluable help of the American DC 3 on the Burma front Slim overhauled the British XIV Army with the Imperial Japanese Army's strategic weaknesses in mind namely an utter disregard for logistics and an unrelenting addiction to the attack Callahan shows how on an enormous battlefield over five hundred miles from north to south the XIV Army surmounted the challenges of terrain disease wretched communication and climate to draw the Imperial forces under Lieutenant General Mutaguchi Renya ever deeper into ever stronger British defensive arrays until the Japanese Army's vaunted offensive aggression finally exhausted itself Following this epic battle from build up to aftermath this book brings

overdue detailed attention to Lieutenant General William Slim's handling of perhaps the most complex battle any Allied commander fought during World War II and to the long belittled British Indian Army that became the magnificent fighting force that triumphed at Imphal Kohima and went on to reconquer Burma **At the Margins of Empire** Lipokmar

Dzüvichü, Manjeet Baruah, 2025-05-26 Empire building in British India was inseparably tied to the processes of frontier making and the creation of boundaries Through a range of complex practices and developments the constitution of these spaces took shape at various historical conjunctures The making of these spaces was also shaped by a variety of imperial concerns including local and global processes connections and entanglements Focusing on the period between the 19th and the early 20th centuries this book looks at how the dynamics of frontier and boundary creation were shaped by a variety of agents institutions infrastructure and technologies events economy travel forms of representation and imperial rivalries The role of capital war and violence was also intrinsic to the creation of such spaces Further societies in these spaces responded to these processes in various ways The book examines how they negotiated and mediated these complex developments of modern space making in multiple ways at the margins of empire Part of the Empire and Frontiers series this book will be of interest to researchers and readers of history anthropology cultural studies social and cultural history frontiers boundaries and borderland studies Himalayan studies and studies of commodities and circulations **Himalayan Bridge** Niraj

Kumar, George van Driem, Phunchok Stobdan, 2020-11-18 The centrality of the Himalayas as a connecting point or perhaps a sacred core for the Asian continent and its civilisations has captivated every explorer and scholar The Himalaya is the meeting point of two geotectonic plates three biogeographical realms two ancient civilisations two different language streams and six religions This book is about the determinant factors which are at work in the Himalayas in the context of what it constitutes in terms of its spatiality legends and myths religious beliefs rituals and traditions The book suggests that there is no single way for understanding the Himalayas There are layers of structures imposition and superimposition of human history religious traits and beliefs that continue to shape the Asian dynamics An understanding of the ultimate union of the Himalayas its confluences and its bridging role is essential for Asian balance This book is a collaborative effort of an internationally acclaimed linguist a diplomat cum geopolitician and a young Asianist It provides countless themes that will be intellectually stimulating to scholars and students with varied interests Please note This title is co published with KW Publishers New Delhi Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka *The Tropics and the Traveling Gaze* David John Arnold, 2015-07-21 Offers a new interpretation of the history of colonial India and a critical contribution to the understanding of environmental history and the tropical world Arnold

considers the ways in which India's material environment became increasingly subject to the colonial understanding of landscape and nature and to the scientific scrutiny of itinerant naturalists **The Irish Diaspora: Tales of Emigration, Exile and Imperialism** Turtle Bunbury, 2021-04-06 The compelling story of the great Irish pioneers who left their homeland

and in the process profoundly influenced their adoptive countries From the first voyages of Saint Brendan in the early sixth century an estimated 10 million people have left the Irish shores for other countries and today more than 80 million people worldwide claim Irish descent In the centuries after the fall of Rome Irish missionaries carried the word of the Christian God throughout Europe while soldiers and mariners from across the land ventured overseas in all directions The advent of the British Empire ignited a slow but extraordinary exodus from Ireland These Wild Geese who opted to live outside of the Protestant state took their chances in the Spanish and French empires as well as in the fledgling New World These immigrants played an important role wherever they went rising to high political and military positions in France and Spain impacting the foundation of the United States and fighting in the Civil War that followed it nearly eighty years later Other Irish would come to the fore in business science engineering and the arts while some were destined for infamy as mobsters and gunslingers Historian Turtle Bunbury explores the lives of these men and women great and otherwise whose pioneering journeys beyond the Irish shore have played a profound role in world history and have left their indelible mark far beyond Ireland Throughout The Irish Diaspora Bunbury takes these overlooked events and characters and weaves them into an entertaining and often surprising history of the Irish abroad

Bengal: The British Bridgehead Peter James Marshall,2006-11-02 The aim of Bengal The British Bridgehead is to explain how in the eighteenth century Britain established her rule in eastern India the first part of the subcontinent to be incorporated into the British Empire Though the British were not in firm control of Bengal Bihar and Orissa until 1765 to illustrate the circumstances in which they gained power and elucidate the Indian inheritance that so powerfully shaped the early years of their rule professor Marshall begins his analysis around 1740 with the reign of Alivardi Khan the last effective Mughal ruler of eastern India He then explores the social cultural and economic changes that followed the imposition of foreign rule and seeks to assess the consequences for the peoples of the region emphasis is given throughout as much to continuities rooted deep in the history of Bengal as to the more obvious effects of British domination The volume closes in the 1820s when with British rule firmly established a new pattern of cultural and economic relations was developing between Britain and eastern India
