crimes under international law radical evils in a number of African states This overview informs a critical analysis of the debates surrounding the African Union's call for withdrawal from the International Criminal Court and proposes a way forward with a more pertinent role for the Court The work critically analyzes the arguments around withdrawal from the ICC and the extension of the jurisdiction of the African Court into criminal matters It is held that this was not intended in the spirit of complementarity as envisaged by the Rome Statute and is subject to political calculation and manipulation by national governments Recasting the ICC as a court of second instance would provide a stronger institutional and jurisdictional regime The book will be a valuable resource for students academics and policymakers working in the areas of international humanitarian law international criminal law African studies and genocide studies **Journal of the American Institute of Criminal Law and Criminology**, 1911
