*Another World, Another Dimension* Rose-Angela Cox, 2023-03-03 Who are you really and where did you come from besides the obvious biological details Do you believe in a higher power from a higher dimension or do you never really seriously question your existence Well this story is a journey of self discovery entering into a spiritual world unknown a world unseen a world in another dimension This story is about a young girl who had to learn that everything isn t always as it seems and that some things may remain hidden for your protection and in other times need to be revealed in order to save you The world we see and experience with our natural senses is not the reality that really exists This short novel gives us a peek into the life of a supernatural child the world of mental illness and the battle that rages between light and darkness As a prophet of God with many supernatural experiences and the gift of spiritual sight I could relate to all that was said in this piece yet I am not sure if it was my experience of this sort of reality that had me on the edge of my seat or the story that I was reading Come and join Jessica a young girl that will open up this brave new world to you the reader Matthew Robert Payne Author and Prophet

You are a Cosmic Being Neville Lancelot Goddard, The central theme of this book is the experience of God as a reality accessible to all individuals The text does not propose an abstract or distant belief but a direct and unavoidable experience as concrete as the perceptions of the senses The relationship between different religious traditions is understood as part of a prophetic plan in which ancient scriptures bring the promise and new texts represent its fulfillment Since childhood every human being carries within them a divine essence This essence manifests itself in the very consciousness of existing reflecting God s presence The metaphor used to describe this experience is that of a call in which the inner voice awakens the individual to their true identity The idea of divinity is presented as inherent in everyone without distinction or exclusion and awareness of this truth is reminded and reinforced by a constant spiritual force The text proposes that the divine

presence resides in the human being in a profound way and this presence although invisible can be recognized through the awakening of spiritual awareness The image of the tomb is used to symbolize the physical body while the spiritual resurrection is treated as an experience that will eventually be lived by everyone regardless of religious doctrines The idea of divine unity permeates the text suggesting that in essence all human beings are manifestations of the same divine principle This unity is revealed through personal inner experience in which everyone recognizes themselves as part of this whole The I Am is presented as the essence of God that dwells in each being and the spiritual journey involves recognizing and living this truth The book also examines the idea of life after death emphasizing that existence continues in other dimensions and that everyone will be restored Earthly life is therefore a preparation for this continuity in which accumulated thoughts and experiences play a central role in the individual's spiritual evolution The practice of elevated thoughts and conscious conduct is seen as essential for spiritual development The relationship between God and humanity is described symbolically suggesting that divinity manifests itself fully when human beings awaken to their true nature The human imagination is seen as a reflection of the divine essence and by understanding this connection the individual acquires the ability to transform their own reality The Bible far from being just a collection of historical accounts is presented as a personal and intimate narrative of each human being offering a revelation of the divine wisdom and power that resides within each one True understanding of these scriptures comes not from a literal reading but from direct experience of God The main message of the book therefore is that the true nature of God is within every human being and that spiritual growth consists of recognizing and living this reality The experience of God is accessible to everyone and by awakening to this truth the individual finds their own divinity A R Ribeiro
