textbooks and rules for war games Wells is now best remembered for his science fiction novels and is called a father of science fiction along with Jules Verne and Hugo Gernsback His most notable science fiction works include The Time Machine 1895 The Island of Doctor Moreau 1896 The Invisible Man 1897 and The War of the Worlds 1898 He was nominated for the Nobel Prize in Literature four times The Island of Doctor Moreau (Annotated) H. G. Wells, 2018 This is an annotated version of the book 1 contains an updated biography of the author at the end of the book for a better understanding of the text 2 This book has been checked and corrected for spelling errors ON February the First 1887 the Lady Vain was lost by collision with a derelict when about the latitude 1 degree S and longitude 107 degrees W On January the Fifth 1888 that is eleven months and four days after my uncle Edward Prendick a private gentleman who certainly went aboard the Lady Vain at Callao and who had been considered drowned was picked up in latitude 5 degrees 3 S and longitude 101 degrees W in a small open boat of which the name was illegible but which is supposed to have belonged to the missing schooner Ipecacuanha He gave such a strange account of himself that he was supposed demented Subsequently he alleged that his mind was a blank from the moment of his escape from the Lady Vain His case was discussed among psychologists at the time as a curious instance of the lapse of memory consequent upon physical and mental stress The following narrative was found among his papers by the undersigned his nephew and heir but unaccompanied by any definite request for publication The only island known to exist in the region in which my uncle was picked up is Noble's Isle a small volcanic islet and uninhabited It was visited in 1891 by H M S Scorpion A party of sailors then landed but found nothing living thereon except certain curious white moths some hogs and rabbits and some rather peculiar rats So that this narrative is without confirmation in its most essential particular With that understood there seems no harm in putting this strange story before the public in accordance as I believe with my uncle s intentions There is at least this much in its behalf my uncle passed out of human knowledge about latitude 5 degrees S and longitude 105 degrees E and reappeared in the same part of the ocean after a space of eleven months In some way he must have lived during the interval And it seems that a schooner called the Ipecacuanha with a drunken captain John Davies did start from Africa with a puma and certain other animals aboard in January 1887 that the vessel was well known at several ports in the South Pacific and that it finally disappeared from those seas with a considerable amount of copra aboard sailing to its unknown fate from Bayna in December 1887 a date that tallies entirely with my uncle s story I DO not propose to add anything to what has already been written concerning the loss of the Lady Vain As everyone knows she collided with a derelict when ten days out from Callao The longboat with seven of the crew was picked up eighteen days after by H M gunboat Myrtle and the story of their terrible privations has become guite as well known as the far more horrible Medusa case But I have to add to the published story of the Lady Vain another possibly as horrible and far stranger It has hitherto been supposed that the four men who were in the dingey perished but this is incorrect I have the best of evidence for this assertion I was one of the four men But in the first place I must state that there

never were four men in the dingey the number was three Constans who was seen by the captain to jump into the gig 1 luckily for us and unluckily for himself did not reach us He came down out of the tangle of ropes under the stays of the smashed bowsprit some small rope caught his heel as he let go and he hung for a moment head downward and then fell and struck a block or spar floating in the water We pulled towards him but he never came up The Island of Doctor Moreau: Large Print H.
