The String Quartet, 1750-1797 Mara Parker, 2017-07-05 The second half of the eighteenth century witnessed a flourishing of the string quartet often represented as a smooth and logical progression from first violin dominated homophony to a more equal conversation between the four voices Yet this progression was neither as smooth nor as linear as previously thought as Mara Parker illustrates in her examination of the string quartet during this period Looking at a wide variety of string quartets by composers such as Pleyel Distler and Filtz in addition to Haydn and Mozart the book proposes a new way of describing the relationships between the four instruments in different works Broadly speaking these relationships follow one of four patterns the lecture the polite conversation the debate and the conversation In focusing on these musical discourses it becomes apparent that each work is the product of its

composer's stylistic choices location intended performers and intended audience Instead of evolving in a strict and universal sequence the string quartet in the latter half of the eighteenth century was a complex genre with composers mixing and matching musical discourses as circumstances and their own creative impulses required

Béla Bartók in Italy Nicolò Palazzetti, 2021 Examines the reputation of the Hungarian musician Béla Bartók 1881-1945 as an antifascist hero This book examines the reputation of the Hungarian composer Béla Bartók 1881-1945 as an antifascist hero and beacon of freedom Following Bartók's reception in Italy from the early twentieth century through Mussolini's fascist regime and into the early Cold War Palazzetti explores the connexions between music politics and diplomacy The wider context of this study also offers glimpses into broader themes such as fascist cultural policies cultural resistance and the ambivalent political usage of modernist music The book argues that the Bartókian Wave occurring in Italy after the Second World War was the result of the fusion of the Bartók myth as the musician of freedom and the Cold War narrative of an Italian national regeneration Italian Hungarian diplomatic cooperation during the interwar period had supported Bartók's success in Italy But in spite of their political alliance the cultural policies by Europe's leading fascist regimes started to diverge over the years many composers proscribed in Nazi Germany were increasingly performed in fascist Italy In the early 1940s the now exiled composer came to represent one of the symbols of the anti-Nazi cultural resistance in Italy and was canonised as the musician of freedom Exile and death had transformed Bartók into a martyr just as the Resistenza and the catastrophe of war had redeemed post-war
