The Ivorybill Hotel

The Ivorybill Hotel:

The Ivorybill Hotel Anne Butler, 2005-04-01 This amusing little story has no delusions of grandeur no intellectual pretensions but it certainly has a good sense of timing the advance author copy was received for approval the very day there was a long awaited public announcement of several verified and videotaped sightings of an Ivorybill Woodpecker in heavily wooded areas of Arkansas Like life seen through the romantic distortions of wavy handblown glass windowpanes this story is a blurring and blending of fact and fiction But then so is all of life in the South where the only thing certain is that the real fact is a whole lot stranger and more interesting than any fiction The late Dr Carmichael s stout hearted friends really did forget exactly where they buried him after celebrating his life by drinking all the bottles of fine vintage wine in his underground wine cellar which led to all sorts of complications From the Kemper Brothers Rebellion complete with ears whacked off and pickled in wine to the rowdy raucous Black Cat saloon there s a lot of truth in this book As for the major characters with the exception of the late lamented Dr Carmichael they re all simply fictional with no resemblance intended to reality They re just as unreal as that old Lord God Bird the Ivorybill Woodpecker Which may not be all that unreal at all

Deep Roots Anne Butler, 2019-03-22 Imagine the presumably pacifist Quaker physician surviving the wilds of frontier Louisiana only to see his descendants marry into families of battle hardened warriors One survived being bayoneted nine times in the Revolutionary War one was tomahawked to death in the Indian Wars and his heart was eaten by the redskins to carry on his bravery brothers served as Andrew Jackson s aides de camp at the Battle of New Orleans and one was a seventeen year old marching off to the Civil War with his slave by his side For a storyteller this family is fertile ground and for the reader it is fascinating

The Life List of Adrian Mandrick Chris White, 2018-04-17 With a birder s eye for detail White takes us on Adrian Mandrick s painful near death descent her life affirming conclusion reminds us that endangered species aren t the only ones that need to change and adapt in order to survive The New York Times Book Review *H Is for Hawk* meets *Grief Is the Thing with Feathers* in this evocative debut novel about a pill popping anesthesiologist and avid birder who embarks on a quest to find one of the world s rarest species allowing nothing to get in his way until he s forced to confront his obsessions and what they ve cost him Adrian Mandrick seems to have his life in perfect order with an excellent job in a Colorado hospital a wife and two young children he loves deeply and a serious passion for birding His life list comprises 863 species correctly identified and cataloged it is in fact the third longest list in the North American region But Adrian holds dark secrets about his childhood secrets that threaten to consume him after he s contacted by his estranged mother and subsequently relapses into an addiction to painkillers In the midst of his downward spiral the legendary birder with the region s second longest life list dies suddenly and Adrian receives an anonymous tip that could propel him to the very top the extremely rare Ivory billed Woodpecker spotted deep in the swamplands of Florida s Panhandle Combining sharp elegant prose with environmental adventure *The Life List of Adrian Mandrick* is a poignant engaging story that heralds

the arrival of a new literary talent Ghost Birds Stephen Lyn Bales,2010-10-21 Everyone who is interested in the ivory billed woodpecker will want to read this book from scientists who wish to examine the data from all the places Tanner explored to the average person who just wants to read a compelling story Tim Gallagher author of *The Grail Bird* *The Rediscovery of the Ivory billed Woodpecker* In 1935 naturalist James T Tanner was a twenty one year old graduate student when he saw his first ivory billed woodpecker one of America s Istudent when he saw his first ivory billed woodpecker one of America s rarest birds in a remote swamp in northern Louisiana At the time he rarest birds in a remote swamp in northern Louisiana At the time he was part of an ambitious expedition traveling across the country to record and photograph as many avian species as possible a trip organized by Dr Arthur Allen founder of the famed Cornell Lab of Ornithology Two years later Tanner hit the road again this time by himself and in search of only one species that ever elusive ivory bill Sponsored by Cornell and the Audubon Society Jim Tanner s work would result in some of the most extensive field research ever conducted on the magnificent woodpecker Drawing on Tanner s personal journals and written with the cooperation of his widow Nancy Ghost Birds recounts in fascinating detail the scientist s dogged quest for the ivory bill as he chased down leads in eight southern states With Stephen Lyn Bales as our guide we experience the same awe and excitement that Tanner felt when he returned to the Louisiana wetland he had visited earlier and was able to observe and document several of the ghost birds including a nestling that he handled banded and photographed at close range Investigating the ivory bill was particularly urgent because it was a fast vanishing species the victim of indiscriminant specimen hunting and widespread logging that was destroying its habitat As sightings became rarer and rarer in the decades following Tanner s remarkable research the bird was feared to have become extinct Since 2005 reports of sightings in Arkansas and Florida made headlines and have given new hope to ornithologists and bird lovers although extensive subsequent investigations have yet to produce definitive confirmation Before he died in 1991 Jim Tanner himself had come to believe that the majestic woodpeckers were probably gone forever but he remained hopeful that someone would prove him wrong This book fully captures Tanner s determined spirit as he tracked down what was then as now one of ornithology s true Holy Grails STEPHEN LYN BALES is a naturalist at the Ijams Nature Center in Knoxville Tennessee He is the author of *Natural Histories* published by UT Press in 2007 *The Race to Save the Lord God Bird* Phillip Hoose,2014-08-26 Tells the story of the ivory billed woodpecker s extinction in the United States describing the encounters between this species and humans and discussing what these encounters have taught us about preserving endangered creatures **The Life of the Skies** Jonathan Rosen,2008-12-23 Aerial delights A history of America as seen through the eyes of a bird watcher John James Audubon arrived in America in 1803 when Thomas Jefferson was president and lived long enough to see his friend Samuel Morse send a telegraphic message from his house in New York City in the 1840s As a boy Teddy Roosevelt learned taxidermy from a man who had sailed up the Missouri River with Audubon and yet as president presided over America s entry into the twentieth century in which our ability to destroy

ourselves and the natural world was no longer metaphorical Roosevelt an avid birder was born a hunter and died a conservationist Today forty six million Americans are bird watchers The Life of the Skies is a genre bending journey into the meaning of a pursuit born out of the tangled history of industrialization and nature longing Jonathan Rosen set out on a quest not merely to see birds but to fathom their centrality historical and literary spiritual and scientific to a culture torn between the desire both to conquer and to conserve Rosen argues that bird watching is nothing less than the real national pastime indeed it is more than that because the field of play is the earth itself We are the players and the spectators and the outcome since bird and watcher are intimately connected is literally a matter of life and death *The American Manufactory* Laura Rigal,2021-03-09 This cultural history of American federalism argues that nation building cannot be understood apart from the process of industrialization and the making of the working class in the late eighteenth century United States Citing the coincidental rise of federalism and industrialism Laura Rigal examines the creations and performances of writers collectors engineers inventors and illustrators who assembled an early national world of things at a time when American craftsmen were transformed into wage laborers and production was rationalized mechanized and put to new ideological purposes American federalism emerges here as a culture of self making in forms as various as street parades magazine writing painting autobiography advertisement natural history collections and trials and trial transcripts Chapters center on the craftsmen who celebrated the Constitution by marching in Philadelphia s Grand Federal Procession of 1788 the autobiographical writings of John Fitch an inventor of the steamboat before Fulton the exhumation and museum display of the first American mastodon by the Peale family of Philadelphia Joseph Dennie s literary miscellany the Port Folio the nine volume American Ornithology of Alexander Wilson and finally the autobiography and portrait of Philadelphia locksmith Pat Lyon who was falsely imprisoned for bank robbery in 1798 but eventually emerged as an icon for the American working man Rigal demonstrates that federalism is not merely a political movement or an artifact of language but a phenomenon of culture one among many innovations elaborated in the manufactory of early American nation building Congressional Record United States. Congress,1969 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 Imagining Extinction Ursula K. Heise,2016-08-10 We are currently facing the sixth mass extinction of species in the history of life on Earth biologists claim the first one caused by humans Activists filmmakers writers and artists are seeking to bring the crisis to the public s attention through stories and images that use the strategies of elegy tragedy epic and even comedy Imagining Extinction is the first book to examine the cultural frameworks shaping these narratives and images Ursula K Heise argues that understanding these stories and symbols is indispensable for any effective advocacy on behalf of endangered species

More than that she shows how biodiversity conservation even and especially in its scientific and legal dimensions is shaped by cultural assumptions about what is valuable in nature and what is not. These assumptions are hardwired into even seemingly neutral tools such as biodiversity databases and laws for the protection of endangered species. Heise shows that the conflicts and convergences of biodiversity conservation with animal welfare advocacy, environmental justice and discussions about the Anthropocene open up a new vision of multispecies justice. Ultimately *Imagining Extinction* demonstrates that biodiversity, endangered species and extinction are not only scientific questions but issues of histories, cultures and values.

Roads to Quoz William Least Heat-Moon, 2025-05-01 About a quarter century ago a previously unknown writer named William Least Heat Moon wrote a book called *Blue Highways*. Acclaimed as a classic, it was a travel book like no other. Quirky, discursive, endlessly curious, Heat Moon had embarked on an American journey off the beaten path. Sticking to the small places via the small roads, those colored blue on maps, he uncovered a nation deep in character, story and charm. Now for the first time since *Blue Highways*, Heat Moon is back on the backroads. *Roads to Quoz* is his lyrical, funny and touching account of a series of American journeys into small town America.

Gotcha for Guys! Kathleen A. Baxter, Marcia Agness Kochel, 2006-11-30 Research indicates boys are interested in reading nonfiction materials, yet most children's librarians prefer to booktalk fiction. Offering citations for more than 1,100 books, *Gotcha for Guys* deals specifically with books to pique the interest of middle grade boys. A series of booktalks are grouped within chapters with like titles such as *Creepy Crawly Creatures*, *Disasters and Unsolved Mysteries*, *Action and Innovation* and *All Things Gross*. Complete booktalks are presented in a beginning section of chapters 1-9. A second section in each of these chapters contains short annotations and talks for other books of interest, and a third section offers lists of well-reviewed titles to consider for boys. The book is enhanced with book cover art and reproducible lists for teachers and librarians.

Down on the Batture Oliver A. Houck, 2010-04-19 The lower Mississippi River winds past the city of New Orleans between enormous levees and a rim of sand, mud and trees called the batture. On this remote and ignored piece of land thrives a humanity unique to the region: ramblers, artists, drinkers, fishers, rabbit hunters, dog walkers, sunset watchers and refugees from immigration, alimony and other aspects of modern life. Author Oliver A. Houck has frequented this place for the past twenty-five years. *Down on the Batture* describes a life pastoral at times, marginal but remarkably fecund and surprising. From this place he meditates on Louisiana, the state of the waterway and its larger environs. He describes all the actors who have played lead roles on the edge of the mightiest river of the continent and includes in his narrative plantations, pollution, murder, land grabs, keelboat brawlers, slave rebellions, the Corps of Engineers and the oil industry. Houck draws from his experience in New Orleans since the early 1970s in the practice and teaching of law. He has been a player in many of the issues he describes, although he does not undertake to argue them here. Instead, story by story, he uses the batture to explore the forces that have shaped and spell out the future of the region. The picture emerges of a place that for all its tangle of undergrowth, drifting humanity, shifting

dimensions in the rise and fall of floodwater provides respite and sanctuary for values that are original to America and ever at risk from the homogenizing forces of civilization **Studer's Popular Ornithology ...** Jacob H.
