**Encouragement from the Psalms** Dr. B, 2023-06-12 As James Brandon read and studied the Psalms over the years he came to realize that the Lord was talking to our souls through these ancient songs He was also struck by a book written in the 1800s by a man named Hawker who after reading one of the Psalms would exclaim Oh my soul what is this that thou hast found in the Holy Writ He would talk to his soul after reading the text The author began to read the Psalms and reflect on what each one said to his soul He has done that for fifty years In this book he focuses on the Psalms of Moses which encompass Psalms 90 to 106 They may have been collected by the men of Hezekiah during the reign of King Hezekiah and or by Ezra following the Babylonian Captivity It was titled The Numbers Book the Wilderness Sojourn and the Promised Land The Pulpit Commentary Vol 8 254 The Companion Bible Psalms 720 The Psalms are a wonderland of devotion They have enlightened the author's mind and encouraged his spirit They can do the same for you all while providing principles for living this life as you help others walk with the Lord *Restoring Balance* Julius Varga, 2019-07-27 Restoring Balance is indented to reveal some inconvenient truth about our current global momentums in hopes of identifying urgent issues that need better solutions The content of this book is presented by alternating the chapters They were meant to engage both the adult mind with sobering perspectives and that of the innocent child in all of us with short interluding fables that do reiterate the message of each adult chapter

**Utopia and Revolution** Melvin

Lasky,2018-04-17 The most comprehensive study of ideology and utopia since Karl Mannheim s work of the 1930s Utopia and Revolution can be understood as turning classical political theory on its head or perhaps inside out Instead of the usual summary of how English radical theologies contributed to the revolutionary process Lasky shows how such political theology of the mid seventeenth century became the backbone of the natural history of revolutionary disasters In a remarkable feat of scholarship in intellectual history Lasky charts the course of this historic entanglement over some five turbulent centuries of Western history In so doing he traces the ideological extension of the human personality through the writings of political theorists philosophers poets and historians

The China Journals Hugh Trevor-Roper,2020-02-20 These private journals made available here for the first time record Hugh Trevor Roper s visit to the People s Republic of China in the autumn of 1965 shortly before the outbreak of the Cultural Revolution and describe the controversial aftermath of his journey on his return to England The visit was a catalogue of frustrations which he relates with the verve and irony of a master narrator who relished the human comedy His efforts to meet the real life and mind of China in whose history and politics he had long been interested were blocked at every turn by the resources of state propaganda and the claustrophobic attention of sullen Party guides The visit was arranged by the London based Society for Anglo Chinese Understanding which was ostensibly committed to the impartial interchange of culture and ideas It proved to be run by a Communist clique whose ruthless methods of control outwitted the well connected membership Back in England and with help from MI5 he resolved to get to the bottom of the society s affairs His investigations provoked a tumultuous public row which Trevor Roper no shirker of controversy zestfully traces in these pages Through the book which closes with an account of his visit to Taiwan and South East Asia in 1967 there run the wisdom of historical perspective that he brought to contemporary events and his lifelong commitment to the defence of liberal values and practices against their ideological adversaries

**Anthropologies of Orthodox Christianity** Candace Lukasik,Sarah

Riccardi-Swartz, 2025-11-04 Anthropologically explores the entanglement of theology and politics among contemporary Orthodox Christians Much of the anthropological literature on Christianity tends to concentrate on Protestants and Catholics in the Global South The contemporary scholarly interest in such communities descends from histories of missionization and colonization of these regions as well as a sense of their theological kinship with the secularized visions of Western political and social life Orthodox Christianity however has largely been rendered marginal in mainstream anthropological engagement because of its theological and social alterity from such Western anthropological traditions of knowledge production Because of this Orthodox Christian lifeworlds in and beyond the academy are created contested and transformed in relation to various others whether they be religious political secular or historical with an eye toward a discursive opposition between modernity and Orthodoxy Each of the essays in Anthropologies of Orthodox Christianity texture a new trajectory in the study of this religious tradition that take seriously the theopolitical aspects of Orthodox life through anthropological inquiry The volume engages and moves beyond the tension between populist and institutional framings of religion and critically addresses the ontological gap in both anthropology and theology as social cultural and geopolitical interest in Orthodox Christianity continues to expand and grow
