Marriage and the Law in the Age of Khubilai Khan Bettine Birge,2017-07-24 These thirteenth century legal cases from the classic compendium Yuan dianzhang reveal the complex contradictory inner workings of the Mongol Yuan legal system as seen through the prism of divorce adultery rape wife selling and other marital disputes Bettine Birge offers a meticulously annotated translation and analysis *China: A History* Harold Miles Tanner,2009-03-13 A deep and rigorous yet eminently accessible introduction to the political social and cultural development of imperial Chinese civilisation this volume develops a number of important themes such as the ethnic diversity of the early empires that other editions omit entirely or discuss only minimally Includes a general introduction chronology bibliography illustrations maps and an index Mongolian Rule in China Elizabeth Endicott-West,2020-10-26 The Mongolian Yuan dynasty 1272 1368 is a short but interesting chapter in the long history of Sino Mongolian relations Faced with the challenge of governing a huge sedentary empire the traditionally nomadic Mongols acceded to some Chinese institutional precedents but in large part adhered to their own Inner Asian practices of staffing and administering the government apparatus Yuan administrative documents provide information that permits a fairly accurate reconstruction of the day to day functioning of the local government bureaucracy From these materials Elizabeth Endicott West has put together a detailed picture of the Mongols methods of selecting local officials the ethnic backgrounds of officials and policy formation and implementation at the local level **The Unbridled Lust and Untimely Death of Prince Hailing--new** Gopal Sukhu,2011 A new translation of the long suppressed novella of the Ming Dynasty along with notes and a scholarly study *From Yuan to Modern China and Mongolia* Morris Rossabi,2015-01-27 This wide ranging work consisting of selected essays of Morris Rossabi reflects the diverse interests of a leading scholar of

China and Inner Asia It encompasses the eras from the thirteenth century to the present territories stretching from China to Mongolia to Central Asia and to the Middle East and religions from Islam to Nestorian Christianity to Judaism and Confucianism in East Central and West Asia Rossabi first challenged the conventional wisdom concerning traditional Chinese foreign relations by showing the pragmatism of Chinese officials who were not bound by Confucian strictures and stereotypes about foreigners and were actually knowledgeable about neighboring regions His studies of the territories surrounding China led to the discovery of a major omission in historical writing the lack of a biography of Khubilai Khan one of the most renowned rulers in Eurasian history His biography of Khubilai resulted in further studies of the Mongolian legacy on global history and of the significant role of women in the Mongolian empire His repeated travels in Mongolia in turn stimulated an interest in modern Mongolia especially the turbulence following the collapse of socialism in 1990 a subject he writes about in this book The need for greater public knowledge and awareness of China Mongolia Central Asia the Silk Roads and Islam in Asia prompted Rossabi to write general occasionally pedagogical articles about these topics for a wider audience

Women in Imperial China Bret Hinsch, 2016-09-22 This accessible text offers a comprehensive survey of women's history in China from the Neolithic period through the end of the Qing dynasty in the early twentieth century Rather than providing an exhaustive chronicle of this vast subject Bret Hinsch pinpoints the themes that characterized distinct periods in Chinese women's history and delves into the perception of female identity in each era Moving beyond the traditional focus on the late imperial era Hinsch explores how gender relations have developed and changed since ancient times His chronological look at the most important female roles in every major dynasty showcases not only the constraints women faced but also their vast accomplishments throughout the millennia Hinsch's extensive use of Chinese language scholarship lends his book a fresh perspective rare among Western scholars Professors and students will find this an invaluable textbook for Chinese women's studies and an excellent supplement for courses in gender studies and Chinese history

Beyond Pain Thomas A. Breslin, 2001-10-30 Breslin demonstrates that for two millennia states in East Asia Europe and America have successfully used pleasure to protect themselves and advance their interests at a small fraction of the cost of militarized policies Indeed the Chinese demonstrated

that pleasure based policies primed a stream of highly profitable foreign trade and bolstered the state Pleasure was feared because it was effective as both an offensive and defensive strategy The colleens of Ireland and the bibis of India showed how inexorably effective pleasure could be in confounding militarily stronger invaders In contrast resorting to violence and pain generally undermined aggressive states Cultural factors have shaped the choice of pleasures used Food centered China has used food as well as sex and tourism as tools in its foreign relations Rome used wine Byzantium precious metals banquets and public spectacles Venice sex money and art England money and education America has used sex money education music and tourism Breslin s provocative text is based on a wide reading of secondary sources and some primary sources as well as a quarter century of teaching the history of foreign relations [Taxing Heaven's Storehouse](#) Paul J. Smith, 2020-10-26 Tea growing was a prosperous industry in Sichuan when Wang Anshi s New Policies created a Tea Market Agency to buy up Sichuanese tea and trade it to Tibetan tribesmen for cavalry horses At first the highly autonomous agency not only acquired the needed horses but made a profit After the Junchen conquest of North China however market realities changed and the combined Tea and Horse Agency s once successful policies ruined tea farmers failed to meet quotas for horses and ran a deficit Paul J Smith details the workings of Sichuan tea farming and the tea trade examines the geopolitical factors that forced the Song to buy horses and graphically describes the difficulties of driving them more than a thousand miles through rugged mountains with only inexperienced conscripts as trail hands In this study of fiscal sociology Smith also explains how the Tea and Horse Agency transformed the Sichuan local elite which was notorious for its resistance to state power into imperial civil servants eager to tax their own region He draws on modern theories of corporate behavior to explain what made the inner workings of the Agency an extraordinary departure for the Chinese civil service and he demonstrates how the agency put into practice the most radical New Policies theories of state economic activism The Agency made entrepreneurs out of bureaucrats but ultimately became ruinously tyrannical as the system of state rewards and punishments drove its personnel to actions that crippled key sectors of the economy
