The Kashmir Question Retrospect And Prospect

Devin T. Hagerty

The Kashmir Question Retrospect And Prospect:

The Kashmir Question Sumit Ganguly, 2003 Few bilateral conflicts have proven as resistant to resolution as the Kashmir dispute between India and Pakistan. What explains the tenacity of this dispute? The answer is complex and goes to the very basis of state construction in South Asia. India, which had been created as a civic polity, initially sought to hold on to this Muslim majority state to demonstrate its secular credentials. 1. Pakistan in turn had laid claim to Kashmir because it had been created as the homeland for the Muslims of South Asia. 2. After the break up of Pakistan in 1971, the Pakistani irredentist claim to Kashmir lost substance. The Kashmir Question Sumit Ganguly, 2004-03-01 India, which had been created as a civic polity, initially sought to hold on to this Muslim majority state to demonstrate its secular credentials. Pakistan in turn had laid claim to Kashmir because it had been created as the homeland for the Muslims of South Asia. After the break up of Pakistan in 1971, the Pakistani irredentist claim to Kashmir lost substantial ground. If Pakistan could not cohere on the basis of religion alone, it had few moral claims on its co-religionists in Kashmir. Similarly, in the 1980s, as the practice of Indian secularism was eroded, India's claim to Kashmir on the grounds of secularism largely came apart. Today, their respective claims to Kashmir are mostly on the basis of statecraft. This title provides a comprehensive assessment of a number of different facets of the on-going dispute over Kashmir between India and Pakistan. Among other matters, it examines the respective endgames of both states, the evolution of American policy toward the dispute, the dangers of nuclear escalation in the region, and the state of the insurgency in the Indian-controlled portion of the disputed state. Fragile Frontiers Saroj Kumar Rath, 2015-06-03 Critical questions remain unanswered on the events of the cold-blooded and devastating terror attacks in Mumbai on 26 November 2008. Investigative and introspective, this book offers a lucid and graphic account of the ill-fated day and traces the changing dynamics of terror in South Asia. Using new insights, it explores South Asia's regional dynamics of antagonism, the ever-present challenge to the frontiers of India, Pakistan, and the terrorism question, the strife in Afghanistan, and the self-serving selective US war on terror. This will be an engaging read for those interested in defence, security, and strategic studies, politics, international relations, peace and conflict studies, and South Asian studies, as well as the general reader. *Understanding Pakistan* Mathew Joseph C., 2016-09-13 This book is the outcome of a national seminar for research scholars on Pakistan organized by the Centre for Pakistan Studies at the MMAJ Academy of International Studies, Jamia Millia Islamia, New Delhi. The aim of the seminar was to explore how young minds in India view Pakistan, the quintessential enemy country. The range of topics included issues related to Pakistan's politics, economy, popular culture, education, environment, sectarian divide, minorities, policy towards Jammu, Kashmir, and foreign relations. Please note: Taylor Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh, and Sri Lanka. *Military Industry and Regional Defense Policy* Timothy D. Hoyt, 2017-07-05 *Military Industry and Regional Defense Policy* re-examines military industrialization in the developing world, focusing on policy making in producer states and the impact of security perceptions on such policy making.

Timothy D Hoyt reassesses the role of regional state sub systems in international relations and recent historical studies of international technology and arms transfers Looking at Israel Iraq and India the three most powerful regional powers in the Cold War era he presents an expert analysis of the three sided phenomena of the regional hegemony the regional competitor and the small over achiever This new book breaks away from existing literature on military industries in the developing world which has focused on their economic and development costs and benefits These past studies have used primitive methodologies that focus on the production of complete weapons systems a misleading gauge in a world of growing international defense cooperation They have also ignored empirical evidence of the impact of local military industrial production on Cold War regional conflict and of the defence planning and concerns that drove development of indigenous military industries in key regional powers This new text delivers an incisive new perspective

Politics and Religion in India Narender Kumar,2019-09-12 This volume examines how religion is intrinsically related to politics in India Based on studies from states across the length and breadth of India it looks at political formations that inform political discourse on the national level and maps the trajectory of religion in politics The chapters in this volume discuss contemporary trends in Indian politics including Hindutva citizenship bills and mob violence draw on fieldwork conducted across states and regions in India on critical themes including the role of religion in electoral process political campaigns and voting behaviour political and ideological mobilization and state politics vis vis religion among minorities focus on the emerging politics of the 21st century The book will be a key reference text for scholars and researchers of politics religion sociology media and culture studies and South Asian studies

South Asian Regionalism Chakma, Bhumitra,2020-07-22 Leading South Asia expert Bhumitra Chakma explains the politics of regionalism in South Asia and traces the origins and evolution of the South Asian Association for Regional Cooperation SAARC from its inception to the present day He takes an International Relations perspective and engages three major IR theoretical approaches neorealism institutionalism and constructivism to explain the complex dynamics of South Asian regionalism Using comparative perspectives based on the experiences of similar regional organizations the author provides an in depth analysis of the challenges of cooperation in the region and explores how progress might be made in the future

The Shakespearean International Yearbook Alexa Alice Joubin,Natalia Khomenko,2025-06-30 In the modern world references to Shakespeare frequently mark moments of catastrophe and of the accompanying longing for restoring social order remedying injuries and building strong communities Shakespeare s moral authority has often been invoked to support artistic projects that claimed social justice as their goal on the assumption that drama has the power to manipulate perceptual reality Drawing on cases from around the world this book interrogates the idea that performing or reading Shakespeare has socially reparative value It also acknowledges Shakespeare as a potential source of social well being practices in the arts The global framework shows that it is problematic to view Shakespeare as an impartial moral center This book proposes that reparative creativity or remedial uses of the canon can give artists and

audiences more agency Having a map of canonical texts hidden ideologies can help readers artists and playgoers navigate its landscape which is in itself a reparative act

The Politics of Counterterrorism in India Prem Mahadevan, 2011-12-18 In the wake of the Mumbai terrorist attacks in November 2008 terrorism and counterterrorism in India became the focus of international regional and national attention Here Prem Mahadevan by using three case studies of Sikh separatist Kashmiri separatist and pan Islamist groups focuses on the efforts of India's decision makers and intelligence agencies to create coherent and effective counterterrorism policies and actions Questioning why Sikh separatist groups have been effectively contained and yet pan Islamists have not Mahadevan draws the conclusion that due to a gap between the expectations of decision makers and the capabilities of strategic intelligence agencies India's ability to prevent terrorist attacks has been undermined In addition the role played by Pakistan's intelligence agencies in the border regions is given extensive analytical treatment Combining a theoretical approach with empirical analysis of India's counterterrorist activities this book holds valuable information for those examining strategy making and counterterrorism practitioners as well as researchers in addition to those interested in the politics of India

Natural Allies? Stephen Blank, 2005

The Palgrave Handbook of National Security Michael Clarke, Adam Henschke, Matthew Sussex, Tim Legrand, 2021-09-28 This handbook provides a comprehensive analysis of the contemporary theory practice and themes in the study of national security Part 1 Theories examines how national security has been conceptualised and formulated within the disciplines international relations security studies and public policy Part 2 Actors shifts the focus of the volume from these disciplinary concerns to consideration of how core actors in international affairs have conceptualised and practiced national security over time Part 3 Issues then provides in depth analysis of how individual security issues have been incorporated into prevailing scholarly and policy paradigms on national security While security now seems an all encompassing phenomenon one general proposition still holds national interests and the nation state remain central to unlocking security puzzles As normative values intersect with raw power as new threats meet old ones and as new actors challenge established elites making sense out of the complex milieu of security theories actors and issues is a crucial task and is the main accomplishment of this book

India's Borderland Disputes Anna Orton, Boundaries are manifestations of national identity They can be trip wires of war This is all the more important if the involved parties are nuclear powers It threatens to inflame long standing boundary disputes that India has with China Pakistan Nepal and Bangladesh This book attempts to examine all the major aspects of these disputes Going deep into their historical legacies it discusses at length their causes consequences and the ways to how to solve them

The Kashmir Conflict Rakesh Ankit, 2016-06-17 This book presents a study of the international dimensions of the Kashmir dispute between India and Pakistan from before its outbreak in October 1947 until the Tashkent Summit in January 1966 By focusing on Kashmir's under researched transnational dimensions it represents a different approach to this intractable territorial conflict Concentrating on the global context's in which the dispute unfolded it argues that the dispute's evolution was determined by

international concerns that existed from before and went beyond the Indian subcontinent Based on new and diverse official and personal papers across four countries the book foregrounds the Kashmir dispute in a twin setting of Decolonisation and the Cold War and investigates the international understanding around it within the imperatives of these two processes In doing so it traces Kashmir s journey from being a residual irritant of the British Indian Empire to becoming a Commonwealth embarrassment and its eventual metamorphosis into a security concern in the Cold War climate s A princely state of exceptional geo strategic location complex religious composition and unique significance in the context of Indian and Pakistani notions of nation and statehood Kashmir also complicated their relations with Britain the United States Soviet Union China the Commonwealth countries and the Afro Arab Asian world This book is of interest to scholars in the field of Asian History Cold War History Decolonisation and South Asian Studies *Counterinsurgency, Democracy, and the Politics of Identity in India* Mona Bhan,2013-09-11 The rhetoric of armed social welfare has become prominent in military and counterinsurgency circuits with profound consequences for the meanings of democracy citizenship and humanitarianism in conflict zones By focusing on the border district of Kargil the site of India and Pakistan s fourth war in 1999 this book analyses how humanitarian policies of healing and heart warfare infused the logic of democracy and militarism in the post war period Compassion became a strategy to contain political dissension regulate citizenship and normalize the extensive militarization of Kargil s social and political order The book uses the power of ethnography to foreground people s complex subjectivities and the violence of compassion healing and sacrifice in India s disputed frontier state Based on extensive research in several sites across the region from border villages in Kargil to military bases and state offices in Ladakh and Kashmir this engaging book presents new material on military civil relations the securitization of democracy and development and the extensive militarization of everyday life and politics It is of interest to scholars working in diverse fields including political anthropology development and Asian Studies **Look East, Cross Black Waters** Jonah Blank,Jennifer D. P. Moroney,Angel Rabasa,Bonny Lin,2015-10-13 India s core goals for Southeast Asia largely match those of the United States but America should not expect India to join any coalition to balance against China Instead the United States should work on cultivating long term relations Drivers of Long-Term Insecurity and Instability in Pakistan Jonah Blank,Christopher Clary,Brian Nichiporuk,2014-10-30 Already one of the most urbanized nations in South Asia Pakistan is projected to have a majority of its population living in cities within three decades This demographic shift will alter Pakistan s politics and threaten its stability but the political and security implications of Pakistan s urbanization remain underanalyzed This report examines urbanization as a potential driver of long term insecurity and instability with particular attention to the cities of Karachi Lahore and Quetta Drawing on demographic trends election results and survey data the authors conclude that urbanization may fuel anti American sentiment and help recruitment by transnational Islamist groups but not necessarily Islamist political parties in the short term Urbanization is also likely to increase popular demand for political reform in

Pakistan In the near future a Pakistani government more directly accountable to its electorate might be less willing to cooperate with the United States in unpopular security policies In the long run however a Pakistani government more responsive to its citizens could be a better security partner for the United States By spurring Pakistani policymakers to focus on provision of good governance and public services rather than on scapegoating external actors political reform may eventually help reduce anti American attitudes

The Routledge Handbook of Asian Security Studies Sumit

Ganguly, Andrew Scobell, Joseph Chinyong Liow, 2009-12-04 The Handbook of Asian Security Studies provides a detailed exploration of security dynamics in the three distinct subregions that comprise Asia and also bridges the study of these regions by exploring the geopolitical links between each of them This Handbook is divided geographically into four main parts Part I Northeast Asia Part II South Asia Part III Southeast Asia Part IV Cross Regional Issues Despite the richness and complexity of security issues in Asia and the theoretical and conceptual debates these have spawned there is no single volume that scholars can turn to for succinct cogent and dispassionate analysis of these issues The Handbook of Asian Security Studies fills this important gap in the literature dealing with all major security issues in the area which range from unresolved territorial disputes maritime and inland irredentist claims and intra state conflicts to transnational terrorist movements and nuclear rivalries This volume contains essays by many leading scholars in the field and will be essential reading for all students of Asian security Asian politics and International Relations in general Sumit Ganguly is a professor of Political Science and holds the Rabindranath Tagore Chair in Indian Cultures and Civilizations at Indiana University Bloomington He is the author co author editor or co editor of some 15 books on South Asian politics He is also the founding editor of the only refereed social science journal devoted to the study of contemporary India The India Review and a founding editor of Asian Security Andrew Scobell is Associate Professor of International Affairs and Director of the China Certificate Program at the Bush School of Government and Public Affairs at Texas A M University located in College Station Texas He is co editor of the journal Asian Security and has edited or co edited 12 books on Asian security topics Joseph Chinyong Liow is Associate Professor and Head of Research at the Rajaratnam School of International Studies Nanyang Technical University Singapore He is co editor of Order and Security in Southeast Asia Routledge 2005 and author of The Politics of Indonesia Malaysia Relations One Kin Two Nations Routledge 2005

Explaining Pakistan's Foreign Policy Aparna Pande, 2011-03-16

Pakistan has over the decades become a hotbed for the terrorist ideology often referred to as Jihadism This book investigates the underlying principles of Pakistan's foreign policy from 1947 until the present day and explains the rise of Jihadism as an offshoot of Pakistan's security concerns The book goes on to discuss that from its inception as a separate state Pakistan's foreign policy focused on seeking parity with India and escaping from an Indian South Asian identity The desire to achieve parity with its much larger neighbour led Pakistan to seek the assistance and support of allies The author analyses the relationship Pakistan has with Afghanistan United States China and the Muslim world and looks at how these relationships

are based on the desire that military economic and diplomatic aid from these countries would bolster Pakistan's meagre resources in countering Indian economic and military strength. The book presents an interesting contribution to South Asian Studies as well as studies on International Relations and Foreign Policy. Nuclear Deterrence in Southern Asia Arpit Rajain, 2005-05. This important and topical book examines the triangular relationship of China, India and Pakistan through the prism of nuclear deterrence. The author highlights the interplay and role of strategic culture, nuclear weaponisation and deployment, command and control, arms control, non-state actors and foreign policy issues which affect relations between the three countries. With two main purposes, a conceptual investigation into the notion of deterrence and a study of the theory and practice of limited war, this book addresses the strategic, political and military dimensions of the role of nuclear weapons through examples of the only cases of nuclear weapon states having gone into armed conflict: the Cuban missile crisis, the Ussuri river clashes and the Kargil conflict. It discusses the various pressures exerted on decision makers in the context of the notions of deterrence, the rational deterrence model and a limited war under a nuclear umbrella. It evaluates all three countries with regard to their strategic culture, the role of nuclear weapons in their military strategy, the nature of public opinion and political rhetoric, responses to the various arms control treaties and foreign policy choices. Based on a variety of sources including interviews with key individuals in various sectors, this is the first book-length study of the triangular relationship between China, India and Pakistan.

South Asia in World Politics Devin T. Hagerty, 2005-03-11. South Asia in World Politics offers a comprehensive introduction to the politics and international relations of South Asia, a key area encompassing the states of Afghanistan, Bangladesh, Bhutan, India, the Maldives, Nepal, Pakistan and Sri Lanka. While U.S. interest has long been sporadic and reactive, 9/11 alerted Washington that paying only fitful attention to one of the world's most volatile and populous regions was a recipe for everyday instability, repeated international crises, major and minor wars and conditions so chronically unsettled that they continue to provide a fertile breeding ground for transnational Islamic terrorism. Exploring the many facets of this dynamic region, the book also assesses U.S. policy toward Afghanistan and explains the importance of Bangladesh and Pakistan, two of only a handful of Islamic states with significant track records as democracies.

Unveiling the Magic of Words: A Overview of "**The Kashmir Question Retrospect And Prospect**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring. Enter the realm of "**The Kashmir Question Retrospect And Prospect**," a mesmerizing literary masterpiece penned by way of a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve to the book is central themes, examine its distinctive writing style, and assess its profound effect on the souls of its readers.
