Sino American Relations 1941 71:

The American Military Mission to China, 1941-1942 William G. Grieve, 2014-01-17 This is an overview of America's first effort in military aid to a foreign sovereign nation at a time when Europe was engaged in open warfare Asia was facing a series of military confrontations and most of the world thought global conflagration was inevitable The work offers insight into the impact of war in Burma a backwater of World War II and examines events that result when great powers go to great lengths to further their own goals The work also examines disagreements among China the United Kingdom the United States and Japan and shows the evolution of aid provision to another country and changing expectations as new information arises

The Sino-American Alliance John W. Garver, 2015-06-03 This study provides an analysis of the role the United States alliance with Nationalist China played in US strategy to contain first the Sino Soviet alliance and then China during the 1950s and 1960s

China's Role in World Affairs Michael B. Yahuda, 2025-03-03 First published in 1978 China's Role in World Affairs analyses China's foreign policy within a framework suggested by the conceptualisation of the outside world and China's place within it as articulated and acted upon by China's leaders Divided into two parts the book discusses China's role as an ally of the Soviet Union and as an independent socialist system following the Sino Soviet rupture The main operational concepts and themes of China's foreign policy are also traced Of particular interest is the conflict between those leaders in the early 1960s who still believed that China should be linked with the Soviet Union and those who like Mao thought of China's role as an independent socialist country leading an internationalist united front against the superpowers Examination is made of the origin and place of the Third World states in China's global perspectives This is the first book to trace the development of the Chinese theory of the three worlds and to show its importance for the Chinese conception of a new world order

Sino-American Relations, 2004

At the President's Pleasure Sally K. Burt, 2015-05-26 At the President's Pleasure offers a new perspective on the way the United States and China interacted during World War II Sally K. Burt examines President Franklin Roosevelt's methods of conducting diplomacy particularly his tendency to centralise foreign policy making into his own hands as it applied to wartime Sino US relations By critiquing the president's foreign policy leadership with China Burt provides a new perspective on US diplomacy and opens the door for further exploration of contemporary methods of conducting relations between the US and China This book then will interest scholars historians international relations specialists and practitioners and those interested in global politics both historical and in the present day

Emperor Hirohito and Showa Japan Stephen Large, 2013-01-11 Emperor Hirohito reigned for more than sixty years yet we know little about him or the part he really played in the turbulent history of Showa Japan Stephen Large draws on a wide range of Japanese and Western sources in his study of Emperor Hirohito's political role in Showa Japan 1926-89 This analysis focuses on key events in his career such as the extent to which he bore responsibility for Japanese aggression in the Pacific in 1941 and explains why Hirohito remains such a contested symbol in Japanese post war politics

The

Nationalist Era in China, 1927-1949 Lloyd E. Eastman, 1991-08-30 In recent years historians of China have focused increased attention on the critical decades of National rule on the mainland This recent scholarship has substantially modified our understanding of the political events of this momentous period shedding light on the character of Nationalist rule and on the sources of the Communist victory in 1949 Yet no existing textbook on modern China presents the events of the period according to these new findings The five essays in this volume were written by leading authorities on the period and they synthesize the new research Drawn from Volume 13 of *The Cambridge History of China* they represent the most complete and stimulating political history of the period available in the literature The essays selected deal with Nationalist rule during the Nanking decade the Communist movement from 1927 to 1937 Nationalist rule during the Sino Japanese War the Communist movement during the Sino Japanese war and the Kuomintang Communist struggle from 1945 to 1949

Re-examining the Cold War: U.S.-China Diplomacy, 1954-1973 Robert S. Ross, Changbin Jiang, 2020-03-23 The twelve essays in this volume underscore the similarities between Chinese and American approaches to bilateral diplomacy and between their perceptions of each other's policy making motivations Much of the literature on U S China relations posits that each side was motivated either by ideologically informed interests or by ideological assumptions about its counterpart But as these contributors emphasize newly accessible archives suggest rather that both Beijing and Washington developed a responsive and tactically adaptable foreign policy Each then adjusted this policy in response to changing international circumstances and changing assessments of its counterpart's policies Motivated less by ideology than by pragmatic national security concerns each assumed that the other faced similar considerations *The United States and China* Dong Wang, 2021-07-28 Now fully revised and updated *The United States and China* offers a comprehensive synthesis of US Chinese relations from initial contact to the present Balancing the modern 1784 1949 and contemporary 1949 present periods Dong Wang retraces centuries of interaction between two of the world's great powers from the perspective of both sides She examines state to state diplomacy as well as economic social military religious and cultural interplay within varying national and international contexts As China itself continues to grow in global importance so too does the US Chinese relationship and this book provides an essential grounding for understanding its past present and possible futures

Terasaki Hidenari, Pearl Harbor, and Occupied Japan Roger B. Jeans, 2009-01-01 This book sheds light on Japanese intelligence and propaganda activities in the United States prior to Pearl Harbor Japanese attempts to use American isolationists and pacifists in 1941 and Japanese and American efforts to save Emperor Hirohito from being tried as a war criminal during the U S occupation of Japan It utilizes the American cracking of the Japanese diplomatic code FBI surveillance and wiretapping records and the personal papers of Americans with whom Terasaki Hidenari had contact to conclude that he wanted peace between the United States and Japan in 1941 and worked to preserve the imperial institution following the war An American Missionary in China Yu-ming Shaw, 2020-03-23 This work traced the career of a seminal

figure in twentieth century Chinese American relations John Leighton Stuart began his work in China as a missionary in 1904 He moved on to head Yenching University the leading Christian institution of higher learning in China During the Pacific War Stuart was imprisoned by the Japanese When General George C Marshall was sent to China by President Truman in 1945 to mediate peace between the Chinese Nationalists and the Chinese Communists Marshall chose Stuart as Ambassador to help with that mediation and to look after American interests in China Stuart was the last to hold that post before the Chiang Kai shek government's move to Taiwan Shaw's research among materials in English Chinese and Japanese has produced a richly detailed examination of each phase of Stuart's life Shaw presents Stuart as a Wilsonian idealist whose combination of liberal situational values and nationalistic vision put him square in the middle unable fully to support a Nationalist led China and positing instead a Nationalist Communist coalition that would favor the Nationalists and open the door to American influence

Picturing China in the American Press David D. Perlmutter, 2007-03-29 *Picturing China in the American Press* juxtaposes what the ordinary American news reader was shown visually in *Time Magazine* between 1949 and 1973 with contemporary perspectives on the behind the scenes history of the period *Time Magazine* is an especially fruitful source for such a visual historical contrast and comparison because it was China centric founded and run by Henry Luce a man who loved China and was commensurably obsessed with winning China to democracy and Western influence *Picturing China* examines in detail major events the Korean War and Nixon's trip to China less considerable occurrences shellings of Straits islands and diplomatic flaps great personages Chairman Mao and Henry Kissinger and the common people and common life of China as seen through the lenses and described by the pens of American reporters artists photographers and editors *Picturing China in the American Press* is of great interest to both scholars of communications Chinese history China Studies and journalists

Schulze, 2024-09-03 Now in its fourth edition this highly successful global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors have produced an authoritative yet accessible and seamless account of the history of international relations in the last century covering events in Europe Asia the Middle East Africa and the Americas They focus on the history of relations between states and on the broad ideological economic and cultural forces that have influenced the evolution of international politics over the last 120 years The fourth edition is thoroughly updated to take account of the most recent research and global developments including new material on the impact of the Trump administration on international politics the rise of China under the leadership of Xi Jinping and the origins of the wars in Ukraine and Gaza The book is supported by a fully revised companion website including links to further resources and self testing material which can be found at www.routledgelearning.com/internationalhistory20c [The Jiangyin Mission Station](#) Lawrence D. Kessler, 2018-06-15 Lawrence Kessler uses the Jiangyin mission station in the Shanghai region of China to explore Chinese

American cultural interaction in the first half of the twentieth century He concludes that the Protestant missionary movement was welcomed by the Chinese not because of the religious message it spread but because of the secular benefits it provided Like other missions the Jiangyin Station which was sponsored by the First Presbyterian Church of Wilmington North Carolina combined evangelism with social welfare programs and enjoyed a respected position within the local community By 1930 the station supported a hospital and several schools and engaged in anti opium campaigns and local peacekeeping efforts In many ways however Christianity was a disruptive force in Chinese society and Kessler examines Chinese ambivalence toward the mission movement the relationship between missions and imperialism and Westerners response to Chinese nationalism He also addresses the Jiangyin Station s close ties to and impact upon its supporting church in Wilmington

Transcending the Cold War Kristina Spohr, David Reynolds, 2016-08-18 In 1989 and 1990 the map of Europe was redrawn without a war unlike other great ruptures of the international order such as 1815 1870 1918 and 1945 How did this happen This major multinational study based on archives from both sides of the Iron Curtain highlights the contribution of international statecraft to the peaceful dissolution of Europe s bipolar order by examining pivotal summit meetings from 1970 to 1990 These are organized into three periods Thawing Living with and Transcending the Cold War The volume offers fascinating insights into key statesmen such as Richard Nixon and Ronald Reagan Leonid Brezhnev and Mikhail Gorbachev Willy Brandt and Helmut Kohl Zhou Enlai and Deng Xiaoping It explores the central issues of the superpowers and arms control their triangular relationship with China and the seemingly intractable German question Particular attention is devoted to the cultural dimensions of summitry as performative acts for the media and as encounters with the Other across ideological divides All these threads are drawn together in a sweeping analytical conclusion Written in lively prose Transcending the Cold War is essential reading for anyone interested not just in modern history but also current international affairs

The Advancement of Liberty Matthew C. Price, 2007-12-30 This book is a counterpoint to the prevailing view that the United States is an imperialist nation that has violently pursued power in the world to advance its own narrow interests The basic theme is that at the dawn of the 20th century there were six democracies in the world but by century s end democracy was ascendant This epic historical transformation has been thanks in great measure to the vision and sacrifices made by Americans Matthew C Price examines the great conflicts of the 20th century showing how American democratic principles have utterly reshaped global values and politics The defeat of fascism and imperialism in World War II led to the Marshall Plan the single most influential rebuilding program in human history The fostering of democracy in Japan the establishment of the UN and the fall of the Soviet Union reshaped the world in unforeseen ways America has dedicated itself to democracy in the Middle East to democratization in China and to the larger quest for the spread of liberal democratic principles worldwide even when the struggle is difficult dangerous and ongoing Early in the century Woodrow Wilson said that America should make the world safe for democracy In taking up that challenge the United States changed human history

Charting a New Diplomatic Course Cecil V. Crabb, Jr., Leila S. Saredidine, Glenn J. Antizzo, 2001-08-01 America's victory in the Cold War is a milestone in the nation's diplomatic experience. The disintegration of the Soviet Union and the defeat of communism have made containment policy the foundation of U.S. foreign relations for almost a half century obsolete, and policymakers and political scientists alike struggle to decide what new strategy should guide the country's involvement on the international stage. In this pathbreaking work, Cecil V. Crabb Jr., Leila E. Saredidine, and Glenn J. Antizzo identify and analyze six distinct approaches to America's diplomatic course after the Cold War, addressing perhaps the most important question of our time: what should U.S. foreign policy be in the twenty-first century? First, the authors examine the familiar doctrine of American isolationism and consider an alternative approach: conservative neo-isolationism, which encourages policymakers to use careful discrimination but decisive action in assuming commitments abroad. Liberal neo-isolationism, a third possible course, resists active interventionist strategies because of the dangers they pose to congressional power and America's democratic system. At the opposite end of the spectrum are conservative interventionism (the belief that America must maintain a strong military arsenal and engage in preventative diplomacy), liberal interventionism (the conviction that America has a responsibility to actively promote the cause of democracy and defend human rights beyond its own borders), and pragmatic interventionism (an approach taken by the Clinton Administration that relies on a cost-benefit analysis of policy as problems arise). Elegantly written and authoritatively researched, *Charting a New Diplomatic Course* provides a much needed frame of reference for anyone interested in America's future in international affairs.

Anglo-American Strategic Relations and the Far East, 1933-1939 Greg Kennedy, 2013-01-11 This volume charts how the national strategic needs of the United States of America and Great Britain created a parallel but not joint relationship towards the Far East as the crisis in that region evolved from 1933-39. In short, it is a look at the relationship shared between the two nations with respect to accommodating one another on certain strategic and diplomatic issues so that they could become more confident of one another in any potential showdowns with Japan.
