Convention and the Individual in Medieval English Romance Lucy Brookes, 2025-04 Offers a nuanced reading of character and subjectivity in medieval romance via an exploration of its conventions Medieval romances can be characterised by their formulaic motifs predictable plots and stock figures and character types This book offers a fresh perspective on these conventions arguing that authors used them and the expectations they generate as a form of shorthand to interiority Understanding romance conventions in this way reveals that romance characters complex and often contradictory inner lives are made available precisely through the genre's narrative structures shapes and norms Drawing upon recent work in the History of Emotions and Affect Theory the author explores character and subjectivity in a variety of English romance texts from 1100 to 1500 such as Amis and Amiloun Le Bone Florence of Rome The Squire of Low Degree Sir Orfeo Sir Gawain and the Green Knight and Malory's Le Morte Darthur Through new readings of these texts the book demonstrates the contribution made by romance to the growing significance of the individual in fiction after the twelfth century by paying particular attention to the ways in which convention expectation and genre intersect with character formation and the representation of identity

between poetry and the healing arts Looking at how we can learn to diagnose a text as if we were diagnosing a body  
Salisbury provides new insights into how we can recuperate the voices of those afflicted by illness in medieval texts when we  
have no direct testimony She considers how we interpret stories told by patients in narratives mediated by others ways that  
women factor into the shaping of a medical canon how medical writing intersects with religious belief and memorial practices

granted they both have had their own history We can gain deep insights into the pre modern world by studying its health

care system its approaches to medicine and concept of hygiene Already the early Middle Ages witnessed great interest in bathing hot and cold swimming and good personal hygiene Medical activities grew over time but even early medieval monks were already great experts in treating the sick The contributions examine literary medical historical texts and images and probe the information we can glean from them The interdisciplinary approach of this volume makes it possible to view this large field in a complex and diversified manner taking into account both early medieval and early modern treatises on medicine water bathing and health Such a cultural historical perspective creates a most valuable bridge connecting literary and scientific documents under the umbrella of the history of mentality and history of everyday life The volume does not aim at idealizing the past but it definitely intends to deconstruct modern myths about the dirty and unhealthy Middle Ages and early modern age

civilization Recent research has begun to acknowledge the fundamental importance of these aspects in cultural religious philosophical and literary terms This volume expands on the traditional approach still very much focused on the materiality of game toys cards dice falcons dolls etc and acknowledges that game constituted also a form of coming to terms with human existence in an unstable and volatile world determined by universal randomness and fortune Whether considering blessings or horse fighting falconry or card games playing with dice or dolls we can gain a much deeper understanding of medieval and early modern society when we consider how people pursued pleasure and how they structured their leisure time The contributions examine a wide gamut of approaches to pleasure considering health issues eroticism tournaments playing music reading and listening drinking alcohol gambling and throwing dice This large issue was also relevant of course in non Christian societies and constitutes a critical concern both for the past and the present because we are all homines ludentes

**Arthurian Literature** Elizabeth Archibald, David F. Johnson, 2010. The influence and significance of the legend of Arthur are fully demonstrated by the subject matter and time span of articles here. Topics range from early Celtic sources and analogues of Arthurian plots to popular interest in King Arthur in 16th-century London from the 13th-century French prose *Mort Artu* to Tennyson's *Idylls of the King*. It includes discussion of shapeshifters and loathly ladies, attitudes to treason, royal deaths and funerals in the 15th century, and the 19th-century late medieval Scottish politics and early modern chivalry.

**Arthuriana**, 2001. **Warriors and Wilderness in Medieval Britain** Robin Melrose, 2017-02-07. Tracing the development of the King Arthur story in the late Middle Ages, this book explores Arthur's depiction as a wilderness figure, the descendant of the northern Romano-British hunter-warrior god. The earliest Arthur was a warrior, but in the 11th-century Welsh tale *Culhwch and Olwen* he is less a warrior and more a leader of a band of rogue heroes. The story of Arthur was popularized by Geoffrey of Monmouth in his Latin *History of the Kings of Britain* and was translated into Middle English in Layamon's *Brut* and the later alliterative *Morte Arthure*. Both owed much to the epic poem *Beowulf*, which draws on the Anglo-Saxon fascination with the wilderness. The most famous Arthurian tale is *Sir Gawain and the Green Knight*, in which the wilderness and themes from *Beowulf* play a leading role. Three Arthurian tales set in Inglewood Forest place Arthur and Gawain in a wilderness setting and link Arthur to medieval Robin Hood tales.

**Performance and the Middle English Romance** Linda Marie Zaerr, 2012. An examination of if and how medieval romance was performed, uniquely uniting the perspective of a scholar and practitioner. Although English medieval minstrels performed gestes, a genre closely related to romance, often playing the harp or the fiddle, the question of if and how Middle English romance was performed has been hotly debated. Here the performance tradition is explored by combining textual, historical, and musicological scholarship with practical experience from a noted musician. Using previously unrecognized evidence, the author reconstructs a realistic model of minstrel performance, showing how a simple melody can interact with the text and vice versa. She argues that elements in Middle English romance, which may seem simplistic or repetitive, may in fact be incomplete, as missing an integral musical dimension. Metrical irregularities, for example, may be relics of sophisticated rhythmic variation that make sense only with music. Overall, the study offers both a more accurate comprehension of minstrel performance and a deeper appreciation of the romances themselves. Linda Marie Zaerr is Professor of Medieval Studies at Boise State University.

**The Works of the Gawain Poet** Ad Putter, Myra Stokes, 2014-07-10. A new volume of the works of the Gawain poet, destined to become the definitive edition for students and scholars. This volume brings together four works of the unknown fourteenth-century poet.
