Literature XXXI Elizabeth Archibald, David F. Johnson, 2014-11-20 Arthurian Literature has established its position as the home for a great diversity of new research into Arthurian matters It delivers fascinating material across genres periods and theoretical issues TIMES LITERARY SUPPLEMENT **The Psychic's Handbook** Julie Soskin, 2012-01-01 Once the seer the priestess and the sage were revered by their community Their roles were considered sacred the practising of an art requiring training and experience like any other art All these individuals tuned into their psycho spiritual powers on our behalf But each of us has always had the ability to draw upon these powers directly inside ourselves This book shows us not only how to exploit our psycho spiritual potential it also shows us how to navigate the different realms of inner experience that are our birthright Psycho spiritual powers can take time and expertise to discern especially for the novice How do we know what we are dealing with Does the information made available to us derive from the subtle energies around the body or does it come from some discarnate being Or perhaps from an alter ego the personification of hopes and fears from aspects of our

projected selves This book is drawn from research and first hand experience from thousands of consultations and teaching sessions over many years In addition the author at the end of each chapter uses anecdotes to illustrate and enlighten the reader and these are sometimes humorous sometimes sad sometimes philosophical and always true Well implemented psychic and intuitive guidance can help to move the individual towards wholeness a new dawn based on working with the heart and the energy of unconditional love This in turn radiates out to affect the whole of our society Psycho spiritual powers enlarge our lives beyond measure Julie is preparing those who choose to raise their consciousness and see beyond the immediate The late Eileen Caddy author and co founder of the Findhorn Foundation *Encyclopedia of New Religious Movements* Peter Clarke,2004-03 An essential companion to both research and scholarship upon which undergraduates postgraduates lecturers and researchers can all be expected to draw *A Very British Family* Laura Trevelyan,2012-11-10 It is a rule that no Trevelyan ever sucks up either to the press or the chiefs or the right people The world has given us money enough to enable us to do what we think is right We thank it for that and ask no more of it but to be allowed to serve it G M Trevelyan The Trevelyans are unique in British social and political history a family which for several generations dedicated themselves to the service and chronicling of their country Often eccentric priggish high minded and utterly self regarding they have nonetheless left their mark on our past This engaging history dispassionately explores the lives and achievements of this unique family and the part they played in shaping the history of Great Britain From their inauspicious beginnings in a small dwelling in Cornwall to the present day some Trevelyans have been famous and distinguished others less so but for a hundred years from the mid nineteenth to the mid twentieth century family members from Lord Macaulay to G M Trevelyan contributed to both the writing and the making of history This book is primarily the tale of the five men who flourished during this period Charles Edward George Otto Charles Philips George Macaulay and Humphry Trevelyan and the clever and formidable women they married Including many vivid portraits of the most influential members of this remarkable family The Trevelyans casts light on the period of enormous social and cultural change in which they lived and examines why they chose not to simply exploit their position as landed gentry but instead to take their place at the centre of scholarship and politics

Eco-Alchemy Dan McKanan,2018 For nearly a century the worldwide anthroposophical movement has been a catalyst for environmental activism helping to bring to life many modern ecological practices such as organic farming community supported agriculture and green banking Yet the spiritual practice of anthroposophy remains unknown to most environmentalists A historical and ethnographic study of the environmental movement *Eco Alchemy* uncovers for the first time the profound influences of anthroposophy and its founder Rudolf Steiner whose holistic worldview rooted in esoteric spirituality inspired the movement Dan McKanan shows that environmentalism is itself a complex ecosystem and that it would not be as diverse or transformative without the contributions of anthroposophy *F.M.: The Life Of Frederick Matthias Alexander* Michael Bloch,2011-12-15 The Alexander Technique is a method of muscular re education which has

become standard training for actors dancers and singers and is practised for health reasons all over the world Its founder Frederick Matthias Alexander 1869 1955 was an Australian actor who stumbled upon it in the 1890s after studying himself in mirrors to discover why he had lost his voice He realised that most people suffered from the same postural defects he had noticed in himself and that this explained much of what went wrong with them F M as he was known came to London in 1904 and became enormously successful During the First World War he practised in America with equal success converting the American philosopher John Dewey to his cause He wrote four books all still in print and his supporters included Aldous Huxley George Bernard Shaw and Stafford Cripps He was however a difficult and argumentative man who made enemies Towards the end of his life he embarked on a libel action against the South African government which had accused him of charlatanism He won and went on practising and propagating his technique until his death aged 86 New Age Religion and Western Culture Wouter J. Hanegraaff, 2018-09-24 Recent years have seen a spectacular rise of the New Age movement and an ever increasing interest in its beliefs and manifestations This fascinating work presents the first ever comprehensive analysis of New Age Religion and its historical backgrounds thus providing the reader with a means of orientation in the bewildering variety of the movement Making extensive use of primary sources the author thematically analyses New Age beliefs from the perspective of the study of religions While looking at the historical backgrounds of the movement he convincingly argues that its foundations were laid by so called western esoteric traditions during the Renaissance Hanegraaff finally shows how the modern New Age movement emerged from the increasing secularization of those esoteric traditions during the 19th century This ground breaking publication is compulsive reading for all those involved or interested in the New Age movement London City of Revelation C.E. Street, 2010-05-24 Paperback re print of Earthstars The Visionary Landscape London s Sacred sites are not scattered about the capital at random Many form a recognisable pattern of sacred geometry a vast temple groundplan identical to the design used to lay out Stonehenge s megaliths over 3 500 years ago Astonishingly it also relates to the measures and proportions of the New Jerusalem The City of Revelation If the conclusions drawn by the author are correct this pattern is a circuit diagram of the forces of creation and a new evolutionary impulse is coming through our sacred sites a transformatory influence which will change the way we perceive the world
