Empire, Barbarism, and Civilisation Harriet Guest, 2007-12-20 The artist William Hodges accompanied Captain Cook on his second voyage to the South Pacific in 1772 5 His extraordinarily vivid images read against the fascinating journals of Cook and his companions reveal as much about European cultures and historiography as about the peoples they visited In this lively and original book Harriet Guest discusses Hodges s dramatic landscapes and portraits alongside written accounts of the voyages and in the context of the theories of civilisation which shaped European perceptions theories drawn from the works of philosophers of the Scottish enlightenment such as Adam Smith and John Millar She argues that the voyagers resorted to diverse or incompatible models of progress in successive encounters with different groups of islanders and shows how these models also structured metropolitan views of the voyagers and of Hodges s work This fully illustrated study offers a fresh perspective on eighteenth century representations of gender colonialism and exploration

Written on the Body Jane Caplan,2021-10-12 Despite the social sciences growing fascination with tattooing and the immense popularity of tattoos themselves the practice has not left much of a historical record And until very recently there was no good context for writing a serious history of tattooing in the West This collection exposes for the first time the richness of the tattoo s European and American history from antiquity to the present day In the process it rescues tattoos from their stereotypical and sensationalized association with criminality The tattoo has long hovered in a space between the cosmetic and the punitive Throughout its history the status of the tattoo has been complicated by its dual association with slavery and

penal practices on the one hand and exotic or forbidden sexuality on the other The tattoo appears often as an involuntary stigma sometimes as a self imposed marker of identity and occasionally as a beautiful corporal decoration This volume analyzes the tattoo s fluctuating often uncomfortable position from multiple angles Individual chapters explore fascinating segments of its history from the metaphorical meanings of tattooing in Celtic society to the class related commodification of the body in Victorian Britain from tattooed entertainers in Germany to tattooing and piercing as self expression in the contemporary United States But they also accumulate to form an expansive textured view of permanent bodily modification in the West By combining empirical history powerful cultural analysis and a highly readable style this volume both draws on and propels the ongoing effort to write a meaningful cultural history of the body The contributors representing several disciplines have all conducted extensive original research into the Western tattoo Together they have produced an unrivalled account of its history They are in addition to the editor Clare Anderson Susan Benson James Bradley Ian Duffield Juliet Fleming Alan Govenar Harriet Guest Mark Gustafson C P Jones Charles MacQuarrie Hamish Maxwell Stewart Stephan Oettermann Jennipher A Rosecrans and Abby Schrader
