First multi year cumulation covers six years 1965-70 **Perspectives in Paediatric Oncology Nursing** Faith Gibson, Louise Soanes, Beth Sepion, 2006-06-14. Originally emanating from presentations at an international conference, this text brings together research and practice development from three perspectives: practice, management, and education. Within these three sections, the book presents a series of chapters written mainly by practitioners but some in collaboration with academics. At the end of each section, there is a commentary by a practitioner, manager, or researcher which aims to offer a helpful critique on the papers in their section, guiding the reader to consider other areas of research and practice development. At a time when practitioners are being called to produce and use evidence in their practice, this book should offer a valuable contribution to that evidence base. *The Sunday Magazine*, 1880 *Advanced Nursing Practice* Thomas David Barton, Douglas Allan, 2015-10-26. Advanced Nursing Practice is a topical and emergent area of developing health practice but as an area that is still developing, it can also be seen as one of uncertainty. This authoritative text provides help to understand ANP by offering a comprehensive overview of its evolution, including practice theory and core concepts, and a wide review of the current clinical, strategic, educational, and research developments in advanced practice. This is an essential resource for Advanced Nurse Practitioners, their educators and mentors, and is a valuable resource for undergraduate student nurses, registered nurses, and service managers. *Catalogue of the San Francisco Free Public Library*, Short Titles: June
