Between the Wind and the Water Caroline Wickham-Jones,2014-04-30 The archaeological sites of Orkney give us an unparalleled glimpse into prehistory Inscribed as the Heart of Neolithic Orkney World Heritage Site in 1999 four great monuments the village of Skara Brae the Ring of Brodgar the Stones of Stenness and the burial mound of Maeshowe are also at the center of the archipelago s story This book looks at what makes these monuments so special Caroline Wickham Jones explores the Neolithic world in which they were built how they came to be a focus through the ages and what they mean today Picts saints Vikings antiquarians and tourists populate Orkney s past a history which is channeled through these dances of stones This new second edition replaces the highly successful and widely used first edition which sold over 1 000 copies The text has been fully updated to take account of recent discoveries and research including the now world famous site Ness of Brodgar In addition there are over thirty new images including stunning photographs of Orkney s archaeology and landscape **The Gods' Machines** Wun Chok Bong,2008-05-27 Based on the author s decipherment of prehistoric carvings and the application of mathematical measurements The Gods Machines shows how unknown phenomena from Angkor Wat to Stonehenge to crop circles are actually powerhouses built by an advanced extraterrestrial civilization for

tapping electromagnetic energy The book traces the development of that civilization on Earth over 5 000 years revealing how all these structures are aligned according to a universal formula an angle of 135 degrees at which Earth s energy has been tapped by the alien creators of these monuments These fascinating theories not only explain our distant past but also open the door to a future of power technology and space travel Megalithic sites such as Newgrange and Stonehenge are constructed with quartz and iron rich stones with electrical conduction properties minerals also found atop Aztec temple and inside crop circles These stones according to the author served as dry cell batteries when heated and stressed and supplied energy to the builders traveling vehicles Most interestingly the author has tested his theory on today s crop circles The Gods Machines is certain to stimulate debate among readers interested in alternative history ancient civilization and extraterrestrial intelligence
