Weapons in Space Aaron Bateman,2024-05-07 A new and provocative take on the formerly classified history of accelerating superpower military competition in space in the late Cold War and beyond In March 1983 President Ronald Reagan shocked the world when he established the Strategic Defense Initiative SDI derisively known as Star Wars a space based missile defense program that aimed to protect the US from nuclear attack In Weapons in Space Aaron Bateman draws from recently declassified American European and Soviet documents to give an insightful account of SDI situating it within a new phase in the militarization of space after the superpower duet fell apart in the 1970s In doing so Bateman reveals the largely secret role of military space technologies in late Cold War US defense strategy and foreign relations In contrast to existing narratives Weapons in Space shows how tension over the role of military space technologies in American statecraft was a central source of SDI's controversy even more so than questions of technical feasibility By detailing the

participation of Western European countries in SDI research and development Bateman reframes space militarization in the 1970s and 1980s as an international phenomenon He further reveals that even though SDI did not come to fruition it obstructed diplomatic efforts to create new arms control limits in space Consequently Weapons in Space carries the legacy of SDI into the post Cold War era and shows how this controversial program continues to shape the global discourse about instability in space and the growing anxieties about a twenty first century space arms race *The End of the Day* Claire North,2024-09-24 A novel about life and death and a quest for moral purpose by the acclaimed author of word of mouth bestseller The First Fifteen Lives of Harry August Sooner or later Death visits everyone Before that they meet Charlie the Harbinger Sometimes he comes as a courtesy sometimes as a warning Either way this will be the most important meeting of your life But who will come for Charlie Wholly original and hauntingly beautiful Kirkus Reviews Funny ambitious immensely humane and full of philosophical panache Sunday Times A fascinating exploration of what makes us human and a riveting journey through life and death The Bookbag Reaffirms the passion and ambition that have made North such a consistently intriguing writer Locus **Adventures of Blackshirt** Bruce Graeme,1929 ...
