Christians in Caesar's Household Michael Flexsenhar III, 2020-02-28 In this volume Michael Flexsenhar III advances the argument that imperial slaves and freedpersons in the Roman Empire were essential to early Christians' self-conception as a distinct people in the Mediterranean and played a multifaceted role in the making of early Christianity Scholarship in early Christianity has for centuries viewed Roman emperors' slaves and freedmen as responsible for ushering Christianity onto the world stage traditionally using Paul's allusion to the saints from Caesar's household in Philippians 4:22 as a core literary lens Merging textual and material evidence with

diaspora and memory studies Flexsenhar expands on this narrative to explore new and more nuanced representations of this group showing how the long accepted stories of Christian slaves and freepersons in Caesar s household should not be taken at face value but should instead be understood within the context of Christian myth and meaning making Flexsenhar analyzes textual and material evidence from the first to the sixth century spanning Roman Asia the Aegean rim Gaul and the coast of North Africa as well as the imperial capital itself As a result this book shows how stories of the emperor s slaves were integral to key developments in the spread of Christianity generating origin myths in Rome and establishing a shared history and geography there differentiating and negotiating assimilation with other groups and expressing commemorative language ritual acts and a material culture With its thoughtful critical readings of literary and material sources and its fresh analysis of the lived experiences of imperial slaves and freedpersons Christians in Caesar s Household is indispensable reading for scholars of early Christianity the origins of religion and the Roman Empire Race and Reunion David W.

for environmental justice In doing so they draw on the rich cultural heritage of the Asia Pacific in conversation with international discourse to demonstrate transdisciplinary solution seeking Experimental in form as well as in method *Climates Habitats Environments* features an inventive book design by mono studio that puts word and image on equal footing offering a multiplicity of media interpretations and manifestations of interdisciplinary research For example botanist Matthew Hall draws on Ovid's *Metamorphoses* to discuss human plant interpenetration curator and writer Venus Lau considers how spectrality consumes and is consumed in animation and film literature music and cuisine and critical theorist and filmmaker Elizabeth Povinelli proposes *Water Sense* as a geontological approach to the question of our connected and differentiated existence informed by the ancestral catastrophe of colonialism Artists excavate the natural and cultural DNA of indigo lacquer rattan and mulberry works at the intersection of art design and architecture explore *The Posthuman City* an ongoing research project investigates the ecological urgencies of Pacific archipelagos The works of art the projects and the majority of the texts featured in the book were commissioned by NTU Centre for Contemporary Art Singapore Copublished with NTU Centre for Contemporary Art Singapore *Catalogue of Plays, 1916* Sanger & Jordon, 1916 *Landscapes and Landforms of the Lesser Antilles* Casey D. righteous Otherwise YHWH would degenerate into an arbitrary tyrant The demand for justice binds the divine sovereign If one examines the discourses of justice in the Hebrew Bible about the position of slaves their deficits become particularly visible This should urge caution in declaring the biblical writings to be the forerunners of human rights **Travels in Various Countries of Europe, Asia and Africa. 3. Ed** Edward-Daniel Clarke,1813 The Political Theory of a Compound Republic Vincent Ostrom,2008-01-01 The Political Theory of a Compound Republic examines the foundation of American constitutional design expressed in theFederalist Through meticulous textual analysis the logical principles of federalism_the extended and compound republic envisioned by James Madison and Alexander Hamilton_are revealed as thirteen propositions broadly applicable to any effort to design the institutions of a self governing polity The final chapters expanded and revised by Vincent Ostrom and Barbara Allen turn to the American experiment in constitutional choice at the threshold of the twenty first century In this revised edition Ostrom and Allen consider the continuing story of federal institutional development by focusing on two current concerns the imperial presidency and the ideal of universal human rights This third revised and expanded edition of The Political Theory of a Compound Republic continues to be of interest to scholars of federalism institutional analysis and development political economy and public choice and students of the American founding It is also useful in undergraduate and graduate courses on American government and political thought *The Boy's Own Annual* ,1895 Colossae in Space and Time Alan H. Cadwallader,Michael Trainor,2011-12-07 The ancient site of Colossae in south west Turkey has been sorely neglected by archaeologists and biblical commentators It has never been excavated Modern scholarship in general has been content to repeat nineteenth century assessments especially those of J B Lightfoot and W M Ramsay This is the first modern contribution to gather the archaeological historical classical and biblical materials related to the site and its region some of which is published in English for the first time It marks a major step forward in scholarship on Colossae and is designed to restore Colossae to time and space to its material and comparative significance Colossae emerges as a site of uninterrupted human activity in dynamic interaction with its neighbours from before the Achaemenid period to beyond the end of Byzantine control Evidence of a chalcolithic origin of Colossae is presented along with an assessment of the relationship of the site to the modern city of Honaz An array of international scholars have brought their specialisations in various periods and disciplines to yield a radically new assessment of the history and importance of the site All future scholarship will be able to use this volume as the necessary foundation for research The volume includes the first chronology of the ancient site and the first English translation of the key Byzantine text centred on the ancient city as well as major new insights into the text of the Epistle to the Colossians **The Bulletin** ,1920
