Britain and the French Revolution, 1789-1815 H. T. Dickinson, 1989 *Britain Since 1945* Terence Richard Gourvish, Alan O'Day, 1991 This volume gathers together contributions from a number of recognised experts and provides fresh insights into the connection between economic performance and socio political change since the Second World War It gives political evaluations of the Conservative and Labour parties and analyses the changing attitudes to their responsibilities the welfare state trade unions housing defence education and nationalised industries for example Concluding with an assessment of pop music and youth culture the book spans the political social and economic changes which have defined Britain since 1945 *The ^AMighty Experiment* Seymour Drescher, 2004-10-14 By the mid eighteenth century the transatlantic slave trade was considered to be a necessary and stabilizing factor in the capitalist economies of Europe and the expanding Americas Britain was the most influential power in this system which seemed to have the potential for unbounded growth In 1833 the British empire became the first to liberate its slaves and then to become a driving force toward global emancipation There has been endless debate over the reasons behind this decision This has been portrayed on the one hand as a rational disinvestment in a foundering overseas system and on the other as the most expensive per capita expenditure for colonial reform in modern history In this work Seymour Drescher argues that the plan to end British slavery rather than being a timely escape from a failing system was on the contrary the crucial element in the greatest humanitarian

achievement of all time The Mighty Experiment explores how politicians colonial bureaucrats pamphleteers and scholars taking anti slavery positions validated their claims through rational scientific arguments going beyond moral and polemical rhetoric and how the infiltration of the social sciences into this political debate was designed to minimize agitation on both sides and provide common ground Those at the inception of the social sciences such as Adam Smith and Thomas Malthus helped to develop these tools to create an argument that touched on issues of demography racism and political economy By the time British emancipation became legislation it was being treated as a massive social experiment whose designs many thought had the potential to change the world This study outlines the relationship of economic growth to moral issues in regard to slavery and will appeal to scholars of British history nineteenth century imperial history the history of slavery and those interested in the history of human rights The Mighty Experiment was the winner of First Prize Frederick Douglass Book Prize Gilder Lehrman Center for the Study of Slavery Resistance and Abolition Absolutism in Seventeenth-century Europe John Miller,1990 Annotation Most Seventeenth Century European Monarchs ruled territories which were culturally and institutionally diverse Forced by the escalating scale of war to mobilise evermore men and money they tried to bring these territories under closer control overriding regional and sectional liberties This was justified by a theory stressing the monarchs absolute power and his duty to place the good of his state before particular interests The essays of this volume analyse this process in states at very different stages of economic and political development and assess the great gulf that often existed between the monarchs power in theory and in practice **Freedom to be** National Library of Jamaica,1984

Bibliographic Guide to Black Studies Schomburg Center for Research in Black Culture,1984 *British Book News* British Council,1982 Includes no 53a British wartime books for young people **Humanitarian Imperialism** Amalia Ribi Forclaz,2015 Humanitarian Imperialism follows the trajectories of late nineteenth century philanthropic organizations in Britain Italy France and Switzerland that targeted the widespread existence of slavery in Africa The history of these organisations which can be viewed as predecessors of today s NGOs illuminates the imperial roots of humanitarian aid in Africa It shows how private actors contributed to the formulation of humanitarian conventions that are still in use today It also reveals the close connections that existed between humanitarian efforts and both liberal and Fascist imperial politics in this period By combining historical records from various countries Humanitarian Imperialism illustrates the shifts and continuities in the long history of slavery and abolition the international history of humanitarian institutions as well as the history of European imperialism in Africa *White Creole Culture, Politics and Identity During the Age of Abolition* David Lambert,2005-07-21 This book explores the articulation of white creole identity in Barbados during the age of abolitionism
