Slum Upgrading And Participation Lessons From Latin America:

Slum Upgrading and Participation Ivo Imparato, Jeff Ruster, 2003-01-01 The UN currently estimates that there are about 837 million urban slum dwellers worldwide and this figure is likely to rise to 1.5 billion by 2020 if current trends are not reversed This book offers five geographically and institutionally diverse case studies from Latin America where some of the longest running and most successful programmes in this field have been conducted These programmes involving a wide variety of funding arrangements and agencies demonstrate the positive impact that community participation and people oriented service solutions can have on slum upgrading efforts in low income urban areas Learning from the Slums for the Development of Emerging Cities Jean-Claude Bolay, Jérôme Chenal, Yves Pedrazzini, 2016-07-29 This book deals with slums as a specific question and a central focus in urban planning It radically reverses the official version of the history of world cities as narrated during decades slums are not at the margin of the contemporary process of urbanization they are an integral part of it Taking slums as its central focus and regarding them as symptomatic of the ongoing transformations of the city the book moves to the very heart of the problem in urban planning The book presents 16 case studies that form the basis for a theory of the slum and a concrete development manual for the slum The interdisciplinary approach to analysing slums presented in this volume enables researchers to look at social and economic dimensions as well as at the constructive and spatial aspects of slums Both at the scientific and the pedagogical level it allows one to recognize the efforts of the slum's residents key players in the past and present development of their neighborhoods and to challenge public and private stakeholders on priorities decided in urban planning and their mismatches when compared to the findings of experts and the demands of users Whether one is a planner an architect a developer or simply an inhabitant of an emerging city the presence of slums in one's environment at the same time central and nonetheless incongruous makes a person ask questions Today it is out of the question to be satisfied with the assumption of the marginality of slums or of the incongruous nature of their existence Slums are now fully part of the urban landscape contributing to the identity and the urbanism of cities and their stakeholders

The Urban Poor in Latin America Marianne Fay, 2005 About half of the region's poor live in cities and policy makers across Latin America are increasingly interested in policy advice on how to design programmes and policies to tackle poverty This publication argues that the causes of poverty the nature of deprivation and the policy levers to fight poverty are to a large extent site specific It therefore focuses on strategies to assist the urban poor in making the most of the opportunities offered by cities such as larger labour markets and better services while helping them cope with the negative aspects such as higher housing costs pollution risk of crime and less social capital **Upgrading Informal Settlements in South Africa** Liza Rose Cirolia, Tristan Görgens, Mirjan van Donk, Warren Smit, Scott Drimie, 2017-11-10 More than 1.2 million households in South Africa live in informal settlements without access to adequate shelter services or secure tenure There has been a gradual shift to upgrading these informal settlements in recent years and there have been some innovative experiments

Upgrading Informal Settlements in South Africa a partnership based approach examines the successes and challenges of informal settlement upgrading initiatives in South Africa and contextualises these experiences within global debates about informal settlement upgrading and urban transformation The book discusses The South African informal settlement upgrading agenda from local national and international perspectives South African city experiences with informal housing and upgrading The role of partnerships actors and capabilities in pursuing an incremental upgrading agenda Tools instruments and methodologies for incremental upgrading Implications of the upgrading agenda for the transformation of cities The book has been written and edited by a wide range of practitioners and researchers from government NGOs the private sector and academia It covers theory and practice and represents a vast accumulated body of housing experience in South Africa

Urban Violence and Insecurity Caroline O N Moser,2004 State of the World 2007 Worldwatch Institute,2013-07-04 The environmentalist s bible Times Higher Education Supplement Essential reading The Good Book Guide In this 24th edition of State of the World long established as the most authoritative and accessible annual guide to our progress towards a sustainable future continues to provide the studies that pay particular attention to cities In 2007 world population will tip from mostly rural to mostly urban Already some 1 billion individuals one in every three urbanites live in slums some 90% of which are found in Africa Asia and Latin America Published annually in 28 languages State of the World is relied upon by national governments UN agencies development workers and law makers for its authoritative and up to the minute analysis and information It is essential for anyone concerned with building a positive global future Featuring case studies of cities from Melbourne to Malm to Timbuktu This year s edition covers an urbanizing world providing clean water and sanitation farming the cities greening urban transportation energizing cities natural disaster risk in cities charting a new course for urban public health strengthening local economies and fighting poverty and environmental injustice in cities

Guidance Note Asian Development Bank,2014-10-01 Urbanization will become one of the defining trends of Asia s transformation in the coming decades Investments in urban areas have a strong potential to contribute to inclusive growth reduce urban poverty and strengthen social resilience The Guidance Note on Poverty and Social Dimensions in Urban Projects aims to assist Asian Development Bank ADB staff including practitioners and specialists working on their behalf to effectively address the poverty and social dimensions of ADB s urban operations It provides practical guidance in strengthening the link between urban investments and poverty reduction by making better use of poverty and social analysis as a resource for successful projects The guide complements the Handbook on Poverty and Social Analysis 2012 which provides general guidance on incorporating poverty and social dimensions in ADB operations Development Poverty and Politics Richard Martin,Ashna Mathema,2009-12-04 Top down bottom up what works This book explores development from the perspective of the poor Who are they What lives do they live What matters to them And most importantly what can they do about it Martin and Mathema debate how people can be given legitimate control of their own environment and how

governments can work with them How do communities and conditions drive behavior What interventions are appropriate and how can we approach development imaginatively This is not about usurping governance but revisiting structures that the developed world has come to accept and placing the power of decision in the hands of the people it affects Nor it is about money it s about people and about how we can make our world work for everyone *Contributions from the 2nd Annual International Forum 2008* Marc Coester,Dirk Baier,2009 The German Congress on Crime Prevention GCOCP is an annual event that has taken place since 1995 in different German cities and targets all areas of crime prevention Since its foundation the GCOCP has been opened to an international audience with a growing number of non German speaking participants joining To give the international guests their own discussion forum the Annual International Forum AIF within the GCOCP was established in 2007 For non German guests this event offers lectures in English language as well as other activities within the GCOCP that are translated simultaneously This book reflects the input and output of the 2nd Annual International Forum 2008 which took place 2nd and 3rd of June 2008 in Leipzig state of Saxony Firstly lectures of the AIF are printed followed by contributions from participants of the congress The articles reflect worldwide views on crime prevention as well as the current status discussion research and projects in crime prevention from different countries The topics range from prevention of juvenile violence international examples and developments in crime prevention prevention of school shootings social capital and community participation to the results from a workshop within the congress Probation meets Prevention

Archaeological Heritage in a Modern Urban Landscape Jorge Gamboa,2015-03-06 Archaeological Heritage in a Modern Urban Landscape evaluates issues about the preservation social role and management of archaeological sites in the Trujillo area north coast of Peru specifically those of the Moche culture 100 800 AD Moche was one of the great civilizations of ancient Peru with spectacular ceremonial adobe architecture and settlements distributed across a landscape formed by coastal valleys and one of the largest deserts of South America In the last decades political and economic changes have brought rural migrations to the city of Trujillo and nearby zones causing the emergence of extensive new communities in the margins of the metropolis And although Trujillo s Moche heritage has become a symbol of regional identity most local Moche sites are under siege because of urban development This book offers a new perspective on the development of modern communities settled beside archaeological sites and contributes to improving best practices in the management of archaeological sites and preservation in an urban setting
