Service Industries and Asia Pacific Cities Peter W. Daniels, Kong Chong Ho, Tom Hutton, 2005-04-01 During the second half of the twentieth century development in the Asia Pacific region has been dominated by industrialization However at the beginning of the twenty first century services in particular finance information and creative services have become deeply embedded in the processes of urban growth In Asia Pacific the rise of service industries has lead to national modernization programmes and globalization strategies Services are also driving change in the internal form of city regions and are being actively deployed as instruments of metropolitan reconfiguration and land use changes These changes have created problems such as social polarization and the displacement of traditional industries and residential districts Also there are tensions between local and global processes in the development of service industries and between the imperatives of competitive advantage and sustainable development Service Industries and Asia Pacific Cities brings together a multi disciplinary team of experts to explore and illustrate the theoretical conceptual and practical issues arising from the transformation of Asia Pacific cities by service industries

Pathways Out of Poverty Gary S. Fields, 2013-12-01 Until recently development economists tended to assume a role for private enterprises in reducing poverty without articulating it explicitly How private firms contribute to economic mobility and poverty reduction and what governments can do to enhance their contribution is the theme of this book In developing countries private enterprise is far and away the largest source of employment and investment and a significant source of government revenue In addition to these tangible contributions private enterprise is an important source of less tangible but critically important factors such as openness to ideas innovation and opportunity The book presents new evidence which demonstrates the essential role which private firms are playing in the course of economic

development Throughout the focus is on economic mobility Regional case studies ranging from the Far East to Sub Saharan Africa hone in on the role of entrepreneurship in development Drawing on the rich materials of the World Bank s Worldwide Business Environment Survey key policy factors are identified Special attention is paid to obstacles facing small and medium sized enterprises The concluding chapters focus on practical ways in which governments of developing and transition countries can encourage the capacity of poor people to move up the economic ladder Pathways Out of Poverty Gary S. Fields, Guy Pierre Pfeffermann, 2003-10-30 How private firms contribute to economic mobility and poverty reduction and what governments can do to enhance their contributions is the theme of this book The positive role often underemphasized the private sector plays in economic development is looked at Also the labour market and how various mechanisms in the economy interact to affect conditions for people as workers and as consumers The links among the business environment private sector development economic growth poverty reduction and economic mobility are also examined Business America , 1994
