Ain't Nobody Be Learnin' Nothin' Caleb Rossiter,2015-04-01 America s most challenged families are segregated into high poverty schools Despite a 20 year experiment in nationwide school reform few students make it over the slippery bridge to the middle class In this book you will meet the students families teachers and administrators who struggle inside this failed system and consider proposals to give them a fighting chance Caleb Rossiter recounts his experiences as a math teacher of African American 9th and 10th graders in the poorest wards of the nation s capital He describes the obstacles facing teachers who are held accountable for the performance of students whose average skills are years below grade level Rossiter also a professor of statistics at American University explains how the No Child Left Behind law allows school districts to use so called data driven measures of teacher and even school effectiveness that ignore learning deficiencies and behavior patterns that began before a child s first day in school These measures violate basic norms of statistical analysis yet are used to make comparisons and draw policy level conclusions He exposes the pretense of success claimed by school reformers who pressure teachers to award unearned grades and if they won t paper over failure with imitation classes euphemistically termed credit recovery He then offers reasonable solutions that would enable children who attend school ready to learn to be freed from the disruption of poorly socialized peers who can be better served in alternative settings

The Thirteen American

Arguments Howard Fineman, 2009-03-10 Howard Fineman one of our most trusted political journalists shows that every debate from our nation s founding to the present day is rooted in one of thirteen arguments that thankfully defy resolution It is the very process of never ending argument Fineman explains that defines us inspires us and keeps us free At a time when most public disagreement seems shrill and meaningless Fineman makes a cogent case for nurturing the real American dialogue The Thirteen American Arguments runs the gamut including Who Is a Person The Declaration of Independence says everyone but it took a Civil War the Civil Rights Act and other movements to make that a reality Now what about human embryos and prisoners in Guantanamo The Role of Faith No country is more legally secular yet more avowedly prayerful From Thomas Jefferson to James Dobson the issue persists Where does God fit in government America in the World In Iraq and everywhere else we ask ourselves whether we must change the world in order to survive and honor our values or whether the best way to do both is to deal with the world as it is Whether it s the nomination of judges or the limits of free speech presidential power or public debt the issues that galvanized the Founding Fathers should still inspire our leaders thinkers and fellow citizens If we cease to argue about these things we cease to be Argument is strength not weakness says Fineman As long as we argue there is hope and as long as there is hope we will argue
