Making of a Dialogical Theory Ivana Marková, 2023-07-06 Creating a stimulating social theory with long lasting influence
for generations of scholars is driven by multiple interacting factors The fortune of a theory is determined not only by the
author s creative mind but also by the ways in which principal concepts are understood and interpreted The proper
understanding of a social theory requires a good grasp of major historical political and cultural challenges that contribute to
its making Considering these issues Markov explores Serge Moscovici s theory of social representations and communication
as a case study in the making of a dialogical social theory She analyses both the undeveloped features and the forward
moving inspirational highlights of the theory and presents them as a resource for linking issues and problems from diverse
domains and disciplines This dialogical approach has the potential to advance the dyad Self Other as an irreducible
intellectual ethical and aesthetic unit in epistemologies of the human and social sciences
