The Internet has opened up many freelance opportunities, expanded available markets, and has contributed to service sector growth in many economies. Offshore outsourcing, online outsourcing, and crowdsourcing are heavily reliant on the Internet to provide economical access to remote workers and frequently leverage technology to manage workflow to and from the employer. Much computer freelance work is being outsourced to developing countries outside the United States and Europe. Freelance marketplaces provide a marketplace for freelancers and buyers. Service providers or sellers create a profile where they include a description of the services they offer, examples of their work, and in some cases information about their rates. Buyers register and complete a basic profile and then post projects outlining their requirements. Buyers will then bid for these projects on a fixed price or hourly basis.

29 Many of these websites have user

review sections that affect the reputation of freelancers who list there and which may be manipulated Freelance marketplaces have globalized competition for some jobs allowing workers in high and low income countries to compete with one another According to a 2016 study by the McKinsey Global Institute 15% of independent workers used online marketplaces to find work These marketplaces including Fiverr and Lyft have been criticized as exploiting workers Top 10 paying survey sites How to earn money online in India How to earn money online without paying anything How to earn money online without investment How to earn money online with Google How to earn money online in India for students How to earn money online without investment for students How to make money online for beginners How to earn money online Philippines Top 10 paying survey sites Make money online now How to make money online for free How to earn money online in India How to make money online for beginners Make money online with Google How to earn money online without investment How to make money online in Nigeria How to make money online without paying anything Top 10 paying survey sites Earn money app How to earn money online without investment How to earn money online in India How to earn money online with Google How to earn money from home How to earn money online without investment for students How to earn money online without paying anything How to earn money from home without any investment **Flat Fee Freelancer** Stephen Poynter,2020-10-19 It s time to take the free out of freelancing However many brilliant ideas diligent hours of work or good connections you have it won t mean a thing if you aren t charging enough How do I know I m Stephen Poynter and I ve worked a number of both corporate and entrepreneurial jobs including in wealth management consulting digital marketing vacation rental management and other pursuits ranging from even candy vending machines to audiobook narrating And I ve seen enough to know there are a lot of people with great potential that end up selling themselves short in the vibrant gig economy That s what I d like to help change In this book I ll show you Why billing an hourly rate similar to what you would make as an employee is about as sure a path to extinction as there is and why in fact you should probably charge at least 3 times more Why hours don t even matter in the first place How to convince both yourself and your clients of the true value of your labor How to structure project fees that reflect your results rather than your time and that help you stay alive and sane in the process If you are going to be part of the freelance economy I want you to do it well The flexibility autonomy creative potential and financial reward are there if you know how to do it right Pick up your copy of this guide now to get the best tips I ve learned on this journey I trust it will help you not only survive but thrive as a freelancer **Getting Started as a Freelance Writer** Robert W.
