Skeleton Woman:

The Legacy of the Goddess Rachel S. McCoppin, 2023-04-10 It is often assumed that the female characters found in popular folk and fairy tales are little more than inconsequential stereotypes mostly serving as hapless victims in need of rescue boring one dimensional princesses or egotistical and conniving villains This book presents more fully realized portraits of these female characters and the ways in which they actually represent bold and powerful connections to the goddesses of classic mythic narratives The rich legacy of female goddesses shamans queens and priestesses is in fact preserved and celebrated through these more modern representations whether as brides who can transform into animals wise old women who live alone in the deep wilderness strong warrior maidens or witches who can conquer and command the elements of nature In contemplating this revised analysis of female characters within global folktales and fairy tales readers can see that the goddesses of old have never truly been forgotten *Skeleton Woman* Alberto Villardo, Yoshi, 1995-09

Smith, 2014-08-11 *The Secret Dowry of Eve* Glynda-Lee Hoffmann, 2003-04-28 A groundbreaking study of the connection between spirituality psychology and neurophysiology that is coded into the book of Genesis Reveals why Eve was allowed to eat the apple of knowledge forbidden to Adam Uses mythological imagery to reveal the working processes of awareness in the human brain Combines ancient Qabalistic techniques and modern scientific brain research to show how Genesis is an operating manual for creating wholeness in the psyche Adam exists within all our psyches as does Eve While Adam represents the masculine component of consciousness pure intellect Eve represents the functions of the brain's frontal lobes the feminine intuitive integrator of the four level human brain If we wish to be whole we must develop and integrate the feminine with the masculine Using her lifelong study of the Qabalah and the secret meanings of the Hebrew alphabet Glynda Lee Hoffmann shows how the Garden of Eden story is actually an instruction manual that explains transcendence as a biological imperative Hoffmann reveals why it was permissible for Eve to eat the apple of knowledge that was forbidden to Adam Eve's desire for integration clarity and transcendence for wisdom is a goal Adam is biologically incapable of pursuing without her Though written as mythology Genesis contains remarkable scientific and psychological correlations that can help

an individual integrate the masculine and feminine sides of the psyche and thereby translate potential into actuality *I Survived the Eruption of Mount St. Helens, 1980 (I Survived #14)* Lauren Tarshis, 2016-08-30 The mountain exploded with the power of ten million tons of dynamite Eleven year old Jessie Marlowe has grown up with the beautiful Mount St Helens always in the background She s hiked its winding trails dived into its cold lakes and fished for trout in its streams Just looking at Mount St Helens out her window made Jess feel calm like it was watching over her somehow Of course she knew the mountain was a volcano but not the active kind not a volcano that could destroy and kill Then Mount St Helens explodes with unimaginable fury Jess suddenly finds herself in the middle of the deadliest and most destructive volcanic event in U S history Ash and rock are spewing everywhere Can Jess escape in time The newest book in the I Survived series will take readers into one of the most environmentally devastating events in recent U S history **The Gift of Story** Emily Griesinger, Mark A. Therapeutic Love and Heartfulness Gerry McNeilly,2025-03-14 This book introduces the concepts of therapeutic love and heartfulness combining models of group analysis art therapy and individual psychotherapy to present a new psychotherapeutic framework where non erotic love is engendered and evoked within therapeutic encounters The heart has often been conceptualised as symbolic of sexuality and eroticism with little meaning beyond the romantic and therefore often removed from psychotherapeutic perspectives Responding to this the author calls for placing the heart as the central point of reference in therapeutic work emphasising how it is touched during a therapeutic session This in turn gives way for the therapist s own emotions and thoughts such as empathy identification concern protectiveness and laughter to be released Building upon the author s 40 years of experience in practice and new developments in these models this book meanders through evolving theories and integrates them for both patients and trainees across backgrounds and cultures Enriched with the author s personal clinical vignettes and unique influences of music art golf and even Ireland this book aims to give a greater voice to the patient and their heart within the therapeutic space This book is essential reading for any counsellor therapist or analyst and offers a new way of looking at therapeutic endeavours across methodologies in all their simplicities and complexities

Three Plays Abhishek Majumdar,Prashant Prakash,Kalki Koechlin,Neel Chaudhuri,2011-01-19 A stunning array of voices guaranteed to make you think feel dream The MetroPlus Playwright Award was instituted in 2008 by The Hindu for the best original unpublished and unperformed English script Harlesden High Street by Abhishek Majumdar the 2008 winner is an evocative complex play about displacement and optimism Through its motley characters and shifts of time and space this play captures the limited world of immigrants their frustrations and their dilemmas The Skeleton Woman by Prashant Prakash and Kalki Koechlin the 2009 winners is a love story about two people who defeat fantastical odds to be together Swinging between reality and make believe it weaves together an Inuit folk tale and a modern day story about a young fisherman turned writer with a potent imagination and his long suffering wife Taramandal by Neel Chaudhuri the winner for 2010 borrows the protagonist from Satyajit Ray s short story Patol Babu Filmstar Chaudhuri uses a host of characters to masterfully construct a parallel narrative that mirrors Patol s journey to disillusionment Three Plays questions definitions and

pushes boundaries It is a powerful reminder of who and where we are on the cultural map Feminist Geopolitics Deborah P. Dixon, 2016-04-15 What can unfold from an engagement of feminist issues concerns and practices with the geopolitical How does feminism allow for a reconfiguration of how these two elements the geo and the political are understood and related What kinds of objects can be located and put into motion What kinds of relations can be drawn between these What kinds of practice become valued And what is glossed or rendered absent in the process In this thought provoking and original contribution Deborah P Dixon cautions against the exhaustion of feminist geopolitics as a critique of both a classical and a critical geopolitics and points instead to how feminist imaginaries of Self Other and Earth allow for all manner of work to be undertaken Importantly one of the things they provide for is a reservoir of concerns thoughts and practices that can be reappropriated to flesh out what a feminist geopolitics can be While providing a much needed sustained interjection that draws out achievements to date the book thus gestures forward to productive lines of inquiry and method Grounded via a series of globally diverse case studies that traverse time as well as space Feminist Geopolitics feels for the borders of geopolitical thought and practice by navigating four complex and corporeally aware objects of analysis namely flesh bone touch and abhorrence *Ecopoiesis* Stephen K. Levine, Alexander Kopytin, 2022-06-21 This book emphasises ecological nature assisted expressive and creative arts and art therapies within the context of the current ecological crises Rich in fresh theoretical perspectives this timely compendium of theory research and practice also provides methods and tools that can help the reader understand and incorporate new eco perspectives into their work Building on the concept of poiesis as the human creative function this book seeks to stress the importance of humanity s ecopoietic capacity creating a more sustainable life for humans It has been specifically created within the context of this most critical period of human existence and acts as a forum for innovation based on the values of the environmental movement and its desire to address the extensive sociopsychological impact of the ecological crisis **Sitting in the Circle** Jon Berenson, 2013-05 These 37 essays are rooted in the inspiration I experience in working with my patients and with participants at the Opening the Heart Workshop Though they are all very different in tone and content they are all about love in the small places off center stage They may have been about lifting a hosta leaf and finding a spider s web in diamonds of morning dew or about watching new grass grow holding a weeping patient in my office watching a man outside my office drag his leg behind as he carries groceries home They are all I think small love stories
