Epistemic Defeat Jan Constantin,2021-06-21 A number of well developed theories shed light on the question under what circumstances our beliefs enjoy epistemic justification Yet comparatively little is known about epistemic defeat when new information causes the loss of epistemic justification This book proposes and defends a detailed account of epistemic defeaters The main kinds of defeaters are analyzed in detail and integrated into a general framework that aims to explain how beliefs lose justification It is argued that defeaters introduce incompatibilities into a noetic system and thereby prompt a structured re evaluation process that makes a justified reinstatement of the defeated belief impossible The account is then applied to the topic of disagreement where it is used in an argument for conciliationism as well as a new explanation for higher order defeat Throughout the book the notion of defeat is the center of attention while a number of new issues are discussed at the intersections of defeat and justification Specifically new problems are raised for broadly internalist accounts of defeat a fully descriptive reliabilist account of defeat is provided and the case for normative defeat is revisited *Safe*

Education Marginalization in Sub-Saharan Africa Obed Mfum-Mensah, 2018-08-15 This book focuses on education policy framework for educating marginalized children in sub Saharan Africa It uses marginality as a critical discourse to highlight the complicated ways education policy making in sub Saharan Africa have constructed and perpetuated marginality in the region since Africa s encounters with Europe The book is organized around two parts each of which discusses a specific dimension of the marginality and education policy nexus Part I focuses on theorizations of marginality and education The theoretical framework on marginality and education outlines the definitional and conceptual backgrounds on marginality the complicated ways policies of the Christian missionaries colonial governments and postcolonial governments constructed and perpetuated marginality in the region Part II focuses on addressing the issue of marginality from theory to practice These chapters highlight the ways policies shaped the educational development schooling processes and educational outcomes of selected marginalized communities and groups Attention is given to schooling in rural communities the complexities of girls education in rural contexts education of Zongo Muslim communities violence in school in rural contexts and education collaboration in rural traditional communities The book argues that education policies in sub Saharan Africa fail to address the educational needs of marginalized children because current policy frameworks are not

based on examination of colonial policies which created the existing marginality In order to implement policies that address policy gaps and meet the educational needs of marginalized children strong synergies are necessary between education policy makers other education stakeholders and marginalized communities
