this study Robert James Merrett approaches Defoe's body of work using interdisciplinary methods that recognize dialectic in his verbal creativity and cognitive awareness. Examining more than ninety of Defoe's works, Merrett contends that this author's literariness exploits a conscious dialogue that fosters the reciprocity of traditional and progressive authorial procedures. Along the way he discusses Defoe's lexical and semantic sensibility, his rhetorical and aesthetic theories, his contrarian theology, and more. Merrett proposes that Defoe's contrarian outlook celebrates a view of consciousness that acknowledges the brain's bipartite structure and, in so doing, illustrates how cognitive science may be applied to further explorations of narrative art.

**Analytical Grammar of the English Language** Timothy Stone Pinneo, 1850     *The Satanic Epic* Neil Forsyth, 2009-01-10

The Satan of *Paradise Lost* has fascinated generations of readers. This book attempts to explain how and why Milton's Satan is so seductive. It reasserts the importance of Satan against those who would minimize the poem's sympathy for the devil and thereby make Milton orthodox. Neil Forsyth argues that William Blake got it right when he called Milton a true poet because he was of the Devil's party even though he set out to justify the ways of God to men. In seeking to learn why Satan is so alluring, Forsyth ranges over diverse topics from the origins of evil and the relevance of witchcraft to the status of the poetic narrator, the epic tradition, the nature of love between the sexes and seventeenth century astronomy. He considers each of these as Milton introduces them as Satanic subjects. Satan emerges as the main challenge to Christian belief. It is Satan who questions and wonders and denounces. He is the great doubter who gives voice to many of the arguments that Christianity has provoked from within and without. And by rooting his Satanic reading of *Paradise Lost* in Biblical and other sources, Forsyth retrieves not only an attractive and heroic Satan but a Milton whose heretical energies are embodied in a Satanic character with a life of his own.

**Black Directors in Hollywood** Melvin Donalson, 2003-12-01

Hollywood film directors are some of the world's most powerful storytellers, shaping the fantasies and aspirations of people around the globe. Since the 1960s, African Americans have increasingly joined their ranks, bringing fresh insights to movie characterizations, plots and themes, and depicting areas of African American culture that were previously absent from mainstream films. Today, black directors are making films in all popular genres while inventing new ones to speak directly from and to the black experience. This book offers a first comprehensive look at the work of black directors in Hollywood, from pioneers such as Gordon Parks, Melvin Van Peebles and Ossie Davis to current talents including Spike Lee, John Singleton, Kasi Lemmons and Carl Franklin. Discussing 67 individuals and over 135 films, Melvin Donalson thoroughly explores how black directors' storytelling skills and film techniques have widened both the thematic focus and visual style of American cinema. Assessing the meanings and messages in their films, he convincingly demonstrates that black directors are balancing Hollywood's demand for box office success with artistic achievement and responsibility to ethnic, cultural and gender issues.
