Slow Food:

The Pleasures of Slow Food Corby Kummer, 2002 *Slow Food* Carlo Petrini, 2004-10-06 Discusses the history and spread of the International Slow Food Movement which was sparked in 1986 when Carlo Petrini organized a protest against plans to build a McDonald's fast food restaurant near the Spanish Steps in Rome and discusses the movement's goals of preserving indigenous foods and eating traditions and returning to dining as a social event **Making Slow Food Fast in California Cuisine** Victor W. Geraci, 2017-03-02 This book follows the development of industrial agriculture in California and its influence on both regional and national eating habits Early California politicians and entrepreneurs envisioned agriculture as a solution to the food needs of the expanding industrial nation The state's climate geography vast expanses of land water and immigrant workforce when coupled with university research and governmental assistance provided a model for agribusiness In a short time the San Francisco Bay Area became a hub for guaranteeing Americans access to a consistent quantity of quality foods To this end California agribusiness played a major role in national food policies and subsequently produced a bifurcated California Cuisine that sustained both Slow and Fast Food proponents Problems arose as mid twentieth century social activists battled the unresponsiveness of government agencies to corporate greed food safety and environmental sustainability By utilizing multidisciplinary literature and oral histories the book illuminates a more balanced look at how a California Cuisine embraced Slow Food Made Fast **Slow Food Nation** Carlo Petrini, 2013-10-08 The leader of the Slow Food movement offers a hopeful manifesto for equitable sustainable and delicious food with systematic solutions for addressing the national food crisis Builds a case against fast food and offers ways to bring back the balance between nature and our table Bon Appetit By now most of us are aware of the threats looming in the food world The best selling Fast Food Nation and other recent books have alerted us to such dangers as genetically modified organisms food borne diseases and industrial farming Now it is time for answers and Slow Food Nation steps up to the challenge Here the charismatic leader of the Slow Food movement Carlo Petrini outlines many different routes by which we may take back control of our food Discover the 3 central principles of the Slow Food plan Food must be sustainably produced in ways that are sensitive to the environment Those who produce the food must be fairly treated Food must be healthful and delicious In his travels around the world as ambassador for Slow Food Petrini has witnessed firsthand the many ways that native peoples are feeding themselves without making use of the harmful methods of the industrial complex He relates the wisdom to be gleaned from local cultures in such varied places as Mongolia Chiapas Sri Lanka and Puglia Amidst our crisis it is critical that Americans look for insight from other cultures around the world and begin to build a new and better way of eating in our communities here **We Are What We Eat** Alice Waters, 2021-06-01 From chef and food activist Alice Waters an impassioned plea for a radical reconsideration of the way each and every one of us cooks and eats In *We Are What We Eat* Alice Waters urges us to take up the mantle of slow food culture the philosophy at the core of her life's work When Waters first opened Chez Panisse

in 1971 she did so with the intention of feeding people good food during a time of political turmoil. Customers responded to the locally sourced organic ingredients to the dishes made by hand and to the welcoming hospitality that infused the small space. Human qualities that were disappearing from a country increasingly seduced by takeout, frozen dinners, and prepackaged ingredients. Waters came to see that the phenomenon of fast food culture, which prioritized cheapness, availability, and speed, was not only ruining our health but also dehumanizing the ways we live and relate to one another. Over years of working with regional farmers, Waters and her partners learned how geography and seasonal fluctuations affect the ingredients on the menu, as well as about the dangers of pesticides, the plight of fieldworkers, and the social, economic, and environmental threats posed by industrial farming and food distribution. So many of the serious problems we face in the world today, from illness to social unrest to economic disparity and environmental degradation, are all at their core connected to food. Fortunately, there is an antidote. Waters argues that by eating in a slow food way, each of us, like the community around her restaurant, can be empowered to prioritize and nurture a different kind of culture, one that champions values such as biodiversity, seasonality, stewardship, and pleasure in work. This is a declaration of action against fast food values and a working theory about what we can do to change the course. As Waters makes clear, every decision we make about what we put in our mouths affects not only our bodies but also the world at large, our families, our communities, and our environment. We have the power to choose what we eat, and we have the potential for individual and global transformation simply by shifting our relationship to food. All it takes is a taste.

Slow Food Carlo Petrini, Ben Watson, Slow Food Editore, 2001-10-01

Remember the days before the dot com explosion, before Golden Arches rose from the Great Plains, before the Age of Information, when the only commodity that wasn't in short supply in America was time. Time to relax and reflect, time to cook well, eat well, and live the life of sustainable hedonism. Today we pound down our Big Mac and fries as we check our e-mail on our collective Palm Pilots at the expense of true nourishment for our bodies and souls. Enough, says Carlo Petrini, the founder of Slow Food International, a movement that encourages us to turn down the volume, unplug the answering machine, and enjoy life to its fullest. Away with nutraceutical soft drinks and breakfast cereals made from refined sugar and shaped like clowns. Bring back the pleasure of the palate and return the humanity to food. More than 60,000 members worldwide now belong to the Slow Food movement, which believes that the slow shall inherit the earth. Slow Food Collected Thoughts on Taste, Tradition, and the Honest Pleasures of Food is an anthology for cooks, gourmets, and anyone who is passionate about food and its impact on our culture. Drawn from five years of the quarterly journal Slow, only recently available in America, this book includes more than 100 articles covering eclectic topics from Falafel to Fat City, From the market at Ulan Bator in Mongolia to Slow Food Down Under. This book offers an armchair tour of the exotic and bizarre.
